## FOR THE VATICAN.

### STRANGE WILL MADE BY ENGLISH NONCONFORM- MIST PREACHER.

Ordered That His Body be Cre-  
mated and The Ashes be  
Scattered Over the Vati-  
can in Order to Purify  
--Son Carrying Out  
This Request.

Paris, Nov. 26.—Not long ago a  
well-known London nonconformist  
preacher, now deceased, celebrated  
during his lifetime for his violent  
antipathy to the Church of Rome,  
left injunctions by will that after  
death his body was to be cremated  
and the ashes sprinkled over the va-  
tican, with the object of "purifying"  
it. He charged his son to carry out  
this request.

The young man faithfully obeyed.  
The body was cremated, the ashes  
were put into a box, and the long  
journey from London to Rome be-  
gan.

At Milan, however, the box con-  
taining the precious ashes myster-  
iously disappeared. No trace of it  
could be discovered, and there was  
nothing to do but return to London.

The preacher's son is now in Paris,  
and makes no secret of the fact that  
he anticipates a far from pleasant re-  
ception by his relatives whenever he  
can make up his mind to cross the  
channel.

## POPULATION OF THE WORLD.

Dr. Supan estimates the popula-  
tion of the world at 1,503,290,000, or  
in plain words, one and a half bil-  
lion. Asia is credited with 820 mil-  
lions, or more than half the earth's  
total; Europe, with 392 million;  
Africa, with 140 millions; North  
America, with 105 millions; South  
America with 38 millions; Australia  
and Polynesia, with 6 millions. No  
previous estimate had named so  
large a total, but Dr. Supan main-  
tains that the latest reports confirm  
to a certain extent his figures.

Accurate confirmation of world  
figures is impossible, because no  
actual counts are taken in the greater  
parts of Asia, Africa and South  
America. At the best a world's  
census is but a guess, but it may  
well be that the guess of Dr. Supan  
is better than any other man's guess.

However, it is best to have some  
population figures of the world, and  
in the absence of any better we may  
have to accept those put out by Dr.  
Supan. A billion and a half is per-  
haps as good a round estimate as we  
can secure, and so we may well  
mark up our figures to that great  
total. The American Geographical  
society at any rate endorses the popu-  
lation figures of Dr. Supan by pub-  
lishing them in a bulletin.

## Montague-Wells.

A quiet but beautiful home wed-  
ding was solemnized in this city this  
afternoon at 3 o'clock, at the home  
of the bride's father, on St. Clair  
street, the contracting parties being  
Mr. David D. Montague, a popular  
young machinist, formerly with  
Dewey Bros., but now of Rocky  
Mount, and Miss Myrtle Wells, the  
beautiful and accomplished young  
daughter of Mr. Mark Wells, Rev.  
J. W. Gardner officiating.

Only the immediate family and a  
few invited guests were present to  
witness the ceremony, which was  
solemn and impressive.

The bridal presents were many  
and beautiful and attest the high  
esteem in which the happy young  
couple are held by their legion of  
friends.

Immediately after the ceremony  
the happy young couple repaired to  
the home of the groom over at  
Scottsville, where a delightful re-  
ception will be given the couple to-  
night at 8 o'clock, by the groom's  
father, Mr. S. D. Montague, and  
where they will receive the congratu-  
lations and good wishes of their  
hosts of friends, where the groom  
spent his boyhood days and where  
he is universally popular and highly  
esteemed.

Mr. and Mrs. Montague will leave  
on the 9:30 train to-night for Rocky  
Mount, where the groom holds a re-  
sponsible position in the A. C. L.  
Shops, and where they will make  
their future home.

The ARGUS joins their many  
friends in wishing them long life and  
happiness always.

## Runaway Accident.

Mr. Ross Cox, who lives near the  
Johnson county line, was painfully  
if not seriously hurt in a runaway  
near Mr. Hop Coor's mill late yester-  
day evening.

He was sitting on a load of lumber  
which he was hauling, when his  
team became frightened at a run-  
away horse hitched to a buggy,  
throwing him forward on the double-  
tree.

While in this position unable to  
liberate himself or check the fright-  
ened animals, he was kicked and  
bruised in a horrible manner.

## MORE THAN FAIR.

Read J. H. Hill and Son's Guar-  
antee Bond That Mi-o-na  
Will Cure the Worst  
Case of Dyspepsia.

The unique plan on which Mi-o-na  
is sold is more than fair. Unless it  
cures dyspepsia and all forms of  
stomach trouble, the purchase price  
is returned at once in accordance with  
the following guarantee bond:

### COUPON.

This coupon entitles any reader  
of the ARGUS to have the purchase  
price of Mi-o-na refunded in case it  
does not increase the weight and  
cure stomach troubles. We assume  
all the risk, and Mi-o-na is abso-  
lutely free unless it gives satisfac-  
tion.  
J. H. Hill & Son.  
WE TAKE ALL RISK.

If it were not practically infallible  
in curing dyspepsia and the melan-  
choly, sleeplessness, and weak nerves  
caused by that disease, J. H. Hill  
& Son could not afford to sell the  
remedy in this way. Their faith in  
the medicine is so implicit that this  
guarantee bond is given with every  
box they sell.

Begin the use of Mi-o-na to-day,  
as a few days' treatment will give  
relief and its continued use, perfect  
health.

The Latest Telegraphic News of the  
Day Boiled Down to a  
Focus For Busy  
Readers.

Charlotte, N. C., Nov. 28.—The  
Central Hotel property embracing  
the four story hotel building and one  
of the most valuable lots in the  
heart of the city was sold at public  
auction at the county court house to-  
day at noon to Captain W. B. Ryder  
for \$120,000.

Indianapolis, Ind., Nov. 28.—A  
special to the news from Brazil, Ind.,  
says that while the pilot engine pre-  
ceding President Roosevelt's special  
train was passing a lonely place near  
Brazil to-day four men threw stones,  
breaking several windows. The en-  
gine was stopped and Secret Service  
men chased the men, but the stone-  
throwers escaped.

Washington, Nov. 28.—On the  
recommendation of Brigadier Gen-  
eral McKenzie, chief of engineers,  
the Acting Secretary of War has  
made an allotment of \$30,000 from  
the river and harbor act of April last  
for the restoration of the channel at  
Sewall Point, harbor of Norfolk.  
This allotment is an addition to an  
unexpended balance of \$20,000 from  
the river and harbor act of 1902.

Washington, D. C., Nov. 28.—The  
House Committee on Rivers and  
Harbors met to-day and decided to  
prepare a river and harbor appropria-  
tion bill to be presented early in  
the coming session of Congress. The  
committee also discussed the ques-  
tion of going to Wilmington, N. C.,  
to look into the proposed improve-  
ments there, promise to that effect  
having been made sometime ago.  
The committee will meet again to-  
morrow.

## AN AGE OF CRIME.

The educational advancement and  
social refinement of the present age  
is strongly confronted and combatted  
by the criminal instinct which is  
taking a most alarming hold upon  
the human race.

It cannot be easily understood  
why, in all centers of large popula-  
tion, criminal spasmodic manifesta-  
tions continue to so frequently ap-  
pear. An abnormal development of  
crime just now appears in the old  
world as well as in the new. Great  
Britain is alarmed at statistics on  
crime there presented and even the  
little kingdom of Denmark, where  
one-half the population is rural and  
where education is universal and re-  
ligious convictions are profound, is  
suffering as she has never done be-  
fore.

Murder and moral disorders are  
afflicting Italy, Spain, France and  
Belgium, to say nothing of the sav-  
age misdeeds daily perpetrated in  
Russia.

It can hardly be stated with truth  
that the human race as a whole is  
degenerating. The trouble seems to  
be with individuals. The human  
race is increasing in numbers and  
rapidly covering the face of the  
earth. Human activities have be-  
come intense and complex, and thus  
more ways are open for crime. Might  
and power are always dangerous,  
even though they be necessary to  
accomplish great ends.

The inventive genius of this age  
has much to do with deeds of vio-  
lence. There are more people with  
greater opportunities to do things  
they should not do, and yet there is  
more good in this world of ours than  
there ever was before.

Disregard of property rights and  
for human life must be checked by  
the strong arm of the law, if moral  
suasion loses its power.

## SCORE WAS 11 TO 12.

### YESTERDAY'S FOOT BALL GAME, VIRGINIA HAD A TRY FOR GOAL.

The Ball was Kicked Straight  
Enough But Too Low to Get  
Over the Bar, and a Caro-  
lina Player Standing  
Beneath the Posts,  
Jumped Into the  
Air and Struck  
the Ball Up-  
ward.

Richmond, Va., Nov. 24.—Vir-  
ginia 12; North Carolina 11.

These figures give the net result of  
one of the prettiest games ever  
played in Richmond, and which  
proved the most exciting of the  
many annual meetings of the rival  
universities.

At least fifteen thousand persons  
saw the game—twice as many, per-  
haps, as ever gathered on a similar  
occasion, and they got their money's  
worth. Not until the call of time at  
the close of the second half was any  
one sure what the result would be.

The wind was a great factor in the  
game, and but for the practice of  
changing goals after each touchdown,  
the side in whose favor it was blow-  
ing would have proven invincible.

The star of the game was Carpen-  
ter, North Carolina's great right half  
back. He is a Virginia man and has  
long been prominent in football cir-  
cles. He was responsible for one  
of North Carolina's touchdowns, and  
his punting was magnificent. Car-  
penter was several times injured dur-  
ing the game, but pluckily stuck it  
out to the end.

For Virginia the star work was  
done by Council, the team's captain  
and right tackle. Both touchdowns  
were made by him, and his work  
was of the highest order.

The game was noticeably less  
rough than in years gone by, al-  
though several men were slightly  
hurt and gave place to substitutes.  
In the Virginians' ranks, Randolph  
at left half back was hurt, Lankford  
took his place and Paul succeeded  
Lankford at full back.

North Carolina had to put in two  
substitutes. Wright succeeded Town-  
send at left end and Roberson at  
fullback gave place to Winborne.

The teams were so nearly even in  
weight that no one was able to ac-  
complish much bucking. Bucking  
the line, punting and round the end  
plays were responsible for most of  
the gains.

A few moments before the end of  
the second half the score was 11 to  
11 and, Warren for Virginia dropped  
back to kick goal. The ball flew  
through the air and would have  
missed its object had not Carpenter,  
of North Carolina, in attempting to  
block it, forced it through the goal.

## TO VISIT NORTH CAROLINA.

Rivers and Harbors to be In-  
spected in View of the Prepa-  
ration of an Appropria-  
tion Bill.

Washington, Nov. 28.—The river  
and harbor committee of the House  
received an invitation this morning  
through Chairman Burton to visit  
Wilmington and other North Caro-  
lina points the latter part of the  
present week, but other matters de-  
manded the consideration of the  
members, so the invitation will not  
be acted upon until morning. Chair-  
man Burton stated that he had  
promised to visit Wilmington for  
several years, and he expressed the  
hope that the committee would take  
advantage of the present opportunity  
to visit the Carolina coast and inspect  
the river and harbor projects. Some  
of the members do not think the  
visit advisable just now, for the rea-  
son that the opening of congress is  
so near at hand, and they will be  
very much engaged for the next few  
days. It is more than likely that  
Mr. Burton and several members of  
the committee will make the trip,  
should the entire membership find it  
impracticable to do so. The matter  
will be taken up again at to-morrow  
morning's session, and a definite  
conclusion will be reached.

The members of the river and har-  
bor committee are Burton of Ohio,  
Ooyener of West Virginia, Bishop of  
Michigan, Atcheson of Pennsyl-  
vania, Alexander of New York,  
Laurence of Massachusetts, David-  
son of Wisconsin, McLachlan of Cali-  
fornia, Lorimer of Illinois, Jones of  
Washington, Bede of Minnesota,  
Lester of Georgia, Bankhead of Ala-  
bama, Sparkman of Florida, Rans-  
dell of Louisiana, Burgess of Texas,  
Humphries of Mississippi.

St. Petersburg, Nov. 28.—7:25 p.  
m.—The War Office has received in-  
formation from Chefoo that the Ja-  
panese assault on Port Arthur Satur-  
day was repulsed with enormous  
loss.

## WHERE MILLIONS ARE MADE.

### Interesting Letter That May Mean Much to Residents of Goldsboro.

Probably there is not a reader of  
the ARGUS who has not heard of the  
fortunes made in the Beaumont oil  
fields. While the tales of fortunes  
quickly made are interesting, they  
are really not half as valuable to our  
readers as the following letter from  
L. K. Preston, president of the Cas-  
well-Preston Drug Company, of Beau-  
mont, one of the largest wholesale  
and retail houses in Texas.

Mr. Preston writes "Enclosed you  
will find a letter that came to us un-  
solicited from J. C. Reeves, 770  
Pearl St. I have known Mr. Reeves  
for a number of years. He is a re-  
liable man and very happy over his  
fortune.

"About four years ago," writes  
Mr. Reeves, "I lost the hearing in  
my right ear and about three or four  
months ago my left ear became al-  
most as bad. In fact, I was so bad  
that people had to shout at me to  
make me hear. I had about given  
up in despair all hopes of ever recov-  
ering my hearing when I saw that  
you recommended Hyomei. I used  
two bottles and can now hear my  
watch tick with either ear, and my  
hearing is now all right. This deaf-  
ness must have been caused from  
catarrh, for it is now cured. Hyomei  
certainly does what you claim for  
it."

Hyomei has made many cures of  
catarrh, and in combination with  
Hyomei balm, of catarrhal deafness  
in Goldsboro and nearby towns.

Messrs. J. H. Hill & Son give  
their personal guarantee to re-  
fund the money should it not give  
relief. The complete Hyomei outfit  
costs but one dollar while extra bot-  
tles can be obtained for fifty cents,

## JAPANESE-RUSSIAN WAR.

### BATTLE CEASED ON AC- COUNT OF A HEAVY SNOW STORM.

General Kuropatkin the Posses-  
sor of a New Twenty Horse  
Power Automobile With  
Which He Can Rush  
From One End of  
the Twenty-Five  
Mile Line to  
the Other.

Chefoo, Nov. 28.—General Kuro-  
patkin is the possessor of a new  
horse power automobile with which  
he is able to rush at high speed from  
one part to another of the line 25  
miles long, according to M. Ravoire,  
who reached here to-day from Muk-  
den. M. Ravoire spent three weeks  
with Kuropatkin, who wished to  
secure twenty automobiles specially  
constructed to carry ammunition  
speedily in emergencies. He will  
only use them in winter when the  
Manchurian roads are in excellent  
condition.

St. Petersburg, Nov. 28.—General  
Sakhharoff to-day telegraphs as fol-  
lows:

"The Japanese attack on Tsinkhet-  
chen was checked by our artillery  
fire and the fighting ceased at 6  
o'clock in the evening of November  
27. At no point did the enemy ad-  
vance nearer than within six hun-  
dred paces of our positions. In the  
midst of the battle a blinding snow  
storm caused a suspension of hostil-  
ties, and when the weather cleared  
at 3 o'clock in the afternoon a turn-  
ing movement against our right flank  
was observed."

St. Petersburg, Nov. 28.—General  
Kuropatkin reports that there has  
been active skirmishing on the left  
flank for three days. The opinion is  
now expressed by the general staff  
that the Japanese intend taking the  
offensive, as they cannot afford to  
wait until the Russians are further  
re-inforced. It is held that the fight-  
ing to the eastward is doubtless with  
the purpose of feeling out the Rus-  
sian positions preparatory to an ad-  
vance in that direction, but as there  
are about 7,000 Russian troops south-  
west of Sintsintin where fighting oc-  
curred on November 26 and probably  
twice as many more in the moun-  
tain between Bensiaputza and Sintsintin,  
the Japanese move for this  
quarter would entail serious fight-  
ing.

## LAWLESSNESS IN THE LAND

### Judge Emory Speers Says Con- ferences Should be Held to Uphold the Law.

Savannah, Ga., Nov. 28.—Judge  
Emory Speer, of the United States  
District Court in charging the grand  
jury of that body to-day referred at  
great length to what he characterized  
as the lawlessness existing in all sec-  
tions of the country. He spoke par-  
ticularly of the recent outrages at  
Statesboro, which is in his jurisdic-  
tion and suggested that the better  
class of blacks and whites in the  
South should hold conferences look-  
ing to the enforcement of law and  
the punishment of the guilty. He  
severely criticised the Georgia law,  
which prevents the judge who hears  
a case from expressing an opinion as  
to the facts brought out.

As to the prevalence of crime  
Judge Speer compared the large  
cities of this country with those in  
Europe, to the detriment of the  
former.
