COTTON MILLS NORTH AND

Mr. Pidgin, chief of the Massachusetts bureau of statistics, has pub lished a pamplet in which he com pares the cotton mills of Massachusetts with those of Georgia and the two Carolinas. He admits that the percentages of increase in the south exceed those in Massachusetts, but he goes on to show that immigrants are flocking to Massachusetts at the rate of 50 000 a year, while prectially none seek the three southern states named. The mills in the three states named are therefore confronted by a labor problem or famine more serious than is the labor union and its strikes in Massachusetts. "It is evident," says the Providence Journal, "that the requirements of labor

hours and better housing." Mr. Pidgin claims that the abundance of capital in Massachus tts enables the mills of that state to buy cotton for long periods ahead, so that they can meet the southern mills that all reports of arrangements mother, Mrs. Lon Dale, where Mrs. in the cost of raw material, and even outdo them at tine.

The great advantage of the south ies in lower wages and longer hours Mr. Pidgin, however, claims that the Massachusetts mills produce per employee a product of an average selling value of \$1200 against \$1010 and \$984 for South Carolina. "The south," says the Springfield Republican,"must come up to our labor standards. That section even then will erjoy advantages enough over this section in the cotton manufacture to insure its steady growth there, but our own closer proximity to the great cotton goods markets of report d here today that the posse sion of a more abundant and skilled became scattered or devided and no supply of labor and better facilities one knows who dealt the death-deal- otherwise for the manufacture of ing shot.
