Russell Sage Says it is No Question as to Where the Rich Man Stands.

New York, Feb. 26 -Russell Sage gave out the following authorized interview tosday: "From all the information received, there is little doubt in my mind that our warship was blown up by outside agencies, and if the naval commission so reports, the time for action has come. There should be no wavering. This government must demand the fullest reparation, and that without delay Whatever action, war or otherwise, President McKinley may take, he should and will have the fullest support from both rich and poor, Republicans and Democrats. There is no question as to where the rich man stands. In the civil war, when it broke out, I bought government bonds, and I did the same in 1864 So did dence in our government. If the necessity arises now I will do the same again generously; so will
