OUR SOLDIERS.

The deep interest and the sincere sympathies of the people of the United States, whatever may be their opinions of the justice and wisdom of the war our government is waging on the other side of the world, follow the brave men who, under the Stars and Stripes, are facing the dangers of war and pestilence in the Philippines.

The officers and men of our army in that far-off land have displayed a courage, a power of endurance and a skill which have won the admiration of the world and added luster to American arms.

The Nebraska regiment, which by Filipino rifles and the more terrible power of tropic diseases, has been reduced to a mere fragment of itself, has given a superb illustration of American manhood. The volunteers from Washington, California and Kansas have suffered terribly also. In fact there is not a United States regiment, regular or volunteer, in the Philippines but what has won a most honorable fame. The loss of such men as have been sacrificed in those islands in pursuit of the imperialist policy of the administration weighs heavily on the mind and conscience of the country.

To the men and women of the United States comes every day the unbidden query and it comes with a constantly increasing solemnity: Is what we are after worth what we are paying for it?

And now we are sending 7,000 more regulars to the islands in the antipodes which we are endeavoring to conquer. When they reach Manila General Otis will have about 25,000 soldiers available for service exclusive of volunteers, most of whom are soon to come home.

We had originally 16,000 volunteers in the Philippines. Their number has been reduced to little more than 11,000 by the ravages of war and disease.

The regulars have suffered in almost as great proportion. Our new craze for conquest is costing us very dearly in treasure and is entailing upon us a far more deplorable loss of the lives of noble men.

REPUBLICANS PROTEST

Against Any Democratic Census Supervisors

Washington, June 5.—At the census office protests from Southern Republicans, against the appointment of Democratic supervisors in the South continue to be received. Director Merriam stated the other day that in State represented by Democratic Senators a fair division of the appointments will be made, and it is not believed that he will pay any attention to the protests.

The criticism of Representative Bailey, in Texas, for turning the appointments over to the senators of his State is not attracting any attention from Director Merriam, or other Census office officials. The director stated Saturday that the work for the census office, regarding these appointments has been already mapped out, and no attention will be paid to such criticism as this.

The Grand 'Old Man'

Charlotte Observer.

The Old Man had a close call in the Berkshire Hills of Massachusetts last week. While in quest of trout he got on posted land, the owner of which had been an unsuccessful candidate for postmaster at the village during Mr. Cleveland's last term. The disappointed office-seeker, it is related, threatened the Old Man with arrest if he did not leave immediately. Mr. Cleveland proceeded to make himself scarce about the posted land, but in doing so drove a rail fence into the earth. This is rough on the ex-President, but down this way there are plenty of those who were successful in their applications for positions under him who would not hesitate to tell The Old Man to move on.

"Do Not Grasp at the Shadow and Lose the Substance."

Many people are but shadows of their former selves; due to neglect of health. Look out for the blood, the fountain of life, the actual substance; keep that pure by regular use of Hood's Sarsaparilla and robust health will be the result.

Dyspepsia, weakness, and other ailments will be things of the past and life will be worth living.

Hacking Cough—"I was troubled with dry, hacking cough. One bottle of Hood's Sarsaparilla helped me and three bottles cured me and made me strong." George W. Bennett, Coolspring, Del.

Hood's Pills cure liver ill; the non-irritating and only cathartic to take with Hood's Sarsaparilla.

Dewey's Home.

Charlotte Observer.
It must be confessed—and it may be confessed without regret—that the project to present Admiral Dewey with a residence has not aroused any lasting public enthusiasm, though the hero of Manila is still, and will remain, the object of the people's unbounded admiration and affection. Perhaps the most appropriate as well as the most popular way in which the admiral might be materially rewarded would be for Congress to formally appropriate a satisfactory amount of the public money as a gift of the whole nation. There would be none of the unpleasant features of solicitation about such a procedure, and the admiral could accept the gift with perfect propriety as coming from all his fellow-citizens.—Phila. Record.

We spoke, a few days ago, of Dewey's being in the enjoyment of a salary of \$6,000 a year. This was his salary as rear admiral; as admiral it is \$13,000 a year—nearly twice that of a United States Supreme Court judge; nearly three times that of a United States Senator. Why should there be any lasting public enthusiasm among ordinary people over a proposition to buy him a residence when not one in 50,000 of his fellow-citizens enjoys the income that he does and when there are so many of them who haven't houses themselves because they are not able to own them? Citizens as individuals should not be asked to contribute for this purpose, and why should Congress be asked to appropriate public money for it? Mr. Dewey is no doubt a nice man, and it is certain that about a year ago he sank a number of Spanish tubs in Manila Bay in great shape, but he has been pretty well paid for that, and there seems to be no good reason why people who are not able to do so should be asked to cough up money to buy him things which he can buy for himself if he wants them.

Charles H. Marks, while acting in the capacity of nurse at the Second Division Hospital of the Fifth Army Corps at Santiago de Cuba, used a few bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea and found it to work like a charm. The Philippine Situation.

Washington, June 6.—The President submitted to the Cabinet today his conclusions regarding the campaign in the Philippines. They are: First, That the campaign be prosecuted as vigorously as possible, even in the rainy season, in order that the insurgents may not recuperate.

Second, That the only proposals to be considered in the future be unconditional surrender.

Third, The Peace Commission is to close negotiations and return home, leaving Otis to the management of the war.

Fourth, No addition concessions to be offered the Filipinos. They must accept American rule or fight.

INSURGENTS ESCAPE.

Expedition of Lawton to Capture Those on the Morong Peninsula ends in Failure.

Manila, June 6.—The insurgents of the Morong Peninsula, whom Lawton hoped to bag, have got away. Consequently his cordon of troops has been withdrawn.

Col. Wholley returned from Pasig this morning. Hall's command remains at Morong.

The escape of the insurgents is largely due to their excellent secret service, whereby the movements of the American troops are heralded in advance. Natural obstacles are another big factor in the impossibility of getting behind the enemy.

Some 1899 Elections.

The States which are to elect Governors this year are Ohio, Kentucky and Maryland, Iowa, Massachusetts and Mississippi. Rhode Island has already, at the April election, chosen its Governor.

The six States to elect Governors this year may be subdivided thus on geographical lines: The two Western States, Ohio and Iowa, which elect in "off years" for a two-year term; the three Southern or border States, Mississippi, Kentucky and Maryland, which have a four-year term for Governor, terminating in the year preceding the Presidential election; and one New England State, Massachusetts, which adheres to the policy of an annual election for Governor in November.
