## ENTERPRISE LUMBER CO

Improvements Soon to be Made Which Will Suspend Operations for a Short Time.

While the telegraph wires are constantly bringing news of strikes, shutdowns and reductions in wages among the manufacturing centres in other parts of the country, the Enterprise Lumber Co. is adding to her industrial enterprise and all are at work on full time with fair wages. A mutual feeling of confidence exists between employer and employee and the demand for the high grade output of our factories is increasing.

The Enterprise Lumber Company is not only among the oldest industrial establishments of Goldsboro, but it is also one of the largest. Its enterprising president Mr. Nathan O'Berry is nothing if not progressive. He is one of the best informed men in the lumber business in the South. And not only this, he possesses a practical knowledge of machinery and his plant is supplied with all the latest patents and patterns.

It has only been a short while since hand saws were added to this improved machinery at an enormous expense. These hand saws run with lightning rapidity and they save an eighth of an inch of timber in every line they cut over the old circular saw.

The Enterprise now has extensive improvements in view in the way of new machinery. The improvements are of such a nature that the mill will suspend operation after this week until they are completed. The entire force of hands will be employed in the changes that are to be made and no time will be lost.

## England Buys all the Coal.

London, Feb. 11.—A despatch to the Daily Mail from Singapore says that the British Admiral, acting under instructions from the Admiralty, has bought all the available Welsh coal at Singapore and at the Chinese and Japanese ports, with the result that the foreign squadrons in the waters of north China are almost immobilized. The step has excited the foreign community. The despatch adds that the Russian cruiser Russia, which is now at Singapore, has been allowed to take on board 2,000 tons of coal.

## Relief in Six Hours.

Distressing Kidney and Bladder diseases relieved by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. ## Want McKinley Impeached.

Albany, N. Y., Feb. 11.—In the Assembly to-day when the Weeks resolution asking for the resignation of U. S. Senator Murphy was called up Mr. Weeks offered a substitute, which censured, but does not demand resignation. A protracted discussion was precipitated, and Mr. Oliver, Democrat, of New York, introduced several substitutes, one of which calls for the impeachment of President McKinley for aiding in the election of United States Senator Hanna.

## Chamberlain's Cough Remedy Always Proves Effectual.

There are no better medicines on the market than Chamberlain's. We have used the Cough Remedy when all others failed, and in every instance it proved effectual. Almost daily we hear the virtues of Chamberlain's remedies extolled by those who have used them. This is not an empty puff, paid for as so much a line, but is voluntarily given, in good faith, in the hope that suffering humanity may try these remedies. And, like the writer, be benefited. From the Glenville (W. Va.) Path-Boiler. For sale by M. E. Robinson & Co., and Miller's Pharmacy, in Goldsboro, and by Jno. R. Smith at Mt. Olive.

A woman's attractiveness in the eyes of man depends largely on her physical appearance. Nature, in order to preserve the race, guides, marking by the instinctive preference for a mate who is physically sound and wholesome.

If intellect alone were chiefly sought, the offspring might be a generation of Solomon for wisdom, but they would perish in infancy for want of physical stamina.

A weak or unhealthy woman is unfitted to fulfill her part in perpetuating the race; she is unequal to the demands of motherhood and wifehood, she is robbed of her natural womanly attractiveness.

Many a woman is cheated of life's choicest gifts by a dyspeptic, bile-poisoned condition of the system, which shows itself in a pimply skin, sallow complexion, tainted breath, and, in general, a listless, life-giving blood.

The most perfect remedy for all the mortifying symptoms of mal-nutrition and impure blood is Dr. Pierce's Golden Medical Discovery. Through its remarkable effect upon the liver and digestive organs it sweeps all impurities out of the circulation and creates a fresh supply of new, rich, life-giving blood.

It gives clearness and bloom to the complexion; sweetens the breath; rounds out the face; and invigorates the entire constitution with vital energy.

"Discovery" should be supplemented with Dr. Pierce's Pleasant Pellets.

"I was a complete wreck; appetite gone, nervous system impaired, could not sleep, and was so weak that I could not stand on my feet ten minutes," writes Miss Ella Bartley, of No. 2154 South Grant Avenue, Columbus, Ohio. "I only needed six weeks when I commenced taking Dr. Pierce's Golden Medical Discovery. After I had taken a half bottle I began to improve; I could sleep soundly the whole night, and would awaken with an appetite for breakfast, which was a rare thing. Two years have now passed, and I have a hearty breakfast, I now have a excellent appetite, and my friends say they never saw me looking better or in better spirits since I commenced taking it. I tell them it is all due to Dr. Pierce's 'Discovery'."

In all cases of obstinate constipation, the "Discovery" should be supplemented with Dr. Pierce's Pleasant Pellets.

## A History-Making Period.

These are not humdrum times by any means. History-making on a large scale is going forward, faster perhaps than it ever did before. Within a generation the German empire and the almost equally strong new Roman empire have been formed. The rule of Mahomet is disintegrating. All Africa is in course of occupation and development, and China, that most ancient empire of the earth is becoming the prey of highly civilized robbers and trade-hunters. Every one of these great mapping movements is not of today only. They are far reaching. A thousand years from to-day historians will go back to this age for facts of origin.

The fall of the Roman empire, the sailing of Columbus and the Reformation were epochal in their nature, but it is doubtful whether a thousand years from to-day they will outrank England's occupation of Central Africa, or the breakup of the Chinese empire that Japan facilitated and made easy. People do not stop to think of the magnitude of the Chinese empire—the hundreds of millions that live there and in Central Africa. The fate of fully one-half of the people in the world is to be determined by events now impending.

If England succeeds in securing a stretch of territory extending from Cairo to Cape Town through the heart of Africa, the foundations will be laid for an empire greater than even that of Rome in the days of the Caesars. The world gives little attention to these English efforts, but they are progressing just the same, and the other hands will wake up after a while to the fact that another English empire has been established. There will be objections on the part of non-colonizing France or Germany, but in the end England will have her own way. She always does. It is in the blood. It is destiny.

But China is the interesting problem of the time. Unwieldily unwieldy, unprogressive, she totters to a fall. Who are to gather in the immense fragments? England is there, too. She is there behind iron walls, with guns in her hands. They are guns that no nation or combination of nations can afford to disregard. There is just one chance for China. It is Turkey's chance.

The jealousies and fears of the powers may demand that she be held together, and that unite to see that exclusive occupation be granted to no country. This would prolong the life of the ancient empire, but there will be trade and railroad and telegraph conditions annexed to it that will change the people in every other respect. The old China will pass away in an event.

## AS IT REALLY WAS.

Story of the Trouble of Tuesday Night's Duel in the Dark Between Tom Hill and S. F. Duffy.

Newbern Journal, Feb. 11.

Nearly all the papers in the State have had long accounts of the shooting affair that took place in this city on Tuesday night. The true facts had better be given. They would have been published by the Journal at once, but for the request of many prominent people.

The story of the origin of the trouble is as follows: Tom Hill is related by marriage to F. S. Duffy. His sister married one of the Duffy boys. Hill has been visiting at the Duffy residence on George street, but his visits were not desired by the family. Mr. Hill has not acquired an enviable reputation. He has a wife living in the north, and could not be welcomed in any home under such circumstances.

Mr. Duffy notified Mr. Hill that he could not come to his home. However, Mr. Hill maintained that his intentions were honorable, and that when he obtained a divorce, he wished to marry Mr. Duffy's sister, to whom his attentions were being paid. Mr. Duffy, however, absolutely forbid him to come to the house.

Last Tuesday the relations of Mr. Hill with druggist C. D. Bradham were severed, and he was to leave Newbern the next day. He, therefore, planned a clandestine meeting with the young lady, which took place in the rear of the residence that evening after dark. This yard is a handsome flower garden and has a regularly used gate which opens through a high fence on Eden street.

Mr. F. S. Duffy, however, returned from his drug store while the tryst was occurring in the garden and missed the young lady. He visited several houses to find her, but could not. He then went to the foot of Eden street, to the new Trent river bridge, surmising that the couple were together, and thinking they might be found there. Not finding any trace, he returned by the rear gate on Eden street and there he came upon the young couple, seated on a bench and conversing.

The young lady stepped forward, but Mr. Duffy pushed her to one side, and going to Hill, he told him that he would kill him and to defend himself if he could. Who fired first in the darkness and what was done or said in that tragic moment even the combatants could not probably now recall, but both men were armed and were not afraid and fought at less than six feet. Not less than ten shots were fired. Hill received one in his leg and two went through his coat. Duffy was wounded twice, once in the lower leg and once above the knee, where the ball grazed the great artery by a hair's breadth. Duffy's revolver was emptied and he turned back to his house, declaring that he would re-load and return.

Aided by the nery young woman, and half carried by her away from the scene, Hill finally reached medical care. He refused absolutely to say a word about the affair. He would not tell anything by which even a guess could at first be made. Hence many theories were started to account for the case. But with several witnesses of the retreat and with another wounded man under the doctor's care, the facts gradually came to light.

These facts are stated as above as gleaned from all those in a position to know, with the exception of the two immediately concerned in the struggle. They have made no direct statement for publication.

## HANNIS TAYLOR ON DE LOME

Says He Ought to Leave the Country at the Earliest Opportunity.

Mobile, Ala., Feb. 11.—The Hon. Hannis Taylor, former Minister to Spain, who is attending the Quarantine Convention in this city, was interviewed regarding the De Lome incident to-night and expressed in emphatic terms his approval of the course of the Administration in dealing with the Minister. Mr. Taylor declared that through President McKinley De Lome had offered a gratuitous affront to the whole American people and that the quicker he left American shores the better. At the same time he said he was astounded at De Lome's indiscretion, as he was undoubtedly the ablest diplomat in the service of Spain, and that his criticism of the Administration was extremely ungrateful, in view of the uniform courtesy which he had received. Mr. Taylor thinks the affair will lead to increased bitterness on the part of both nations, but believes that it will not precipitate any serious international complications. Mr. Taylor says it will be hard to find a man to take De Lome's post who can successfully survive the crisis which the latter has met so masterfully.

## Took a Severe Cold after the Big Fire.

After the big fire in Cripple Creek, I took a very severe cold and tried many remedies without help; the cold only becoming more settled. After using three small bottles of Chamberlain's Cough Remedy, both the cold and cough left me, and in this high altitude it takes a meritorious cough remedy to do any good.—G. B. Henderson, Editor Daily Advertiser, Cripple Creek, Colo. Sold by M. E. Robinson & Co., and Miller's Pharmacy, in Goldsboro, and by Jno. R. Smith at Mt. Olive.

## A HOSPITAL PATIENT.

Writes a Letter to the Argus Expressing His Gratitude to the Management of the Emergency Hospital.

The readers of the Argus will remember that about two months ago Moses Hunt, a colored brakeman on the W. & W. R. R., fell from a freight train at Fremont and had his leg so badly crushed that it had to be amputated, and he was brought to the Emergency Hospital in this city, where the work was done and where he has remained since.

The skilled medical attention and excellent nursing that he has received at the Emergency Hospital has helped him to get well and before leaving to-day for his home in South Carolina he has written the following letter expressing his gratitude to those in charge of the Hospital:

EDITOR ARGUS:—Before leaving your city and the Emergency Hospital, where I have been a patient for more than two months, I desire to make known to the public, through your valuable paper, my great satisfaction with the skillful and kind treatment I have received while in the Hospital.

By a railroad accident, one of my limbs was so broken and crushed, that when carried to the Hospital amputation was necessary. And from that day when I entered, and passed through that painful operation, I have received nothing but kindness and care. The doctors Cobb, who had my case in charge from the beginning, have been especially attentive and skillful in their treatment of me. The Chairman of the Executive Committee and the members have shown me unceasing sympathy and kindness. The matron and the nurse have been very attentive and did much to make my condition as comfortable as possible. Many of the citizens have also shown me kindnesses, which I greatly appreciate and for which I am sincerely thankful. I shall ever remember with gratitude the kindness which I, a stranger among you, have received. Permit me in closing, to express my high appreciation of the Matron, Mrs. Boone, and of the wisdom and faithfulness with which the affairs of the Emergency Hospital are conducted, and my gratitude to its officers.

Yours, etc.,  
MOSES E. HUNT.  
Emergency Hospital, Goldsboro, Feb. 12, 1898.

In a recent letter from Washington, D. C., to an old friend Major G. A. Studer, for twenty years United States Consul at Singapore, says: "While at De Lome's post, I was acquainted with a salve known as Chamberlain's Pain Balm, which I found excellent against rheumatism as well as against soreness of the throat and chest (giving me much easier breathing). I had a touch of pneumonia early this week, and two applications of Chamberlain's Cough Remedy relieved me of it at once. I would not be without it for anything." For sale by M. E. Robinson & Co., and Miller's Pharmacy, in Goldsboro, and by Jno. R. Smith at Mt. Olive.

## Harden-Hickey a Suicide.

El Paso, Tex., Feb. 11.—Baron Harden-Hickey, a nobleman of France and son-in-law of John H. Flagler of New York city, whose exploits on two continents have been exciting and romantic, chose this place in which to kill himself. His lifeless body was found to-day in his room at the Pierson Hotel, and it was not until his papers had been examined by the authorities that the man's identity became known.

Whooping cough is the most distressing malady; but its duration can be cut short by the use of One Minute Cough Cure, which is also the best known remedy for croup and all lung and bronchial troubles. J. H. Hill & Son, Goldsboro, and John R. Smith, Mt. Olive.

Wives are more liberal than husbands. The wife who has a mind of her own is apt to give her husband pieces of it.

We are anxious to do a little good in his world and can think of no pleasanter or better way to do it than by recommending One Minute Cough Cure as a preventive of pneumonia, consumption and other serious lung troubles that follow neglected colds. Robinson & Co., and Miller's Pharmacy, in Goldsboro, and by Jno. R. Smith at Mt. Olive.

Fifty Years Ago.  
This is the stamp that the letter bore which carried the story far and wide. Of certain cure for the lumbago sore that bubbled up from the tainted tide of the blood below. And 'twas Ayer's name and his sarsaparilla, that all now know, that was just beginning its flight of fame with the cure of 50 years ago.

## Ayer's Sarsaparilla

is the original sarsaparilla. It has behind it a record for cures unequalled by any blood purifying compound. It is the only sarsaparilla honored by a medal at the World's Fair of 1893. Others imitate the remedy; they can't imitate the record.

## Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was cured from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 30. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."
