SCHOOL STRIKES.

Goldsboro, N. C., APRIL 1904

The children in the public schools of Chicago inaugurated a sympathetic strike that was novel to say the least. Their sympathies warmly ran with the teamsters and garment workers and so they decided to strike against deposits, but repeated efforts failed somebody and their teachers were their only basses in sight

They could not be punished at all ifChicago did not have a compulsory education law. Under that law it becomes the duty of parents to keep their children at school, if they do not they may be assessed and fined and this is what the board to education is engaged in doing. It has caused the arraignment of numerchildren have already been fined each twenty dollars and costy. More are to be fined.

It is very natural on the part of children to sympathize with their parents but Chicago's board of education does propose, it is plain, to encourage or permit school strikes. Strikes on the part of adults are quite enough and children should rusting badly, and wax beans are be told to stand back when a lobor practically ruined in many section. movement is to be fought out.

REPORT OF ACREAGE.

The first report of the Departmen of Agriculture on the cotton acreage of growth will be due June 2 and ng to see that the dignity of the edi - and oppres ed, now tense as a steel Only about a dozen extra session it is awaited with considerable inter- profession is being conserved in the coil, the blood coursing through of Congress have been called in 11 est Over the preparation of the forth- monshine dis rict. The editor of your veins and your nerves tingling years, and of them all the one of next coming report friction has arisen, The Journal, of North Wilkesboro, with suppressed excitement. And October has perha a the most intriand the parties to the friction are and the editor of Tae Yadkin Ripple, then the thoughts! the trooping fan cate questions to handle. The cal-John Hyde, chief of the bureau of Yadkinville, has each landed an cies that harass the tired brain led session was speedily run into the of the Department of Agriculture, appointment as a mail carrier on a crowding upon one another in a long session of the Fifty-ninth Couthe use of Mr. Hyde, but Mr. Hyde the State Press Association in rebut- minate fears, causeless anxieties, a declined the proposition because Mr. tal of the axiom that republics are horrible loneliness, a presentiment plished. But the "if" - there's the Jordan's reports are not to be consol- ungrateful. idated until May 30 or only three lication of the Agricultural Depart-

But the friction relates to Mr. Jordan's mental attitude rather than to any question of time. Mr. Jordan assumes to begin with that the acreage in cotton has been materially reduced and he desires Mr. Hyde to secure infomation based on that assumption Mr. Hyde refuses to reognize Mr. Jordan or his assumption. Heisgathering information independent of any pre-conceived notions. He even lectures Mr. Jordan and his associates accusing them of per-Judging the situation. Mr. Hyde says to suppress vagrancy passed by the no injusticce will be done in his Legislature was good a one. There report of June2, because 60 percent are signs that it it was demanded. of the reports thus consolidated will The people endorse. We notice come from cotton farmers' and he that there is a wide spread disposition feels sure they are not bears in a to enforce. It is not only a good law market sense of that word. He for the towns but for the country ventures the assertion that whatever also. We shall be surprised if the error is made in the report of June 2 authorities in the rural districts do ago I had Kidney Trouble, which will, as usual, be one favorable to not see that offenders are dealt with. caused me great pain, suffering and the farmers."

ARIA APoison Breathed

The air arising from low, marshy places, damp cellars, stagnant ponds and pools and from decaying vegetable matter, as well as the gases from sewers, is loaded with germs of malarial poison. The water we drink, that has not been properly filtered and purified, is also full of these germs and microbes and so we delike

microbes, and as we daily breathe and drink millions of MALARIA IN HIS SYSTEM FOR YEARS. these into the system, to be absorbed by the blood, the entire body begins to feel the effects of the poison. The most common form of Malaria is "chills and fever,"

For several years I suffered with Chills and Fever, caused by Malaria in my system, and each summer for several years I would have a relapse. Finally my physician prescribed S. S. S. It entirely cured me; I have never been troubled since.

913 W. Market St., Louisville, Ky. I. Shapoff.

but when the blood is thoroughly saturated with the poison it becomes so weak and polluted that abscesses, carbuncles, boils, sores, ulcers and other skin diseases result. Malaria also affects the liver, kidneys, bowels and stomach, producing a chronic state of biliousness that often results in jaundice or some malignant fever. In cases of Malaria the blood must be purified before the body can regain its natural health. S. S. S. contains purifyhave looked to Charlotte for a presi- patches received point to a Japanese ama tariff policy of the administra- ing and tonic properties possessed by no other blood medicine, and is the ideal remedy for the treatment of Malaria. It des-

troys the germs of the disease and builds up the weakened, polluted circulation. It enters into the blood and forces out every particle of poison and waste matter and adds strength and activity to it. S. S. S. improves the appetite and digestion, tones up the entire system by its alterative and purifying action, and Malaria, with all its bad effects, is permanently driven from the system.
