

**BANK CLERK CHANGES.**

Messrs. Jas. S. Crawford and Jack Shannon Have Resigned.

Mr. James S. Crawford, who has for some years been filling the position of paying teller at the National Bank has resigned that position to take effect upon the election of his successor. He has filled the position with entire satisfaction to both the patrons and the proprietors of the bank, both of whom will regret to lose him. He is a young man of wide popularity and splendid business qualifications. He has not decided what business he will take up, but his many admiring friends hope that he will decide to remain in Goldsboro. In this connection the resignation of Mr. Jack Shannon, a clerk in the same bank, will also be read with interest and regret by the general public. He is also very popular, and possesses excellent business qualifications. He resigns to accept the position of book-keeper for the Whiteville Lumber Co. Until his successor has been named he will have charge of the Whiteville Lumber Company's books and will do their work here. These two last resignations will give an entire new force at this bank. Mr. J. M. Hollowell, the cashier, resigned some days ago and his successor was elected Saturday in the person of Mr. Geo. C. Korngay. The successor for the two who have resigned to-day will be named in the near future and the business of the bank will continue as heretofore. Its prospects were never brighter and it is gratifying to the many friends and patrons of the bank to learn that its business the present year will eclipse all former records, meeting fully the expectations of its president, Mr. Geo. A. Norwood, Jr., who has the confidence and high esteem of all our citizens.

**BED-RIDDEN 43 YEARS.**

Wayne County Has Such a Citizen, and Perhaps There is no Other Such Case on Record.

There lives in the town of Fremont, N. C., a man who, if he lives to see the 10th day of next September, will have lain in bed practically all the while for forty-three years. He is Mr. W. H. Shackelford, father of J. H. Shackelford, who is well known as one of the most industrious and active men in that part of the county.

Mr. W. H. Shackelford, the afflicted, was born and reared in Greene county, about two and a half miles north east of Speight's Bridge. He was born May the 18th, 1822, and is consequently over eighty years old. As a child he was not healthy, but grew stronger after his twelfth year, and worked on a farm until his thirty-seventh year, when he became afflicted with what he terms "a giving way of the muscles of the back combined with some affection of the nervous system." Mr. Shackelford, took his bed on the 10th of September, 1859, just forty-three years ago the 10th of next September, and has remained there ever since. He can get up and walk across the room, but is unable to stay up for but a few minutes. He is a man of intelligence, reads not a little, converses well, has a good memory well stored with reminiscences of the past.

It is rare that one meets a man over four score years old, but here is something stranger still, a man over eighty years old—forty-three of which have been spent in bed.

**STREET FAIRS BARRED.**

No More to be Held Under the Auspices of the Elks.

Salt Lake, Utah, August 14.—The Grand Lodge of Elks today adopted the recommendation of the Committee on Rules and Laws, absolutely prohibiting the holding of street fairs or carnivals under the auspices of the Elks lodges. The law will not go into effect until January 1, 1903. The debate over the question was spirited, but the feeling among the members of the Grand Lodge that such fairs and carnivals were not in accord with the fundamental principles of the order was evidently very strong and the committee's recommendations were overwhelmingly adopted.

The prize drill of marching clubs, scheduled for today was a disappointment as but one competitor appeared, the Denver Lodge. They were given a prize of \$250 for their drilling.

**Four One Dollar Batiste Models of American Lady CORSETS**

India Batiste, the material of which these corsets are made, is pliable, thus insuring comfort, and yet rigid enough to create and retain a perfect form. It is the ideal Summer fabric. The Straight Front models are perfect in design, being made in keeping with the very newest modes of over-garments. They bring out beautiful curves at the waist line and create a sloping effect over the hips, throwing the entire figure into an erect military attitude.

The Strait-form models for the average figure, more especially where there is a tendency to slightness, increase the apparent size of the hips and produce that stylish angle from the shoulders to the bust.
