

Goldboro Weekly Argus.

This ARGUS o'er the people's rights,
Doth an eternal vigil keep
No soothing strains of Ma's'son,
Can lull its hundred eyes to sleep.

VOL. XVII.

GOLDSBORO, N. C. THURSDAY, JUNE 1, 1899.

NO 106

ROYAL Baking Powder

Made from pure cream of tartar.

Safeguards the food against alum.

Alum baking powders are the greatest menaces to health of the present day.

ROYAL BAKING POWDER CO., NEW YORK.

OUR LOCAL OPTIC.

The death of Mrs. Olivia Epps, widow of the late Mr. Peter Epps, and mother of Mr. John Epps, occurred Saturday morning at 5:20 o'clock, at her home in Webb-town, in the 69th year of her age. She was a devoted member of the Methodist Episcopal church and a most estimable woman in all relations of life.

Mr. Will Kennedy arrived home last week from Savannah where he has been detained in the hospital corps since the 1st N. C. Regiment was mustered out, several days ago. He got his final discharge yesterday. His many friends and companions are glad to see him and are glad to know that he is in good health and excellent spirits.

Elsewhere in this issue will be found a most interesting, timely and instructive article from the gifted pen of a gifted woman, Mrs. C. P. Stetson, commending the original idea and artistic work of one of Goldsboro's most talented young women, Miss Caddie Fulghum. All who have visited her school room have been profoundly impressed with her genius as an artist and her skill as a teacher.

Mrs. Josephine T. Allan, has issued invitations to the marriage of her daughter, Miss Susie, to Mr. Samuel Herbert Edwards, on Wednesday evening, June twenty-first, at seven o'clock, in the Methodist Episcopal Church, at Morrisville, Va. Mr. Edwards is an old Goldsboro boy and has many friends here who will tender their congratulations upon the happy event.

The beautiful residence of Mr. and Mrs. Chas. Dewey, that has been in course of construction for the past six months, and is now receiving the finishing touches, is by far the handsomest in the city, and in artistic design and convenience of appointments we doubt if it is surpassed anywhere in the State. They are now moving into their new home, and the ARGUS wishes them long years of health and happiness in which to enjoy its comforts and the visitations of their friends.

DOMESTICATED.

The Provident Savings Life, of New York, has qualified under the new Craig Bill, paid its license fee, and will continue to offer its attractive policy contracts to the citizens of North Carolina.

It was not lost faith in the sense of justice and fair dealing that has always characterized the great ruling majority of the electors of the Old North State.

It is estimated that the writings of this company for the month of May will reach the astounding total of seven millions of dollars.

Its General State Manager, Mr. J. Sterling Jones, of Greensboro, is in the city and holds open for first-class men several district agencies, that offer big results to well directed energetic efforts. We advise men of spirit, capacity and ambition to see Manager Jones or his Superintendent of agencies, J. J. Mackay, Esq., who is also in Eastern North Carolina.

Elsewhere in this issue will be found a manifesto showing the remarkable growth of this company, which is so meritoriously established in the confidence of the public wherever its business features are known.

Relief in Six Hours.

Distressing Kidney and Bladder Disease relieved in six hours by "New Great South American Kidney Cure." It is a great surprise on account of the exceeding promptness in relieving pain in bladder, kidneys and back, in male or female. Relieves retention of water almost immediately. If you want quick relief and cure this is the remedy. Sold by M. E. Robinson & Bro., Druggists Goldsboro, N. C.

WHAT ONE TEACHER IS DOING.

Charlotte Perkins Stetson in Southern Educational Journal.

Why one should ever have imagined that blank, whitewashed walls, relieved by level lines of blackboard, were good educational influences it is hard to say. In a penal institution, intended as a part of the punishment, there is, perhaps, a reason for condemning the helpless inmates to the depressing monotony of such surroundings, or in an insane asylum it may be imagined that the clouded intellect of the patient is past being injured by this dreary environment, though even this judgment is open to question; but in a schoolhouse, where the acute young mind, the eager, open senses are so intensely alive to all impressions, why should this dull blank be presented as a daily influence?

The effect of beautiful surroundings on the human soul is deep and salutary; the elevating, stimulating forces of a noble art can hardly be overestimated, and childhood is the period when these things make their deepest impression. Where the homes of our children are desolate of all such ennobling conditions, owing to the poverty or the ignorance of parents, it is even more important that the school should embody the highest thought, the tenderest feeling, and so teach the children to make lovelier homes when they are men and women.

Education is a far larger thing than can be embodied in half a dozen school books, and art is not only a means of giving pleasure, but a help to all high purpose and true endeavor. Our modern methods of reproduction make possible a wide and cheap distribution of the best works of art, and an intelligent community will be as careful to surround its children with good art as it is to provide them with good food, clothing and shelter.

Meanwhile, before the community recognizes its duty, the individual is doing much, and the movement for "art in the schools" progresses promisingly in our great cities. Not only that, but in every town and village, in every schoolhouse in the land, the individual teacher can do much. In Goldsboro, N. C., the graded school has the advantage of one teacher who is herself an artist, and she has instituted a method of decoration as simple as it is impressive. On the blank, bare walls, with no better medium than chalk—common chalk in brown and white—she has, with her own hands, reproduced some of the great pictures of the world, Murillo, Raphael, Van Dyke, Millet, Kraus, Bouveret, Botticelli, Andrea del Sarto, she has brought these great masters into daily contact with her flock of little ones, and they respond irresistibly to the subtle influence. The divine smile of holy motherhood, the child born in the manger, saint and angel, and the sweet pictures of human life and love—these are to their daily sight—a constant suggestion of high purpose and right living. In the very shallowest sense it adds greatly to "a liberal education" to know something of art and artists; in the deepest sense it is the inspiration of a lifetime to become early acquainted with the most beautiful expression of the noblest ideals.

Miss Fulghum is doing a great work, and the stranger passing through the country rejoices to see this one fountain in the wide, dry field. Would it not be well for the teachers all through the country to compare notes as to what they are doing to bring this help to their children, to do more if they are able, and where the teacher's ability fails, surely the school boards, backed by public opinion, will furnish what the teachers cannot.

This particular form of free-hand reproduction on the wall itself has the primal merit of cheapness and ease; every school in the country could be so decorated as fast as hands could be found to do it. The summer gives the time—the walls the space—another year could see our children's school-homes changed from prisons to palaces.

Do you remember how you felt in the morning when you were a boy? How good it was to begin a new day! How hungry you came to the table! How tired you went to bed! How soundly you slept!

Do you remember how you felt in the morning when you were a boy? How good it was to begin a new day! How hungry you came to the table! How tired you went to bed! How soundly you slept!

A RIGHTEOUS DECISION.

The Bradley-Martins; Waldorf Astor and Mrs. Sherman Must Pay Taxes in New York.

New York, May 27.—By the decision of the board of tax commissioners, made public to-day, three of New York's citizens who have taken up their residence abroad will have to pay their taxes, just the same as the persons living in this country. Wm. Waldorf Astor must pay his personal taxes on an assessment of \$2,000,000 worth of personal property. The Bradley-Martins must pay taxes on \$2,000,000 of personal property. Mrs. Isaac H. Sherman, mother of Mrs. Bradley-Martins, must pay taxes on \$2,500,000 worth of personal property. Mr. Astor's taxes will amount to about \$50,000; the Bradley-Martins to about the same and Mrs. Sherman will be taxed for \$62,000.

No Right to Uginess. The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at J. H. Hill & Son, Goldsboro.

THE BAPTIST UNIVERSITY Will be one of the Finest Female Colleges in The Entire South. Raleigh Post. As the finishing touches are being put on the new Baptist Female University it is more and more conspicuously demonstrated that the building is going to be one of the handsomest and best adapted institutions in the whole South.

THE GOVERNOR'S APPETITE He Can Eat With Impunity Anything Set Before Him. Georgia's chief executive has many good qualities, and in addition to his superb robust countenance, the Governor also possesses what is coveted by many unfortunate—he has a good appetite. Like any ordinary mortal, however, he once suffered from indigestion, with all the distressing conditions which it produces. But he has found an unfailing remedy, however, and said recently:

For many years my digestion was bad, but the occasional use of a bottle of S. S. S. has entirely cured me of this malady, and I now eat with perfect impunity anything set before me. Governor Candler has also declared S. S. S. to be the finest tonic and blood purifier made. He has used it every spring for the past fifteen years.

The Mercedes Taken to Norfolk. Washington, May 27.—The objections of the Norfolk health authorities against permitting the cruiser Reina Mercedes to go to the Norfolk Navy Yards for repairs have been withdrawn and the cruiser went over to the yard this morning from Fort Monroe. It was feared in Norfolk that she might be infected with yellow fever, but the Navy Department and Surgeon General of the Marine Hospital Service succeeded in showing that the ship is in a perfectly healthy condition.

His Life Was Saved. Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. Regular size 50 cents and \$1.00. Trial bottles free at J. H. Hill & Son, Goldsboro.

ROSA BONHEUR.

Rosa Bonheur, the famous painter, died in Paris Thursday night. She was born at Bordeaux, March 22, 1822. She was a pupil of her father, Raymond Bonheur, and began her studies by copying pictures in the Louvre. She first attracted public attention by the exhibition of two pictures at Bordeaux in 1841, and after that time her fame steadily increased until she took her place in the front rank of artists as an animal painter. Her most noted picture is "The Horse Fair," painted in 1855. It was sold to A. T. Stewart, of New York, and afterwards bought at the sale of the Stewart collection in 1887 by Cornelius Vanderbilt and presented by him to the New York Metropolitan Museum, where it still remains to be admired by thousands who visit the picture gallery. She received many medals and honors, but a few days before her death she modestly declined a special medal which it was proposed to bestow upon her for a small picture she had contributed to an exhibition in Paris, saying: "It is not a picture that deserves a special distinction."

It is rather a peculiar coincidence that we had just finished reading a most interesting and instructive article, illustrated, in the current number of the Outlook, on this famous woman, when the news of her death came over the wires.

Volcanic Eruptions Are grand, but Skin Eruption rob life of joy. Bucklen's Arnica Salve, cures them, also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chillsblains, Best Pile cure on earth. Drives out Pains and Aches. Only 25 cts. a box. Cure guaranteed. Sold by J. H. Hill & Son, Goldsboro.

Rabbi Hecht Dead. Norfolk, May 27.—Jonas Hecht died in this city today, aged 95 years. He was a notable man in character, in influence and in the remarkable age to which he has attained. He came to Norfolk in 1863, after having been the spiritual guide and rabbi of a single congregation in New York for 22 years, and was ordained as a rabbi of the temple Oheb Sholem here and remained in charge for over 35 years.

Mr. Hecht was one of the original ten men who founded the B'nai B'rith. He leaves seven children, including among them being two of the city of Norfolk's most influential citizens.

Bismarck's Iron Nerve Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25 cts. at J. H. Hill & Son, Goldsboro.

Tornado in Nebraska. Omaha, May 27.—Deaths of last night's disastrous tornado, which swept over this section at midnight, are coming in. The list of wounded now numbers eight. All the injured lived between Minden and Kenasaw, where the cyclone was severest. The damage to property is large. It is believed that some fatalities occurred in remote sections which are difficult to communicate with.

I consider it not only a pleasure but a duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was taken very badly with flux and procured a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from that dreadful disease.—J. W. Lynch, Dor W. Va. This remedy is sold by M. E. Robinson & Bro. and Goldsboro Drug Co. in Goldsboro, and J. R. Smith, Mt. Olive, N. C.

In love affairs, when inclination and duty go hand in hand, one is apt to grow suspicious. THE BEST PRESCRIPTION FOR CHILLS and fever is a bottle of GROVE'S TASTEFUL CHILL TONIC. Never fails to cure; then why experiment with worthless imitations? Price 50 cents. Your money back if it fails to cure.

ON TO MOREHEAD.

The Grand Opening and the Opening Ball - The University Ball.

Raleigh News and Observer (Sunday.) All day yesterday the young people in Raleigh, and perhaps in several other towns, were talking about the proposed grand opening ball at the Atlantic Hotel, at Morehead, which is to follow the University commencement, as formerly stated. It is proposed to start the University party from Chapel Hill Saturday morning, June 3rd. They will be met at University Station by parties from Greensboro, Burlington and other points up the road, and then augmented all along the line by the young folks and their chaperons from Durham, Raleigh, Goldsboro, Kinston and Newbern. It is the earnest desire of the Atlantic Hotel management to make this the grandest opening occasion in the history of the Atlantic or any other hotel in these parts. Two bands of music will gladden the occasion—a string band for the ball and the newly organized Atlantic Symphony Club, which is composed of a quartet of the finest young vocal and instrumental musicians in the State.

The two days' stay at Morehead cannot be anything but pleasant and agreeable for those who attend. A few hours dancing on Saturday night, then a night of sweet, peaceful sleep, fanned by the briny, balmy winds that sweep from old ocean over the sandy sound; a Sunday and Sunday night of rest, pleasure and feasting on the choicest viands to be obtained from either land or water; a Monday crowded with fishing, bathing and other sport; a grand German for Monday night and a return home Tuesday morning, all to cost but a trifling railroad fare from Raleigh and Durham of only \$3.30 for the round trip; especially low hotel rates and the pleasure of joining in with a most charming and attractive outing party.

Mrs. Dr. Jas. McKee and Mrs. Thos. S. Kennan will chaperone the party from Raleigh. The Messrs. Barbee and their associates have joined heartily with the plan for beginning the season with a grand-after-commencement-opening ball and whatever is necessary for them to do to make the occasion a grand success you can just bet your life that they will do it. The prospects for the record breaking season at Morehead grows apace. It is announced that the First Regiment Band will be there. This band will play for the Teachers' Assembly during their entire session. Indeed, music is to be a special feature at the Atlantic this season, and the very winds and waves will be laden with the harmony of the band, the orchestra and the quartet. Get ready to join next Saturday's Atlantic's outing party. SPECIAL LOW RATES FROM GOLDSBORO.

The indications now are that quite a party will go from Goldsboro, and fifty are reported coming from Wilson. The special rate from this city to Morehead and return, ticket good from Saturday until Tuesday, is \$2.00. On the whole it promises to be one of the most delightful occasions the State has ever known.

TO BE TRIED.

This Time the News Seems To Be Straight and Trustworthy. Paris, May 27.—Early this afternoon it was rumored that the president of the civil section of the Court of Cassation, M. Ballot de Beaupre, had reported to the president of the Court of Cassation, M. Mazeau, in favor of a revision of the Dreyfus trial, and sending the prisoner again before a court-martial. This, later in the day, was confirmed by a direct statement that the president of the civil section had so reported to the president of the Court of Cassation.

S. S. S. GOES TO THE BOTTOM.

Promptly Reaches the Seat of All Blood Diseases and Cures the Worst Cases. In every test made S. S. S. easily demonstrates its superiority over other blood remedies. It matters not how obstinate the case, nor what other treatment or remedies have failed, S. S. S. always promptly reaches and cures any disease where the blood is in any way involved. Everyone who has had experience with blood diseases knows that there are no all-occurring, prompt cures. Very few remedies claim to cure such real, deep-seated blood diseases as S. S. S. cures, and none can offer such incontrovertible evidence of merit. S. S. S. is not merely a tonic—it is a cure! It goes down to the very seat of the poison from the system. It does not, like other remedies, dry up the poison and hide it from view temporarily, trace of taint, and rid the system of it forever. Mrs. T. W. Lee, Montgomery, Ala., writes: "Some years ago I was inoculated with poison by a nurse who infected my babe with blood taint. I was covered with sores and ulcers from head to foot, and in my great extremity I nearly died. Several prominent physicians treated me, but all to no purpose. The mercury and potash which they gave me seemed to add fuel to the awful flame which was devouring me. I was advised by friends who had seen wonderful cures made by it, to try Swift's Specific. I improved from the start, as the medicine seemed to go direct to the cause of the trouble and force the poison out. Twenty bottles cured me completely." Swift's Specific—

S. S. S. FOR THE BLOOD

—is the only remedy that is guaranteed purely vegetable, and contains no mercury, potash, arsenic, or any other mineral or chemical. It never fails to cure Cancer, Eczema, Scrofula, Rheumatism, Contagious Blood Poisons, Tetter, Boils, Carbuncles, Sores, etc. Valuable books mailed free by Swift Specific Company, Atlanta, Ga.
