lanthea, and also a friend to the Senator.

By some means this soldier learned of the trouble of his friend the Senator, and hastening to the King's court, he offered himself as a hostage for his triend, that he might have a few short hours to see his wife and child, before the headsman and his axe were called into service. His offer was accepted; he was placed in the dungeon, and the Senator allow-

ed to depart. In due time a shout by the populace announced the return of the Senator, when the soldier and friend was released.

This event flung out upon life's drama the silken banner bearing the motto Friendship. The noble

order of Knights of Pythias, bearing aloft this banner, was born in the city of Washington on the nineteenth of February 1868, with Justice H. Rathbone at its head, and now numbers over half million brave and valiant knights.

About four years later, Ruffin LodgeNo. 6 unfurled their tri-colored banner in our fair city, and during these years of labor and love, for suffering humanity, has grown to be one of the strongest fraternal orders in our midst.

Governor Charles B. Aycock Puts

An Abrupt End to All

Negotiations.

Raleigh Post.

Governor Aycock gave out the statement yesterday afternoon that there will be no lease of the Atlantic and North Caroltna Railroad. Asked for a more detailed state-

ment, he said there was nothing else to it. That Mr. W. W. Mills and REV. F. D. SWINDELL, his associate, Mr. H. L. Finlayson, through whom the two propositions to lease came, called on him during the day and he (the governor) informed them that he would not further consider the proposition, and the negotiations were at an end. Other than this the Governor had no statement to make. He said there would be no consideration of the propositions at the approaching session of the directors at Newbern.

Mr. W. W. Mills was seen by a Post writer and asked iu regard to the situation. He said all he could say was that negotiations for a lease were entirely off. He had called on the Governor and been told that 000; water works \$100,000; and we there would be no further considera- do not know of a business man in tion of his propositions to lease. EDITOR ARGUS:-Will you kindly

publish the following letter, one

from Mr. W. R. Odell of Concord

Concord, N. C., Sept. 17, 1903. Goldsboro, N. C.

DEAR BROTHER:-Your esteeme favor of the 15th inst., to hand.

For some years after the saloons were abolished in Concord there was no increase in taxation. Since that time, however, we have installed electric lights, water works, and established public schools, and of course this naturally increased taxes. We have also macadamized streets, cement sidewalks in all the business portion of town, and the population has more than doubled. Our rate of taxation is 1-20.

We have built a city hall costing about \$15,000; graded schools \$25, want saloons-even high licensed THE NINTH CRUSADE.

Is there to be a ninth crusade of Christian soldiery against the Turks? A few months ago the question would have been absurd enough. But now, in view of the plans which are being considered by Knights Templars at Chicago, the inquiry bids fair to be answered in the affirmative.

The Knights Templars of the only wear so much. A man on an United States number something income of one-thousandth part of his more than 50,000. Only a certain can dress as well. His money proproportion, of course, would go to vides him a bed, a downy couch with Bulgaria in the event of the forma- beautiful adornments, but it cannot tion of a military league. But this organization, should it decide on such a movement, could furnish a very formidable force. It is safe to say that the Templars of America and Europe could put at least 100,-000 men in the field against the infi- groans with dyspepsia. He would dels.

Such a crusade would be scarcely inferior in numbers, and markedly superior in other respects, to any of ler is true, instead of being rich he the eight principal movements for is poverty-stricken in those things the recovery of Jerusalem from the Saracens. The first crusade, which was undertaken in 1096 and which was led by Godfrey de Bouillon and Of what account are millions to him? other nobles, comprised about 100,-000 men. The third, by Frederick Barbarossa, of Germany, and Richard Coeur de Lion, of England, was less imposing and almost wholly ineffective. The fourth crusade, which was undertaken in 1210, on a tremendous scale, frittered itself away in jetty feuds and dissensions. The last four of the crusades were relatively unimportant. It is not remarkable that the Knights Templars, who trace the origin of their order back to the Latin kingdom of Jerusalem, and whose oath requires them "to fight the enemy of Christ, even unto death," should be deeply moved by the news of the Macedonia massacres and should plan a movement against the Moslem oppressors. Time alone can show whether the agitation of this crusade is to be taken seriously. But it is certainly an interesting example of historical recurrence; and it may yet be a determining factor in the eastern situation.

WHAT IS WEALTH?

What makes a man rich, a contemporary asks without answering the question. Some men are poor on\$100,000,others with\$1.000,000 are afraid of the poor house, while some more fortunately constituted are "passing rich on fifty pounds a year."

Rockefeller with all of his millions is still a poor man. His money buys a certain amount of clothes. If e can purchase soothing slumber. The millionaire rises many a morning from a restless night and envies the man who sleeps on corn shucks. His table groans with the luxuries of the season and the reputed rich man exchange his millions for the stomach of a farm hand.

Nortolk, Sept. 21.-Two heavy Southern Railway freight trains collided at Boone's Station, about six miles from Portsmouth, this morning. The cars were destroyed by fire. Engineer Richard Carrington, of Selma, N. C., is in St. Vincent's hospital, Norfolk, badly injured. The others of the train crews jumped and escaped injury, with the exception of West, a colored brakeman, who was caught in the wreck and cremated.

Lexington, S. C., Sept. 21.-The court which is to try James H. Till man, who while lieutenant governor of South Carolina, killed N. G. > SIGNS BOND AND TAKES ALL RISK.

J. H. Hill & Son Have Such Faith

In Mi-o-na, the Flesh-Forming Food, They Sell It Under

Guarantes.

Not one time in 500 does Mi-o-na fail to cure dyspepsia. It is because of its remakable power to cure this disease that J. H. Hill & Son are able to sell it in the following unusual way.

With every 50c box they give a signed guarantee bond to refund the price if the purchaser can honestly tell them that it has not given freedom from stomach troubles, increased flesh, and restored health. The risk is all J. H. Hill & Son's, as the following bond which they sign fully shows:

GUARANTER BOND. We hereby agree to refund the price paid for M1-o-na, if the purchaser tells us that it has not increased flesh and given freedom from stomach troubles J. H. Hill & Son.

Mi-o-na is not a mere digestive that simply gives tempory relief.

While it helps the food to digent t also has a positive strengthaning action upon the digestive organs and puts the whole system in proper physical condition. It restores power to the nerves of the stomach and in this way gives that important organ the power to digest food. In this health restored.

Remember that you risk nothing in buying Mi-o-na. The bond protects you, so that if it fails to give the desired effect, J. H. Hill & Son will return your money without question and without argument.

GOVERNMENT COTTON RE-PORT.

Washington, D. C., Sept. 22. Except in portions of the Eastern Districts of the cotton belt where cotton picking has been interrupted by rains, the weather conditions have been very favorable for gathering crops and this work has progressed rapidly.

The prevalence of rust, shedding and boll worms is widespread, and the boll weevil in Texas continues destructive, although there is premature opening in South Carolina. Rust in Georgia and shedding in Alabama have been somewhat checked.

Heavy rains have injured the staple in Georgia, South Carolina and Florida.

Cotton is opening rapidly in all districts. The outlook for a top crop is not promising.

Cure Catarrh By Nature's Own Method-Every Breath of

Hyomei Brings Relief.

Nearly every one who has catarrh knows how foolish it is to try and cure it by drugging the stomach. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would have said the only way to cure catarrh would be to have a change of climate; but now with Hyomei you can carry a health giving climate in your vest pocket and by breathing it a few minutes four times a day soon cure yourself.

The complete Hyomei outfit costs but \$1.00 and consists of an inhaler that can be carried in the vest pockway natural flesh is regained and et, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure,

an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs.

J. H. Hill & Sen have sold a great many Hyomei outfits and the more they sell, the more convinced they are that they are perfectly safe in guarantoning to refund the money if Hyperson does not one

saloons. . .

So far as managing the help in the factories is concerned, there is no comparison. We had more trouble when we were working 150 operatives with saloons than we have now

with 1,200 operatives without sa loons. Previous to the abolition of saloons we had no Building & Loan Associations. We have two of these now in successful operation, and more of our people own their homes than ever before. The people who formerly drank are saving money and purchasing homes. Business has increased in this town very much, and taking away saloons has never hurt business. When we had saloons you scarcely could see a lady on the streets at night or on Saturdays, and now the ladies have no hesitancy in going on the streets day or night.

So far as I am concerned I have never seen a place for a saloon yet. The town or city that abolishes saloons, and puts public sentiment behind it to see that the law is rigidly enforced, will grow and prosper. This has been the experience of Concord. Yours truly,

W. R. ODELL. P. S.-I find that in 1886 the taxable property of this town was \$463, 716. This was the year prohibition went in effect. Our amount this year, is \$2,132,610. Yours truly, W. R. ODELL. Recently in Brooslyn, on a large, new building, the Irish laborers employed there struck when Italians were employed. A sufficient number of Italians could not be found to take the strikers' places and negroes were then employed.

Now the Italians and Irish have joined hands and are doing their utmost to have the negroes excluded from the building. So there is race prejudice even in Brooklyn.
