

NEW RAILWAY RECORD

Burlington Train Does Some Speedy Running.

NINETY-NINE MILES AN HOUR.

Details of Flight of an Engine and Nine Cars Which Covered 14.8 Miles in Nine Minutes, Rate Being 98.66 Miles an Hour—Passengers Hold Watches and Verify Conductor's Report.

The report of a run of fifteen miles at the rate of nearly 100 miles an hour, which came to headquarters the other day from the western division of the Chicago, Burlington and Quincy railroad, was so startling that it was discredited by the Chicago officials and a detailed report called for.

The result is the following report from Conductor G. H. Burns, which established a new world's record for runs of fourteen miles and over, the nearest approach to it being the run of the Lehigh Valley Black Diamond express in April, 1897, when 42.96 miles were made at an average rate of eighty miles an hour.

Conductor Burns says: "Train No. 6 left Denver for Chicago March 24 ten minutes late, having to wait for a through California car from the D. and R. G. railway.

"A heavy wind prevailed to Akron, 112 miles from Denver, which put us out from Akron thirty minutes late. No special instructions were given us to speed, because it is customary when late to run from Akron to Wray, a distance of fifty-four miles, at the rate of seventy to seventy-five miles an hour. We passed Eckley, thirty-nine miles east of Akron, running at seventy-five miles an hour. Between Eckley and Wray, a distance of 14.8 miles, I was in the observation car. In the car were several gentlemen talking about the run, Mr. Arthur Johnson of Denver, Mr. Wells Atlet of Los Angeles and H. C. Bush, traffic manager of the Colorado Midland railway, and Mr. Foley of Omaha.

"We passed Eckley at 7:56 p. m., all hands holding watches corroborating. It seemed so short when the whistle was blown that Mr. Johnson remarked, speaking of the engineer, 'Oh, well, he is not doing so much as we thought he might.' Mr. Johnson believed we had only reached Robb, a distance of 6.1 miles from Eckley, but at that moment the train dashed over a well known bridge between whistling post and depot. Then I got up and said, 'Gentlemen, we are at Wray, and you have ridden 14.8 miles faster than was ever made before.' We had made the distance in exactly nine minutes, or at the rate of 98.66 miles an hour.

"I then went to the other end of the train, where Mr. Lindsay of Pittsburg, manager for Mr. Andrew Carnegie, and a party of seventeen were occupying special car Grassmere. Mr. Lindsay was on the platform and when I told him of the record said: 'Well, that was a terrific burst of speed. I thought we were flying!'

The train consisted of engine, mail car, baggage car, two reclining chair cars, special car Grassmere, three sleeping cars and a dining car, nine cars in all. It was the eastbound fast express for Chicago, the reverse of the famous train westbound, the Burlington's No. 1, fast express Chicago to Denver.

The Brave Young Canadian.
The name of the young Canadian hero who, refusing to surrender to the Boers the other day in South Africa, fought until his ammunition was exhausted, then smashed his rifle and died, was Charles Napier Evans of Port Hope. It deserves to be written large on the scroll of fame, says the Ottawa (Canada) Citizen. Before he enlisted as a trooper of the king he was a young Canadian schoolmaster. Both his Christian names and surname would indicate that he came of good fighting stock, which certainly did not suffer deterioration in being transplanted to Canada.

SPRING GARDENING TIPS.

In planning the new garden leave plenty of room for spreading. Peonies, for instance, will double themselves before long.

Plan and choose colors carefully. Plenty of color is desirable, but contradictory colors running rampant detract from fine effects.

Rubber gloves are fine for the hands, but not for the plants. Unless of the softest and most pliable variety they should be removed when handling roots or flowers.

Avoid straight lines as much as possible. There is no straight line in nature. It is for this reason that groups and masses are so much better than formal or set beds.

Water the ground thoroughly when the springing plants seem to need it, but be gentle and do not use hydrant water. Baby flowers are easily chilled and broken.

Hardy roses should be set out early. Early planting means early blooming as a rule. But it is well to wait until all danger of frost is over, and protection should be provided for all chilly nights.

The garden pinks are among the most satisfactory of the old fashioned flowers coming into renewed favor. They bloom plentifully, are fine in shape, size and color, and they come again cheerfully year after year.

Well started hollyhocks will bloom this season if the plants purchased are old enough. Make sure of this before buying. Nothing could possibly please a flower or color lover better than a row or mass of these simple and yet charming beauties.—Chicago Tribune.

Rheumacide Cured Hon. H. H. Hartley
"Tyro, N. C., May 10th, 1901."
THE ROBBITT DRUG CO.
GENTLEMEN: I had rheumatism for more than 15 years in my right arm and shoulder. Tried many remedies without relief. In fall of 1899 my shoulder became stiff and I could not use Mr. J. B. Smith, druggist of Lexington, recommended RHEUMACIDE. I bought one bottle and before using half of it found it was relieving me. Before finishing third bottle I could raise and straighten my arm, and it has cured me. Very respectfully,
(Signed) H. H. HARTLEY.
Mr. Hartley is one of the most prominent and highly respected citizens of Davidson county, and represented his county in the last legislature.
Rheumacide is the standard rheumatic remedy. Avoid substitutes. All druggists sell it. Price \$1.

Gapudine

FOR COLDS, LAGRIFFE, HEADACHE AND NEURALGIA HAS NO BAD EFFECT. Sold at all druggists.
