

Goldsb'ro Weekly Argus.

This ARGUS o'er the people's rights,
Doth an eternal vigil keep
No soothing strains of Maie's son,
Can lull its hundred eyes to sleep!"

VOL. XVII.

GOLDSBORO, N. C. THURSDAY, JULY 6, 1899.

NO 101

ROYAL Baking Powder

Made from pure cream of tartar.
Safeguards the food against alum.

Alum baking powders are the greatest menaces to health of the present day.

OUR LOCAL OPTIC.

Misses Estelle Tomlinson, Minnie Best, and Mary Emma Giddens are at home again from spending a week with relatives and friends in Mt. Olive.

Miss Emma Edwards is at home for vacation from Knoxville, Tenn., where she is employed as head trimmer in one of the most fashionable millinery establishments of that city.

Mr. J. Schwab is just back from an extended trip through the entire South. He says the cotton crop is about as large this year as last and that the condition is better than it was this time last year.

Several country carts loaded with ripe water melons occupied Walnut street this morning. It is rather early for the luscious commodity, but our people are ready for them—especially the "cultured" population.

Tobacco barns out through the country contiguous to Goldsboro are already beginning to smoke, with the first curings of this year's crop of the golden leaf of commerce, and a lot of our tobacco warehouses are making ready for their opening on the first day of August.

It is reported that a believer in Sanctification, and a good man, too, recently plowed up his field of tobacco, near this city, because he thought he had a vision in which he was told that he was committing a sin to raise tobacco, one of the curses of the present day.

Have you been out to the Park yet? You would hardly know the place! And the work of beautifying it has just begun. Both Messrs. Henry and Sol Well have most liberal works designed for the place, which when completed and executed will make it already second to no Park in the State. We go forward.

Already the people are talking of Pipkin's big excursion to Norfolk, Washington and Baltimore, and many are thus early making preparations to "take it in." Mr. Pipkin tells us that he will have a special boat—one of those fine Norfolk & Washington passenger steamers, chartered exclusively for his excursionists to Washington.

The Atlantic Coast Line has decided to establish a flag station for freight and passengers, on Mr. Lotte W. Humphrey's farm, in Fork township, on the Midland road, to be known as "Grassmere," the name of the farm. This will be a great convenience to the farmers of that fertile neighborhood both for shipping of tobacco and cotton to this market and for travel. The station will be equipped with a covered platform.

Dr. Paul C. Hutton arrived in the city last Thursday on a passing brief visit to his home and friends here, on his way to San Francisco, whence he will sail on July 12 for Manila, being ordered to report for service in the army of the Philippines. Dr. Hutton is just from Porto Rico, and left his mother and sister, who were with him there, in Washington, at the home of his brother, Mr. Dan Hutton.

And so, the post office is to be moved into the Law Building under a lease with the Government for ten years. Well! The people who have made the office what it is—the people who have made Goldsboro the city that it is and through whose enterprise and business energy this post office is now rated in the second class, are 95 per cent of them, at least, opposed to this arbitrary and partisan action of the McKinley administration. In the whole history of the town the post office has always been somewhere conveniently located on East and West Centre street, except the short while, under a former Republican administration, it was located in the Law Building. This

time it goes there for ten years; and the people—well, the people, no matter how many, when they "sift" Republicans, don't cut any ice with this administration.

The Nelson Riverside Sunday School, named in honor of the late Rev. C. J. Nelson, has recently been organized with Mr. D. E. Glisson, of this city as superintendent. It holds forth every Sunday afternoon, on the river bank, near old Waynesboro.

Among the large stock of pianos and organs that the Andrews Music House, under the Messenger Opera House, are exhibiting to the trade of this city is a magnificent Ivers & Pond piano, that is indeed a thing of beauty, and in tone and finish is said to be the finest instrument ever exhibited in Goldsboro.

The ARGUS has received from President Jas. D. McNeill, and other members of the State Firemen's Association, a handsomely printed invitation which says: "Your honorable presence and smiling countenance is desired at the Eleventh Annual Convention and Tournament, of the North Carolina State Firemen's Association, at Greensboro, on August 1st, 2d, 3d, 4th, 1899."

A professional safe cracker visited Newton Grove, in Stamps county, about 22 miles from this city, last Friday, between midnight and dawn and blew open the safe of Mr. T. W. Underwood's store and realized \$800 in cash. The job was well done, and no trace of the cracks man, save the fact that a stranger, wearing a plug hat, with a sandy gray mustache and carrying a small hand grip, was seen heading towards Newton Grove, about sundown Friday evening and has not since been seen.

Goldsboro continues to add industrial enterprises to her already large quota of labor employing manufacturers. This time it is "The Gem City Brick Company," for the manufacture of hand-made brick, and it is already in operation and has just completed the burning of a kiln of fine brick, 150,000, which are now ready for market. The new company is to be incorporated under the above name, and its yard is located just beyond the Southern limit of the city, on the line of the W. & W. Railroad Success to the enterprise.

TO CURE A GOLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c The genuine has L. B. Q. on each tablet.

A BOSTON VIEW

We have just discovered why the Boston Transcript feels called upon to regulate and direct affairs in the South. Referring to the imperial policy which the administration would have us enforce in the Philippines (when we get possession of them) the Transcript says that imperialism is no new thing in this government; that it began in 1861 and that the South has been practically a "colony" of the north ever since.

If our amusing Boston contemporary can get any comfort out of this notion it is welcome to it. The prevalent opinion of the people of the South, however, is that this section is a part of the Union in the same sense that New England is, and that the South is worth quite as much to the general establishment.

When Ben Hill declared in the house of representatives twenty-three years ago that "we are in our father's house and intend to stay there," he spoke for the people of the whole South. We are not only there, but we do not care whether such sectionalists as the Boston Transcript like our being there or not. The South has no desire or intention to explain or apologize for anything in the past. It is proud of its history and prouder of no part of it than that which the Transcript considers just cause for sackcloth and ashes. The Transcript "colony" has had a rather large share in shaping the course of the government since the war and intends to have its due influence in doing so hereafter, not as a section but as an integral part of this great Union.

After Dinner
To assist digestion, relieve distress after eating or drinking too heartily, to prevent constipation, take
Hood's Pills
Sold everywhere. 25 cents.

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that

they are mother and daughter, and you realize that a woman at forty or fifty-five ought to be at her first and fairest. Why isn't it so?
The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no rich cheeks and round form where there are debilitating drains, and female weakness. Women who have suffered from these troubles have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.
No alcohol, opium or other narcotic is contained in "Favorite Prescription."
"Any sick woman may consult Doctor Pierce by letter, free. Every letter is held as strictly confidential, and answered in a plain envelope. Address Dr. R. V. Pierce, Buffalo, N. Y."
"I commenced to take Dr. Pierce's Favorite Prescription," writes Mrs. Martha E. Barham, of Newville, Prince George Co., Va., in June, 1897, also his Golden Medical Discovery, and I cannot express the benefit I have received from these medicines. I was suffering with what the doctors called chronic indigestion, torpid liver and vertigo. I also suffered with female weakness. The doctor did not do me any good, so I wrote to you for advice. When I commenced to use the medicine I weighed only 112 pounds. Dr. Pierce's Pills regulate the liver.

THE TOBACCO MARKET.

The Men Who Are to Manage the Several Warehouses This Season.

Ever since the inauguration of a tobacco market in Goldsboro, only a few years ago, Goldsboro has enjoyed the reputation for paying the highest prices of any market in the State. This reputation has abundantly increased the patronage of this market from season to season and it is confidently expected that the coming season will be no exception. Furthermore, this reputation has been due to the vigorous spirit of competition which prevails at all times among the large corps of buyers located on this market, and the coming season our already long list of buyers will be augmented by the introduction of several more, and the competition will not grow weaker but stronger. From this the warehousemen and the planter alike are benefited.

The managers of all the warehouses are gentlemen of experience and can be relied on to look after the interest of their patrons and while doing this they are guarding their own interests. Mr. Thos. Edmundson, the manager of the Farmer's Warehouse for the sale of leaf tobacco, has engaged the services of Mr. Wm. G. Cathran, of Roxboro, who has had years experience in the tobacco business. Mr. Cathran has already arrived in Goldsboro and has begun active preparations for the opening of the season on the 1st of August. Mr. Edmundson will bring to his assistance other capable men of experience, and it is more than probable that this will be the most successful season of this warehouse.

Mr. S. W. Chamberlain, the popular manager of the old Goldsboro Warehouse last season, has associated himself with Mr. Walter P. Peterson in the management of this warehouse for the coming season, Mr. Chamberlain, as is well known, has had years experience on the Durham market, his former home, and he will spend his time on the warehouse floor looking after the interest of his patrons while Mr. Peterson, who is a young man of excellent business qualifications, will do the office work for the firm.

The Planters' Warehouse, which was built only last year and ran a very successful season for the first one, will be managed for the coming season by Mr. J. L. Faulkner, who was one of the managers last season, and Mr. J. J. Harrell, Mr. Faulkner has been associated with the tobacco business for years and is well known to the planters in this section. Mr. "Tobe" Harrell, as he is better known, is a very popular young man of sterling business qualities and will prove a valuable assistant to his partner in the management of this warehouse.

BANKERS AND MILLS.

Baltimore Manufacturers' Record.

In a speech at the recent meeting of the Georgia bankers Mr. B. S. Walker, president of the Monroe Cotton Mills, and vice-president of the Bank of Monroe, took the ground that it was within the power of the bankers of the State to improve materially industrial conditions of Georgia. His speech was full of wise suggestions. He took the ground that there is no such thing as too many mills in Georgia or in the South as long as a single bale of cotton is shipped for manufacture outside the South, and that wherever there is a bank in a Georgia town and no cotton mill, the bank has not done its duty, and has neglected a most important opportunity for increasing its own business and the business of every individual in the community. He did not advocate a partnership of bank and mill. He merely wished the mills to be under the fostering care of the banks. Such an arrangement would enable the mills to use the banks' money between November and May, returning it in time for the farmers to use it in making their crops; and the banks would no longer be obliged to send their moneys to city depositories for six months. Another advantage suggested was that the stock of a cotton mill owned by citizens of the town and by nearby farmers affords excellent collateral for loans. Mr. Walker did not stop at suggestions, but quoted instances of successful co-operation of banks and mills in the State.

His speech was a strong argument for co-operation, not only of banks, but also of other interests with individuals seeking to build up the industries of a community. It is hardly possible to start a mill of any size in a Southern town without improving the general condition of that town. A notable instance of this has been given in the case of Huntsville, Ala. The announcement a few weeks ago of the determination to build the Merrimac Mills there was followed by the beginning of operations in the city of a syndicate which will build and equip an electric-lighting and power plant, operate an electric railway and develop real estate. On the heels of that fact comes the statement from Mr. W. T. Platt, president of the Chamber of Commerce, who has been active in promoting industrial interests of Huntsville, that two cotton mills, a new factory, a brewery, and a foundry are among the possibilities of the near future. The history of Huntsville may be duplicated in many Southern communities. It will not be duplicated if the citizens of those communities wait for outsiders to lead in development.

TO CURE A GOLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c The genuine has L. B. Q. on each tablet.

BLOOD CURE SENT FREE.

A Cure For Blood and Skin Diseases, Eczema, Pimples, Scrofula, Blood Poison, Cancer, Erysipelas, Patent Medicines, and doctored, and still have old, persistent sores, pimples, distressing eruptions of the skin, painful sores on hands, arms or legs, itching sensation, irritating skin troubles, eczema, scrofula, ulcers, contagious blood poison, fever sores, mercurial rheumatism, catarrh, boils, face covered with little sores, cancer or any blood taint, then give B. Describe your symptoms and free personal medical advice will be given.
TO CURE HUMAN CURED IN 90 MINUTES
Woolf's Sanitary Lotion.
This never fails. Sold by M. E. Robinson & Bro., Druggists, Goldsboro, N. C.

Roundup Sale Becomes Popular

The American Cotton Company has met with marked success in the development of its Roundup sale business. Last year it had less than sixty presses in operation while this season it will have over 300 at work. Its plant at Chicago, for building these presses is running night and day and new locations are being selected as rapidly as possible.

TROOPS FOR OTIS

Washington, June 30.—So widespread and strong is the public sentiment in favor of making the army in Luzon numerically adequate for its work that the Government, besides increasing the regulars to the maximum of over 68,000, has concluded to enlist at least an installment of the 35,000 volunteers for which Congress also provided.

There is not the slightest question that the situation on which Congress based its provision for volunteers now exists. It is plain enough that a better provision would have been to allow enlistments of regulars as far toward 100,000 as should be found necessary. But the next best plan is the one now to be adopted by the Government, namely, to recruit a force of about 10,000, or possibly 15,000, volunteers through the regular recruiting agencies. In this way the so-called skeleton regiments, formed in the Philippines, can first be filled, and then other regiments can be organized with officers appointed by the Government.

The advantage of this method over taking State militia regiments in bulk, with their existing organizations of officers and men, is apparent. It insures the selection of men individually by skilled recruiting officers, whose experience makes them able to say what applicants seem to have in them the making of good soldiers; and then the physical and other tests they undergo are those of the regular service.

Gen. Otis to-day has in Luzon, or on the way thither, or under orders to go, all the troops he needs at present, because the rainy season makes decisive operations on a large scale impossible. We may go out from our lines and drive the enemy back from time to time, but the hasty retrograde in which he is an adept soon interposes the jungles and the swamps as an obstacle to our following him. What we need is an adequate force ready for operations on a broad scale after the campaigning season begins again; and for this purpose, with the enlisting, organizing, equipping, drilling and transporting needed, we must start now.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz? Thus writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at J. H. Hill & Son, Goldsboro; and J. E. Smith, Mt. Olive, Drug Store. Regular size 50c and \$1.00. Every bottle guaranteed.

He Fooled the Surgeons.

All doctors told Reuick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes Bucklen's Arnica Salve, the surest Pile cure on Earth, and the best Salve in the World. 25 cents a box. Sold by J. H. Hill & Son, Goldsboro; and J. E. Smith, Mt. Olive, Druggists.

THE VERY LATEST.

The formation of a combine to operate the tobacco sales warehouses of Danville, Va., is one of the latest things in the way of a trust. The combine has been chartered in New Jersey, where everything shady is chartered, with a capital of \$1,000,000, and eight of the nine warehouses of Danville are in the deal. The American Tobacco Company, otherwise the cigarette trust, is probably at the bottom of this business, though it denies it. This is likely its final step in destroying competition in the sale of leaf tobacco on the Danville market, which is a very large one, and it looks as if it should be entirely effective. This step will likely be followed by the building of a few more churches, new gifts of money to colleges, and enlarged contributions to orphan asylums.—Charlotte Observer.

The Appetite of a Goat

Is envied by all poor dyspeptics whose Stomach and Liver are out of order. All such should know that Dr. King's New Life Pills, the wonderful Stomach and Liver Remedy, gives a splendid appetite, sound digestion and a regular bodily habit that insures perfect health and great energy. Only 25c. at J. H. Hill & Son, Goldsboro; and J. R. Smith, Mt. Olive, Drug Store.

BAPTISED AT 103

Chattanooga, Tenn., Dispatch.

At Oxanna Ala.—Mrs. Maggie Pendergass, aged 103 has just been baptised. She has been a lifelong Methodist, but recently became a Baptist. She is so feeble that she had to be baptised while sitting in a chair. With a minister on either side she was lifted in the chair and carried into the baptistry and gently immersed! She stood the ordeal well.

Mrs. Pendergass' husband died in 1860, and she has been supported by her three unmarried daughters, aged respectively 80, 78 and 76.

NO CURE—NO PAY.

That is the way all druggists sell GROVE'S TASTELESS CHILL TONIC for Chills and Malaria. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating Tonics. Price, 50c.

Don't worry over little things—big ones give you enough trouble.

A diseased stomach surely undermines health. It kills the brain, kills energy, destroys the nervous system, and predisposes to insanity and fatal diseases. All dyspeptic troubles are quickly cured by Kodol Dyspepsia Cure. It has cured thousands of cases and is curing them every day. Its ingredients are such that it can't help curing.—J. H. Hill & Son, Goldsboro, and John B. Smith, Mt. Olive.

Some persons are very reticent because they only say what they think.

Thomas Rhoads, Centerfield, O., writes: "I suffered from piles seven or eight years. No remedy gave me relief until DeWitt's Witch Hazel Salve, less than a box of which permanently cured me." Soothing, healing, perfectly harmless. Beware of counterfeits.—J. H. Hill & Son, Goldsboro, and Jno. R. Smith, Mt. Olive.

If we could only tell in the morning what would happen before night we couldn't get up.

Dr. Cad's Condition Powders are just what a horse needs when in bad condition. Tonic, blood purifier and vermifuge. They are not food but medicine and the best in use to put a horse in prime condition. Price 25 cents per package. For sale by M. E. Robinson & Bro. and Goldsboro Drug Co. in Goldsboro, and J. R. Smith Mt. Olive, N. C.

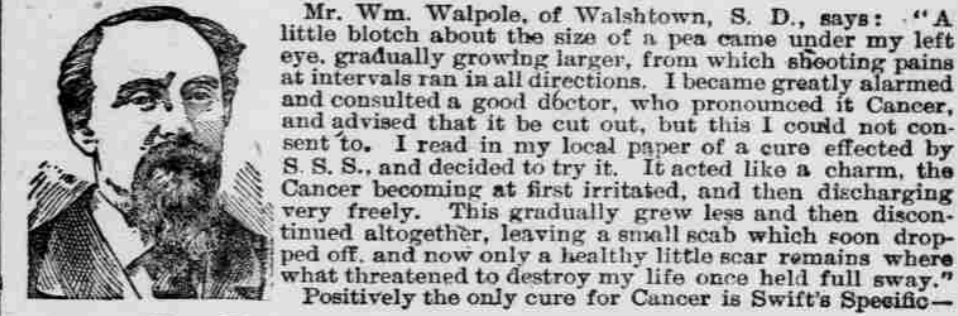

A man always feels better if he can blame his wife for everything that goes wrong.

Schools in Cuba and Elsewhere.

Prof. J. F. Draughon, who recently visited Cuba with a view of investigating the outlook for establishing a school in Havana, Cuba, next fall, on his return visited Savannah, Ga., where he arranged to open a well equipped Business College June 15. Prof. Draughon now has flourishing business colleges located in Nashville, Tenn., Galveston and Texarkana, Texas. These colleges have superior courses of instruction, and special facilities for securing positions. See Prof. Draughon's prospecting for barns and other outhouses, shelters, etc., on the market for the money. Call and examine it.
Smith & Yelverton

A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE APPEARED AT FIRST AS MERE PIMPLES.

Mr. Wm. Walpole, of Washburn, S. D., says: "A little blotch about the size of a pea came under my left eye, gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm, the Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then discontinued altogether, leaving a small scab which soon dropped off, and now only a healthy little scar remains where what threatened to destroy my life once held full sway. Positively the only cure for Cancer is Swift's Specific—S. S. S. FOR THE BLOOD."
