## LAYS DOWN THE LAW.

### PRESIDENT ROOSEVELT ON THE LABOR UNION QUESTION.

To-Night the President Authorized the Publication of a Letter Which Was Sent to Each Member of His Cabinet on July 22nd.

Oyster Bay, Aug. 20.—President Roosevelt has made application to all departments of the government service the principle he enunciated at the time he re-instated William A. Miller to the position in the government printing office from which Miller had been dismissed because of a disagreement with the bookbinders' union. The President has plainly stated to the members of his Cabinet that that principle is to "indicate the policy of the President," in similar cases.

To-night the President authorized the publication of a letter which was sent to each member of his Cabinet on the 22nd of July. The letter was signed by Mr. Barnes, acting secretary to the President, and is as follows:

"My Dear Sir:—The President directs me to send you herewith, for your information, copies of two letters sent to Secretary Cortelyou with reference to the government printing office, which define the attitude of the administration in connection with the subject discussed. They are sent to you for your information and guidance, as they indicate the policy of the President in this matter."

The letters to Secretary Cortelyou were written on July 13 and 14. The salient sentence of the first letter was:

"There is no objection to the employes of the government printing office constituting themselves into a union if they so desire, but no rules or resolution of that union can be permitted to override the laws of the United States, which it is my sworn duty to enforce."

In the letter of the 14th, the President quoted the finding of the anthracite strike commission regarding the employment of labor as follows:

"It is adjudged and awarded that no person shall be refused employment or in any way discriminated against on account of membership or non-membership in any labor organization and that there shall be no discrimination against or interference with any employe who is not a member of any labor organization by members of such organization."

Concerning this principle the President wrote:

"It is of course, mere elementary decency to require that all the government departments shall be handled in accordance with the principle thus clearly and fearlessly enunciated."

## JUDGE NEAL'S CHARGE.

From Monday's Charlotte News we take the following account of Judge Neal's charge to the grand jury:

"In his charge to the grand jury this morning Judge Walter H. Neal declared war on the bucket-shop. He charged the jury that it was a crime under our law to buy or sell for future delivery on margins, corn, cotton, wheat or other food or agricultural products; that the law made it illegal to operate so-called bucket-shops, and those who were in charge of such shops, as well as those who buy or sell therein, were guilty under the law. He informed the grand jury that such establishments were being operated in Charlotte and that a number of people were dealing, according to the information that had come to him.

"Judge Neal called upon the jury to make a searching investigation and if the jury found such establishments operating here it was the duty of the grand jury to have such parties brought before the court; that the above instructions were in the manner of a test for the present jury system in that it would show whether people with means and influence were just as amenable to the law as poor people, without any influence."

### Letter to Porter & Godwin, Goldsboro, N. C.

Dear Sir: "It costs as much to put on poor paint as good"—a common saying and true—it costs much more to put on poor paint; more gallons.

Poor paint is paint and barytes or paint and sand, or paint and lime, or paint and chalk, or paint and benzine, or paint and water; these are the usual cheats; there are others.

It takes more gallons of paint-and-a-cheat than of honest paint; and the cost of the labor of painting is so much a gallon—one gallon costs as much as another, for labor.

This is the way to reckon your costs for this year; but how about next year?

Paint Devoe, and next year costs nothing; year after next the same; the same for several years.

Paint anything else, and your costs recur according to what you paint with. Some of the mixtures wear one year; some two; some three.

It costs twice, three times, four time, five times, as much to paint with a cheat as to paint with Devoe.

Yours truly,

F. W. DEVOE & Co.,  
P. S. Smith & Yelverton sell our paint.

## ROUND TRIP RATES

W. J. CRAIG,  
G. P. A.

J. S. ROYALL,  
Agent.

## NO BAR ROOMS.

### NEITHER ANY LICENSED LIQUOR DISTILLERIES.

This Is What the Conference Decided Upon Last Night To Ask the Board of Aldermen to Submit To a Vote of the People.

Under a special call of the president of the Anti-Saloon League a large gathering of representative citizens of every avocation in life assembled in the office of Messrs. Royall & Borden last night to discuss just what it would be advisable to ask the Board of Aldermen to submit to the voters of the city under the provisions of the Watt Liquor Bill, and after a full, free and careful canvass of the field and discussion of all the varying phases of the situation, it was decided to go for "No Saloons" and "No Licensed Liquor Distilleries. And the secretary of the "Anti Saloon League," was instructed to draw up petitions to this effect.

These petitions will be circulated throughout the city for the signatures of voters and when the requisite number of names of voters has been secured, the same will be submitted to the Board of City Aldermen, who will, under the provision of the law, then order an election on the issues as above stated.

Pending the circulation of these petitions among the people the ARGUS leaves them to the exercise of their calm and unbiased judgment, which when they shall have expressed this paper will be heard from.

## LIST OF LETTERS

Remaining in Postoffice, Goldsboro, Wayne County, N. C., August 22, 1903.

### MEN'S LIST.

A—Louis Alphin.  
C—J S Clay, George Collier, Daniel Cotton.  
E—W S ElHott.  
F—S P Fulder.  
H—Jas Hines, Williams Hedgecock, Hurtt & Hummel.  
J—A A Jenkins.  
M—Francis Morris.  
P—Charlie Perkins, Shakespeare Perry.  
R—A W Roberts.  
S—Dark Smith, M Sutton.  
T—J H Thompson.

### LADIES' LIST.

A—Cathrine Adams.  
B—Jane Bane, Hattie Bell.  
E—S W Edmundson.  
F—Annie Fagans.  
H—Virginia Harrison, V Harrison, Anna Holmes, Hattie Hill.  
J—Lula Jable.  
L—Sarah Love, Henrietta Lane.  
R—G W Richardson.  
T—Clara Thompson.  
W—Bertha Williams, Margaret Williams, Madge Williams, Addie Wilkerson, E White.

Persons calling for above letters will please say advertised. Rules and regulations require that one cent be paid or advertised letters.

J. F. DOBSON,  
Postmaster.

### Relief in Six Hours.

Distressing Kidney and Bladder Disease relieved in six hours by "NEW GREAT SOUTH AMERICAN KIDNEY CURE." It is a great surprise on account of its exceeding promptness in relieving pain in bladder, kidneys and back, in male or female. Relieves retention of water almost immediately. If you want quick relief and cure this is the remedy. Sold by M. E. Robinson & Bro druggists, Goldsboro, N. C.

## OF INTEREST TO FARMERS.

### An Old Time and Superb Natural Fertilizer Coming Back on the Market.

In these days when manufactured chemical fertilizers are being turned out in such large quantities to supply the constantly increasing demand for plant food, the use of the old fashioned natural manures is being rapidly forgotten. Aside from ordinary stable manure, which all sensible farmers should store up for application on their land, there is another natural manure, which was very popular in this State and South Carolina some years ago, until commercial reasons prevented its further importations and it was no longer to be had. We refer to Peruvian Guano, a fertilizer that all the old time farmers well remember on account of the exceptional results they obtained from its use.

We are glad to say that Peruvian Guano can be had once more. The owners of the deposits of this material on the Islands off the coast of Peru, finding that this manure could not be imported into this country and sold at the old prices it used to command (about \$80 per ton), have now arranged their price on this material so it can be sold in competition to the artificially manufactured fertilizers.

The Peruvian Guano which is now being imported through the ports of Wilmington and Charleston analyses about 4 per cent ammonia, 4 per cent potash and 20 per cent phosphoric acid. Several vessels have already been chartered to convey this material from the west coast of South America and arrive at these ports during the months of December, January and February.

## HAY FEVER'S CONQUEROR.

### Breathe Hyomei and Escape This Dreaded Summer Visitor.

By the use of Hyomei, you can save an expensive trip to the mountains and escape weeks of suffering. This remarkable remedy for the cure of hay fever, kills the germs of the disease, soothes and heals the irritated mucous membrane, if used two or three weeks before the time of the usual appearance of hay fever will prevent the attack.

The completed Hyomei treatment consists of a neat pocket inhaler, through which Hyomei is breathed, a bottle of Hyomei, and a medicine dropper. The air taken into the lungs in this way is filled with healing balsams and forms a perfect safeguard against attacks of hay fever or rose cold.

Those who have had hay fever, know how little help can be gained by stomach dosing in this disease. Hyomei is the only scientific yet common sense treatment for the trouble.

It is easy enough for any one to say that a remedy will give satisfaction, but J. H. Hill & Son offer to refund the money if Hyomei does not do all that is claimed for it, certainly inspires faith in the treatment.

Hyomei really gives you in your own home, a change of climate, and hay fever sufferers know from past experience that this has been the only thing that afforded them relief. By breathing Hyomei a few times daily, you can save the expense and trouble of a mountain trip and avoid all danger of hay fever.

## Notice of Removal!

We have moved to our new store, on John street, north, next door to Singer Machine office, and have added to our stock of Groceries a full up-to-date line of Dry Goods, Notions and Shoes, which we are offering at very reasonable prices. We are thankful for past favors and ask a continuance of your patronage. Don't fail to see our stock and get our prices before you buy.

Respectfully,  
MALPASS & WOODARD.  
At new store—John St., north.

## GOSSIP OF THE WORLD.

### ITEMS OF INTEREST FROM DIVERS SOURCES.

The Latest Telegraphic News of the Day Boiled Down to a Focus For Busy Readers.

Winston-Salem, August 19.—Rev. W. C. Wilson died at this place last night at the age of 69 years. He was a good man.

New York, Aug. 20.—One of the biggest crowds of sight-seers and yachtsmen that ever sailed down Sandy Hook to witness an attempt of a foreign cup hunter to wrest from America the yachting supremacy of the world, returned to New York to-night disappointed because the sea had refused a field of combat to the racers, but nevertheless jubilant in the conviction that Sir Thomas Lipton's latest challenger, like the two Shamrocks which had preceded her, was doomed to return to England empty-handed.

Saginaw, Mich., August 20.—James Budd and Eugene Moss, aged 16 years, were burned to death here in an electric light tower at 8 o'clock to-night. It had been the practice of boys playing in that neighborhood to climb the tower, which is 125 feet high, to the platform at the top. Tonight the Moss boy, while at the top, touched a wire carrying a heavy current, and instantly his body was a mass of flames. Young Budd had started to descend, but returned to attempt to rescue his companion. The moment he touched the wire he too became enveloped in flames. Both were instantly killed.

Cheyenne, Wyo., Aug. 19.—Albert Ecklund, alias George Joynson, who was captured at Rawlins and was being taken back to Chicago to answer to the charge of grand larceny, effected a remarkable escape from Detective William Marsden. Marsden left Rawlins last night with Ecklund, and to make sure of his man, shackled him to a seat in the smoking department of a chair car. While Marsden was sleeping beside his prisoner, Ecklund went through the detective's pockets, secured the keys to the shackles, released himself and then shackled the officer to the steam pipes. Having relieved the officer of his weapons and other property, Ecklund left the train at Laramie. Marsden was not awakened by the conductor until Cheyenne was reached, when he called for assistance. As Marsden had absolutely nothing on his person to prove that he was not a prisoner, the train men would not release him. The railroad authorities telegraphed to Chicago for instructions, and when the train reached Sydney, Marsden was finally released from his predicament. To-night he passed through Cheyenne en route to Laramie to try to effect the re-capture of his prisoner.

### DEMOCRATS MEET.

Columbus, Neb., August 24.—Although the Democratic State convention does not convene till to-morrow evening, intense interest already prevails, and to-day a large number of delegates and leaders have arrived. A number of prominent Democrats have put themselves on record as opposed to fusion, while others still adhere to the policy of joining hands with the Populists and dividing the ticket. While Mr. Bryan has not made his position clear, it is believed he will favor fusion, and many rely on his influence to secure harmony.

\$100—Dr. E. Detchon's Anti-Diuretic may be worth to you more than \$100 if you have a child who soils bedding from incontinence of water during sleep. Cures old and young alike. It arrests the trouble at once. \$1. Sold by M. E. Robinson & Bro druggists, Goldsboro

## RATTLESNAKES IN STONE.

Staange Explanation of Peculiar Markings on a Public Building.

Indianapolis News.

One of the plinths in the north front of the new Federal building promises ill for the peace of mind of the inveterate toper, for on its surface, in a delicate tracery, is apparently the outline of many rattlesnakes. An old stone man from the Bedford quarries called attention to the freak several days ago, and said that such markings were very unusual.

According to his story these snakes existed many years ago, in prehistoric times, back in the era when the plots for fairy stories were laid. Possibly these snakes were cold, according to his story, anyway they coiled closely to one another and in that form were petrified and were gradually turned to stone. The stone expert also pointed out where the rattles of the snakes may be seen plainly.

One of the most peculiar features of one stone is the fact that the tracery shows most plainly during damp weather, and if it were on the south side of the building, it is said, the sun would soon bleach its delicate tracery until it would be no longer discernable. On account of its present situation the sun seldom reaches it, but when it does the outlines of the snakes completely disappear.

## THE STRIKE SETTLED.

The Strike of the Employes of the Richmond Street Car Company Is Settled.

Richmond, Va., August 24.—The strike of street railway employes here was officially declared off shortly after noon to-day. It had lasted just sixty-nine days and is estimated to have cost the street car company \$125,000; the strikers, in loss of wages \$50,000; the State, by reason of the necessity for troops to maintain order, \$75,000, and the city for special police \$5,000.

## BE YOUR OWN JUDGE.

Mi-o-na Costs You Nothing, if it Does Not Cure, Says J. H. Hill & Son.

Mi-o-na, the remarkable flesh forming food and cure for dyspepsia, has won fame by the unusual way in which it is sold. It is the only remedy offered for the cure of dyspepsia which costs the user absolutely nothing unless it cures.

J. H. Hill & Son, the popular druggists, are selling a great many packages of Mi-o-na and with every box is given a personal guarantee to refund the money if Mi-o-na does not give satisfaction, you to be your own judge as to whether the remedy helps or not.

Mi-o-na is an unusual combination, it is a flesh-forming food combined with agents that regulate the digestive organs and remove irritation, congestion and inflammation from the stomach, liver and intestines. It enables those organs to extract from the food all that goes to make good, rich blood, firm muscle, steady nerves and a sound body. It does not contain any pepsin, pancreatin or other drugs, that never effect a cure and rarely give even temporary relief.

Mi-o-na puts the digestive system into proper working order, gives health, strength and good flesh, and is the natural cure for indigestion. Even in chronic cases, where life is one long drawn out pain, this remedy will effect a cure. It is the simplest and most reliable of all remedies. Just one tablet before or after meals and you can eat a hearty meal without distress.

If Mi-o-na does not do all that is claimed for it J. H. Hill & Son will refund your money.

## Some Reasons

Why You Should Insist on Having

### EUREKA HARNESS OIL

Unequaled by any other. Renders hard leather soft. Especially prepared. Keeps out water. A heavy bodied oil.

### HARNESS

An excellent preservative. Reduces cost of your harness. Never burns the leather; its efficiency is increased. Secures best service. Stitches kept from breaking.

### OIL

Is sold in all Localities. Manufactured by Standard Oil Company.
