AT MOREHEAD CITY.

COMPANY D, OF SECOND REGIMENT ENJOYING THEMSELVES.

Mr. Claude B. Huggins Writes Interestingly of Camp Rodman and the Doings of the Boys Generally in Camp.

Camp Rodman, Morehead City, N. C., July 27, 1903.

COL. JOS. E. ROBINSON, Goldsboro, N. C.

Dear Sir:—This is the writer's first opportunity to let you hear from the Goldsboro soldiers in camp here with the Second North Carolina Infantry.

We arrived here on Wednesday night shortly after dark and found camp all ready and supper prepared for us.

At reveilles, 5:25 a. m., all must roll out of their tents; next comes roll call, then breakfast, and then we have morning drill. After the drill, all who are not on special duty are at liberty to leave camp until 4:30 p. m., when there is an hour and a half afternoon drill. Dress parade takes place at 6:30 p. m. and always draws a crowd of onlookers.

We are most pleasantly situated right at the sound and the boys greatly enjoy the fine fishing, bathing, sailing, etc.

Company D, is the pride of the regiment and Bain street (named in honor of Col. Bain) is the model street of the camp. That we have the best drilled and the best looking company in camp, is not remarkable, as Goldsboro's place is always in the front rank. The behavior of our men has been the cause of much favorable comment and our record is unblemished. We have not had a single man in the guard house, or had one to anyway make himself liable to punishment.

It does one good to see the splendid appetite the men bring to the table, and the meals, under the supervision of our efficient carter, Mr. Taylor, are par excellence.

The officers, Capt. Cohen, Lieutenant's Morgan and Prince, have won the respect of everyone in camp and by their splendid example, they set the men in behavior, sobriety and manner.

It is safe to predict that we will all return from camp much wiser than before, having obtained what can be obtained nowhere else except under charge of such efficient officers as ours.

The weather has been ideal, the nights delightfully cool and the days not unpleasantly warm.

There was a large delegation of Goldsboro people here Sunday, who received a hearty welcome from all our boys.

With sincere regards to you and wishing the ARGUS (which is hailed with delight here every day—the boys fighting for it) every success,

I am, respectfully yours,
C. B. HUGGINS,
1st Serg't Co. D.

The proprietors of Mi-o-na, the marvelous flesh-forming food and digestion regulator, have made arrangements with J. H. Hill & Son to sell this remarkable preparation in a new and hitherto unheard of way; furnishing a guarantee bond with every package.

GUARANTEE BOND.

In buying a package of Mi-o-na, the purchaser is requested to have this guarantee signed by J. H. Hill & Son as our absolute agreement to refund the money, if Mi-o-na does not give an increase in weight, and cure dyspepsia and all stomach troubles.

Signed.....

J. H. Hill & Son will give the above bond with every 50c. box of Mi-o-na they sell. You run no risk in buying Mi-o-na.

For years there has been a demand for a natural means of increasing the flesh and Mi-o-na has come to supply this need. It is not a cod liver oil preparation, but a combination of flesh-forming elements with remedies that regulate and aid digestion and restore health.

Everyone who is troubled with dyspepsia, headache, distress after eating, dizzy feeling or loss of appetite or who is losing weight and in a run-down condition, should take the guarantee bond to J. H. Hill & Son and commence the use of Mi-o-na at our risk, remembering that the treatment costs you nothing unless it does all that is claimed for it.

DESTROYED BY FIRE.

Nag's Head Hotel Swept Away by Flames—Wife of Proprietor Died of Fright.

Elizabeth City, N. C., July 27.—The hotel at Nag's Head, the famous seaside resort, is a bed of smoldering ashes. Mrs. John Z. Lowe, the proprietor's wife, is a corpse.

Sunday evening about 6:30 o'clock fire broke out in the second story of the hotel and in less than thirty minutes the building was demolished. There was no time to remove contents. All were licked up by the mad flames.

Mrs. Lowe died of hemorrhage, brought on by undue excitement. The origin of the fire is supposed to be an exploded lamp or gasoline stove. Insurance \$4,000.

Senator Quay is said to be engaged in writing his autobiography. If he tells the truth, the whole truth, and nothing but the truth, Rousseau's "Confessions" will appear tame in comparison.

A PLUCKY WOMAN.

MRS. HEDGPETH FINDS A MAN IN HER ROOM AND GOES FOR HIM.

She Grabbed Him in the Collar and Tried to Shoot Him But Her Pistol Failed to Fire—The Negro Fled, But Was Captured and Taken to Wilson For Safe Keeping.

Nashville, N. C., July 27.—Last Saturday night Mrs. Hedgpeth, a widow of this town, was awakened just before day. She detected that her lamp had been put out and struck a match, whereupon she saw a big black negro standing by her bed with his hand on the door knob. The plucky little woman jumped up with a pistol in one hand and caught him in the collar with the other and tried to shoot him, but her pistol failed to fire. After she found that her pistol would not fire she proceeded to beat him over the head with it. The negro broke out through the door, but she held on to him and continued to beat him. In the scuffle she pulled off his coat and broke his suspenders. He finally broke away from her and told her if she did not give him his coat back he would kill her. She told him she would not do it, he would have to kill. By this time the neighbors had been aroused and went to render assistance, but the negro fled.

Some one recognized the coat as that of John Coppedge. Deputy Sheriff Warren was notified. He hastened to Coppedge's house and found him. When he started away he told Coppedge to get his coat and shoes, but he could not find them. He was carried back to Mrs. Hedgpeth's. She recognized him as the one in her house. His head was also bleeding where she had pounded him with the pistol.

Mrs. Hedgpeth is a delicate looking little woman and in meager circumstances. She supports her aged mother and a little daughter by her own labor. The brute Coppedge entered her room through an open window at the foot of her bed. He took off his shoes before entering and left them beside the house. In the scuffle he struck Mrs. Hedgpeth on the nose and in the mouth, making the nose bleed freely.

The people here are indignant and there was fear of the negro's safety here, so Sheriff Warren took him to Wilson yesterday.

GOLD STANDARD.

BANK ROBBED.

Waynesville, N. C., July 27.—The postoffice here was robbed between two and four o'clock Sunday morning.

Over \$1,000 worth of stamps was taken.

A MILLION SPINDLES IDLE.

Fall River, Mass., July 27.—Commencing to-day and continuing for one week, there will be about one million spindles idle in this city, and it is said during the month of August business will be dull.

The monkey lost hold and fell into the crocodile's waiting jaws. Even then his wits did not desert him.

"I just dropped in for dinner," he said, with an engaging smile.

OFFICER KILLS A NEGRO.

HE WAS TRYING TO ARREST THE NEGRO WHEN HE WAS STABBED.

Policeman George Dunn, of Grafton, Shoots John Daniel, Colored, to Save His Own Life.

Greenville, N. C., July 27.—John Daniel, colored, was shot and fatally wounded by Policeman George Dunn, at Grafton, about eighteen miles south of Greenville, Saturday night.

The officer was trying to arrest Daniel when the negro resisted and stabbed the officer with a knife, whereupon the officer fired three shots at Daniel, who broke and began to run.

Daniel was brought back and carried to the doctor, but his wounds proved so serious that nothing could be done for him. He died Sunday afternoon.

Coroner Laughinghouse went down from Greenville Sunday night and held an inquest. The jury rendered their verdict that Daniel was killed by Policeman Dunn in self-defense. Officer Dunn's wound in not very serious.

HAY FEVER ABOLISHED.

Relief For This Malady Discovered By Medical Science—

Breathe Hyomei.

Among the important additions made to medical science in recent years, none is more notable than the positive announcement of a cure for hay fever.

While this disease is not regarded as fatal, it is certainly a most distressing malady, and if anything can be devised to cure it, a great boon will be conferred upon the human race.

Exhaustive experiments with Hyomei prove that this treatment will prevent all attacks of hay fever if used two or three weeks before the annual appearance of the disease and that it may be relied upon if used faithfully after the disease has begun, to relieve at once and afford a speedy cure.

J. H. Hill & Son have sold hundreds of Hyomei outfits for the treatment of diseases of the respiratory organs under the agreement to refund the money if Hyomei did not afford relief.

In selling Hyomei for the cure of hay fever, they will continue this equitable plan, and want all who are subject to this distressing malady to begin its use at once, with the understanding that if it does not give satisfaction, the purchase price is to be refunded.

Stomach dosing cannot cure hay fever. A change of climate is the only treatment that has heretofore aborted an attack, and Hyomei, which is breathed through a neat pocket inhaler coming with every outfit, acts upon this principle, giving in your own home a climate like that of the White Mountains or other health resorts.

New Orleans, July 27.—Mrs. Prince Odum, wife of a prosperous farmer of Perry county, Miss., shot and killed her brother, John Rich, at Richton, Miss., to-day. Bitterness has existed for some time between the brother and sister. Mrs. Odum was accustomed to getting water from a spring on her brother's place. She was prohibited from taking any of the water, and when she attempted to do so, was put off the place with some violence. She returned with her daughter and when Rich and his wife tried to eject her she drew a revolver and opened fire on her brother, shooting him through the head and heart.
