WEEKLY ARGUS.

Entered at the post office in Goldsboro, N. C., as second-class matter. GOLDSBORO, N. C., OCT. 19, 1899.

LETTER FROM MANILA.  
The inhabitants of the Island of Manila are suffering from a most serious epidemic of cholera.

### BRYAN IN KENTUCKY

He Trave's Two Hundred Miles and Makes Many Speeches.  
Louisville, Ky., Oct. 16.—William J. Bryan entered Kentucky this morning for a three day's tour in the interest of Goebel. At Bardwell, his first stop, four thousand people were waiting. He was enthusiastically greeted. Mr. Bryan regretted the loss of Kentucky in 1896 and urged his hearers to make it Democratic now. He declared that if Blackburn had been sent to the Senate instead of a Republican the Bacon resolution providing for the independence of the Philippines would have been adopted. He pleaded for harmony. He referred to the Philippines policy as un-American, and said that if imperialism was endorsed the standing army would be increased to a hundred thousand.

### GENERAL NEWS.

General Lawton, who has been described in a newspaper biography as able "to drink any man under the table," tells a correspondent in Manila that he never drank a drop of liquor.  
Baron von Windheim, chief of the Berlin police, is coming to this country soon for study of our police methods. If the baron wants to know how to police a parade he can doubtless learn much, but if he wants to learn how to detect crime he might as well stay at home.  
Miss Anastasia Miller, of Versailles, Ky., a student at Wellesley, left the class the other day because she found herself seated beside a fellow-student who is colored. Her friends have been summoned, and it is supposed that she will have to surrender or leave. She is said to expect to have to do the latter.  
The funeral at Pine Ridge, S. D., of Conquering Bear, the Indian chief who, after winning a hundred battles against unfriendly tribes, died from getting off a trolley car the wrong way, was attended by six of his wives, with faces painted black for mourning, and 123 of his children and grandchildren.  
Count Doni de Castellane, who wrote an impudent letter to the Prince of Monaco when that gentleman offered Dreyfus his hospitality, has received word that Monaco is in France and has telegraphed that he will make all possible haste to get to the capital. A duel is expected if the two men meet.

The old Ajax and Passaic, both types of the first ironclad, and built in 1862, have been sold by the government for \$29,500 and \$19,750 respectively, which is said to be less than the value of the old iron. Both were purchased by Philadelphia concerns. The Hector, formerly the Pedro, captured from the Spanish in 1898, brought \$65,150, though appraised at only \$50,000.  
Mr. and Mrs. William R. Vanderbilt, Jr. contemplate an Egyptian outing, for which they have engaged a dahabiah, the most luxurious one obtainable on the Nile. It is a sort of flatboat, with a house at one end and an immense mast at the other. In this picturesque boat, surrounded by half a dozen friends, they will float under a lilac-hued sky to the music of stringed instruments touched by native performers.  
When Jay Gould was in Georgia with a distinguished party of visitors, eight years ago, a suggestion to tender him official notice by the State was officially repudiated on the ground that he was little more than a railroad wrecker, but now the people want to show Miss Helen Gould the high esteem in which she is held, and she is to be invited to visit the city of Atlanta at the same time with Admiral Dewey.

The Rev. Sam Small, the revivalist, will be a partner in a newspaper to be established in Cuba. The enterprise has bright prospects of success since another partner is Francis Atwater, financial agent in Cuba for the Red Cross Society, and the paper will be an administration organ, while the job department is to publish the first city directory Havana has ever had.  
Alexander Agassiz, of Harvard University, has never received any salary for his services to the Museum of Comparative Zoology. Between 1871 and 1897 he has expended \$750,000 of his private means without making any communication concerning it to President Eliot. He is now in the Southern Pacific Ocean making deep sea explorations for the University collections.  
The widow of the late Gov. Atkinson, of Georgia, has astonished her friends and made something of a sensation in the State by going into the field as general agent for Fire and Life Insurance Companies. Mrs. Atkinson says that she has a double purpose in view, first to provide the means for supporting and educating her children, and secondly to open a new field of labor to women. Success to her.  
Perry S. Heath, now First Assistant Postmaster General and for a long time one of the literary lights of the national Republican campaign committee, says: "President McKinley's instructions were that Aguinaldo should be given a commission in our army, and that he and those associated with him should be treated as our citizens." If it were that of a court-martial that prevented Aguinaldo from accepting this offer it must have been that he never heard of the luck of General Egan.

### "Winter Finds Out What Summer Lays By."

Be it spring, summer, autumn or winter, someone in the family is "under the weather" from trouble originating in impure blood or irritated condition of the system.

All these, of whatever name, can be cured by the great blood purifier, Hood's Sarsaparilla. It never disappoints.  
Abscesses—"I am past 54 and my good health is due to Hood's Sarsaparilla and Hood's Pills, which purified my blood and healed the ugly abscesses that troubled me." Mrs. Burrows C. Estess, Southard, N. J.  
Dyspepsia—"My husband doctored a long time for dyspepsia with only temporary relief. The first bottle of Hood's Sarsaparilla helped and the second cured him. I cured my sick headaches." Mrs. Mary A. Clark, Wilmington, Vt.

**Hood's Sarsaparilla**  
Never Disappoints.  
Hood's Pills cure liver, the non-irritating and only cathartic to take with Hood's Sarsaparilla.

**HICKS' CAPUDINE**

## Temples! Temples! Temples!

Our bodies are temples, and all are enjoined by the Great Builder to preserve them. Consequently the wise men of the world have given much study trying to find out the best foods. The result of these investigations has proven conclusively that food made on scientific principles from grain not only possesses the most valuable properties, but is healthful and easy to digest. We have HECKER'S Rolled Wheat, Wheaten Grits, Royal Health Food, Oat Meal and Graham Flour.
