DEMOCRATIC PRIMARY.

Goldsboro Township Nominates Delegates and a Tax Collector and Justices of the Peace.

The mettle and mood of the Democrats of Goldsboro township was tested by a storm of unusual violence Friday night, and the large number who came out through the driving rain and blinding lightning and filled the court house full, proved conclusively that the battle of November will be one of victory for Anglo-Saxon supremacy in the good old county of Wayne.

The convention was called to order and presided over, under the plan of organization, by the township chairman, Mr. Lon E. Pridden, and Messrs. Jos. E. Robinson, of the Anous, and H. B. Parker, Jr., acted as secretaries.

Hon. W. R. Allen, chairman of the Democratic Executive Committee of the county, was present and stated the plan of organization; and on motion of Mr. W. T. Dorchel, the chairman was authorized to appoint a committee of one from each voting precinct in the city and one for the township outside, who together should retire and select a due quota of delegates for each precinct and report the same for the consideration of the convention. The chair thereupon appointed Messrs. W. T. Dorchel, Chas. Dewey, J. E. Peterson, W. D. Creech and W. H. Hood, who retired and subsequently reported the following well selected and admirably distributed list, as to vocations, of delegates to represent the township in the county convention, and the same were duly elected, being voted upon by precincts and unanimously adopted as a whole.

Outside Precinct—L. E. Pridden, W. H. Hood, J. C. Bardin, A. M. Prince.

Precinct A—J. H. Hill, E. G. Porter, Asher Edwards, F. K. Borden, Jno. D. Smith.

Precinct B—N. O. Berry, J. S. Bizzell, S. W. Drayer, Richard Johnson, J. W. Pipkin, W. H. H. Cobb, J. W. Gardner, J. W. Edwards, T. W. Slocumb, E. W. Cox, W. T. Dorchel.

Precinct C—J. M. Powell, Henry Weil, W. G. Britt, W. T. Telverton, R. E. Pipkin, W. H. Godwin.

Precinct D—W. H. Sutz, G. W. Daughtry, D. J. Broadhurst, W. D. Creech.

Mr. Willis A. Denmark was unanimously renominated by acclamation for township Tax Collector, as was also Mr. Henry Grady for township Constable.

Messrs. D. J. Broadhurst, A. M. Prince, Jno. H. Hill, and W. H. Collins were nominated for Justices of the Peace for the township to fill occurring vacancies by expiration.

The convention then adjourned amid great enthusiasm.

Not a Candidate.

Fremont, N. C., Aug. 20, '98. Editor Argus—Please permit me to say to my friends and to the people of the county that I am not a candidate for any office, and under no circumstances could I accept a nomination if tendered me. I love the Democratic party and am willing to do all I can for its success. I hope to see all join in and work for white supremacy and good government.

Respectfully,

W. R. Hooks.

Butler Declares Against Fusion.

Houston, Texas, August 20.—In a speech at the big populist encampment at Greenville yesterday Senator Marion Butler, of North Carolina, national chairman of the populist party, surrendered to the middle-of-the-roads or anti-fusionists. He declared that as national chairman he would promise that there would be no trades or combines with either of the old parties before the next national convention; that he would call that convention at least a month before the democratic or republican conventions convened, and thus prevent any opportunity of fusion.

Great Naval Assemblage.

Washington, August 20.—One of the largest fleets of warships ever assembled in an American port will be brought together in the next few days at Fort Monroe. Already fifty-seven warships are under orders to rendezvous there, and the orders still to be issued will raise the total to the neighborhood of seventy. Naval officials say it is difficult to realize the extent of such a marine aggregation in one harbor.

THE FARMERS' WAREHOUSE.

WHY IT WAS ESTABLISHED AND THE REASONS OF ITS SUCCESS.

The Public Spirit that Prompted Its Young Proprietors Is Being Appreciated and Rewarded by the Farmers.

IT STANDS FOR THE FARMER.

When the Goldsboro tobacco market was first inaugurated it was purely an experiment, and so wary were the promoters of the enterprise that it required the combined subscriptions of many before stock sufficient for the construction of the first sales warehouse could be secured; and with this accomplished and the warehouse thrown open to the public, it soon became evident that one warehouse could never make Goldsboro a tobacco market, and that the essential requisite to her success in this regard was more warehouses. Business men conversed with one another and all talked together, yet their conclusions were always the same—another warehouse is vitally essential, more warehouses must be built or success cannot be achieved.

At this critical stage in the experience of our community in regard to the needs of its new venture, two of Goldsboro's young men, impelled by public-spirit and buoyed by faith in the future of the city, and trusting in the appreciation of the farmers who would be benefited by their undertaking,—Messrs. W. E. Borden and Chas. N. Edgerton associated themselves together and out of the fruits of their individual industry determined to give to Goldsboro and the farmers another warehouse, commensurate with the needs of the market and equipped with every convenience for handling tobacco to the best advantage.

Having arrived at this determination, the next thing was a convenient location, familiar to every farmer, easy of approach and with ample stable room convenient.

The unused portion of the Court House square offered all these advantages, and the Board of County Commissioners being interviewed and recognizing this as a golden opportunity for converting an unsightly waste of unprofitable land into a mecca of unflinching wealth for the farmers who might seek its spacious floor with the ripened fruits of their toil, as the years come and go, readily granted these young men a long term lease, and the result is the "FARMERS' WAREHOUSE," imposing in its magnificent proportions, inviting in its shapely beauty, its broad and burnished floor beaming from myriads of skylights and side windows, thus affording to the farmer the best possible opportunity of displaying his tobacco to full advantage, and the farmer who consigns his tobacco to its floor can always be sure of realizing satisfactory returns.

For three years, now, the Farmers' Warehouse has invited the patronage of tobacco growers, and its experience has been that of increasing business each year, while its influence upon the market has been incalculable value, in widening the territory of our trade, in increasing the acreage, and in educating and inspiring the farmers in the cultivation of tobacco to best advantage; and its energetic and public spirited young proprietors, who have done so much in this regard, are now realizing in the golden stream of patronage that daily flows in upon them that the farmers know how to appreciate and reward their friends.

This year the Farmers' Warehouse is better equipped than ever before. Its management always caters to the best interest of the farmer in every sale, because buyers may come and buyers may go, but the farmer is here to stay—and so is the Farmers' Warehouse and its proprietors.

Goldsboro this season has the largest and best corps of buyers in the State, and these attend every sale on the floor of the Farmers' Warehouse, and while the bidding is spirited, the auctioneer, Mr. J. J. Meador, is an expert in the grades and value of tobacco, and he never lets a sale go till the best market price is realized.

The Best Remedy For Flux.

Mr. John Mathias, a well known stock dealer of Cataki, Ky., says: "After suffering for over a week with flux, and my physician having failed to relieve me, I was advised to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the pleasure of stating that the half of one bottle cured me." For sale by M. E. Robinson & Bro., and Miller's Pharmacy, in Goldsboro and by Jno. F. Smith at Mt. Olive.

MANILA'S FALL.

Washington D. C., August 18.

—Admiral Dewey's official announcement of the bombardment and surrender of Manila has been received as follows:

"Manila, August 13th.

"Secretary of the Navy, Washington, D. C.:

"Manila surrendered to-day to the American land and naval forces, after a combined attack. A division of the squadron shelled the forts and entrenchments at Malate, on the south side of the city, driving back the enemy, our army advancing from that side at the same time. The city surrendered about 5 o'clock, the American flag being hoisted by Lieutenant Brumby. About 7,000 prisoners were taken. The squadron had no casualties. None of the vessels was injured.

"On August 7th, General Merritt and I formally demanded the surrender of the city, which the Spanish Governor General refused. (Signed) "DEWEY."

Thomas M. Brumby, flag lieutenant to Admiral Dewey, is a Southerner, having been appointed to the Naval Academy from Georgia. His present rank, dating from August 24th, 1892, is that of lieutenant, senior grade, his number on the list being 135.

AUGUSTI COULD NOT SURRENDER.

The Cortes to be Convoked: Senor Sagasta Begins to Hesitate.

Madrid, August 20.—The Government has resolved to insist that the capitulation of Manila after the signing of the protocol shall have no effect in the peace negotiations unfavorable to Spain.

In any event the Government holds that the capitulation, having been signed by the commander of the town, does not entail the surrender of the whole of the Philippines.

All the indications are that the peace negotiations will be prolonged. The opposition factions are redoubling the agitation for convoking the Cortes, and it is said that Senor Sagasta begins to hesitate, although he shares the opinion of Duke Almodovar de Ido, the Foreign Minister, as to the inconvenience involved in a meeting of the Cortes and a series of debates during the peace negotiations.

It is possible that the Cortes will meet after the elections to the councils general about the middle of September.

HAY'S SUCCESSOR.

A Question That Agitates England and all European Diplomats.

London, Aug. 20.—The question of Ambassador Hay's successor is one of the greatest concern to the British foreign office and the whole European diplomatic world. The danger which the British government fears and which those opposed to American interests secretly hope is the appointment of a man unacquainted with intricate problems now in a most acute phase. The solution of the dilemma which would meet the approval of diplomatists friendly to the United States would be to entrust American interests for the remainder of Hay's term to Henry White, now secretary of the embassy.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was recommended that I should try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—O. L. Biggs, Gilmer county, W. Va.—For sale by M. E. Robinson & Bro., and Miller's Pharmacy, in Goldsboro, and by Jno. F. Smith at Mt. Olive.

A SUN THAT HAS SET.

The Pathos of the Ruin that Has Overtaken Poor Old Spain.

St. Louis Globe-Democrat.

Despite that nation's follies and wickednesses there is a tinge of pathos in the acknowledgement of the Madrid newspaper, the Liberal, that "Spain's mission in the world is now completely ended." The close of a geographical and political connection which has lasted for more than four centuries is marked by the peace stipulation which forces the Spanish troops to evacuate Cuba and Porto Rico. From the hemisphere which Spain discovered, which she colonized earlier than any other nation, and on which she once held more territory than all the other countries combined, the Spanish flag now vanishes. The magnificent estate which Columbus gave to Isabella and Ferdinand, which the great Charles thought was the most valuable part of his worldly possessions, and which Philip supposed he had bequeathed to his people in perpetuity, gradually shrunk to the last fragment of it leaves Spanish hands forever.

Nowhere in the thousand of years of recorded time does history furnish a more striking contrast than Spain's connection with the new world presents. When Philip II ordered the arrest of Drake for his presumption in sailing the western coast of North America without Philip's permission, all of South America except Brazil, all of Central America and the West Indies, and the greater part of North America which had been colonized by any nation belonged to Spain, and the Pacific Ocean was a Spanish lake. In the year 1800 Spain's territory stretched from the southern line of Oregon down to Cape Horn. She had the whole of the region along the west side of the Mississippi from the Canadian line to the Gulf of Mexico, a strip of territory north of the Gulf extending east from the Mississippi to and including Florida, and almost all of the continent south of that line. Within the next quarter of a century she had lost all of this immense domain except the Islands of Cuba and Porto Rico, which now drop from her hands. Part of it she was coerced into ceding to France; another part, under pressure, she gave to the United States; and the rest of it—Mexico, Chile, Peru, Colombia, and other states of Central and South America—broke away from her and set up governments for themselves.

Alone of all the nations which have filled a large place in history, Spain is feeble to day than she was when the century began. Of the world empire which she had in Philip II's time, and a large part of which remained down to the reign of Ferdinand VII, nothing is now left outside of the peninsula except part of the Philippines, which she probably have to surrender, some territory in Africa, which has only a handful of inhabitants, and a few isolated islands in European waters and in the Pacific. Nothing in the history of any nation of the world except the collapse of Alexander's empire after the great Macedonian's death, or Rome's fall when Odoacer overthrew the shadow of a throne of the "Little Augustus," equals the swift and sweeping ruin which has overtaken Spain since the end of the eighteenth century. Yet in this day of Spain's tribulation, which her political infamies and ineptitudes have brought upon herself, there will be no rejoicing in this country at her downfall. On the contrary, what was once said of Venice, America will here say of a greater state than Venice:

And what if she had seen those glories fade,

Those titles vanish and that strength decay—

Yet shall some tribute of regret be paid

When her long life hath reached its final day.

Men are we and must grieve when even the shade

Of that which once was great has passed away.

Scrofula, a Vile Inheritance.

Scrofula is the most obstinate of blood troubles, and is often the result of an inherited taint in the blood. S. S. S. is the only remedy which goes deep enough to reach Scrofula; it forces out every trace of the disease, and cures the worst cases.

My son, Charlie, was afflicted from infancy with Scrofula, and he suffered so that it was impossible to dress him for three years. His head and body were a mass of sores, and his eyesight also became affected. No treatment was spared that we thought would relieve him, but he grew worse until his condition was indeed pitiable. I had almost despaired of his ever being cured, when by the advice of a friend I bought S. S. S. (Swift's Specific). A decided improvement was the result, and after he had taken a dozen bottles, no one who knew of his former dreary condition would have recognized him. All the sores on his body healed, his hair began to grow, and he has been, and he has been, restored to perfect health.

For real blood troubles it is a waste of time to expect a cure from the doctors. Blood diseases are beyond their skill. S. S. S. For the Blood reaches all deep-seated cases which other remedies have no effect upon. It is the only blood remedy guaranteed purely vegetable and contains no poisons, mercury, or other mineral.

Nails Beneficial to Fruit Trees

Nails driven into fruit trees, as near the ground as possible, are said to have the effect to make such fruit trees more healthy, vigorous, and excellent fruit bearers than those into which no ten penny nails have been driven. The reason why the nail in the tree is so beneficial in fruit bearing is that worms will not attack the tree because the oxidation or rusting of the iron by the sap involves ammonia, which, as the sap rises, will, of course, impregnate every part of the foliage, and prove too drastic a dose for the delicate palates of intruding insects. The salt of iron afforded by the nails is extremely offensive to the worms, while it is not only harmless but beneficial to the foliage and fruit of the tree.

LEMONS AS MEDICINE.

They regulate the Liver Stomach, Bowels, Kidneys and Blood as prepared for Dr. H. Moziey, in his Lemon Elixir, a pleasant Lemon drink, it cures biliousness, constipation, indigestion, headache, malaria, kidney disease, fevers, chills, impurities of the blood, pain in the chest, heart failure, and all other diseases caused by a torpid or diseased liver and kidneys—nine-tenths of all the diseases of the South and West are caused by the failure of the liver and kidneys to do their duty. It is an established fact that lemons, when combined properly with other liver tonics, produce the most desirable results upon the stomach, liver and bowels, kidneys and blood, sold by druggists. 50c and \$1 bottles.
