We have stood pat on the sacred Dingley tariff, and yet our trade balance has fallen from 630 million dollars to 370 million dollars-in four years.

Nor is this all. Roundly speaking, Russian fleet to be sunk. we have no commerce, and we are each year paying big ocean freight bills to other countries. Each year tens of thousands of Americans go across the seas scattering gold as they go. The result is a genuine trade balance that is unfavorable instead of favorable. This is why we are exporting more gold from year to year.

The truth is, it did not create the big balance of four years ago, but it is operating now to lessen our trade, because as a rule we must buy from those we sell goods to. One-sided trade is rarely prosperous. We are expected to buy in return. The Ding- tionate increase in danger to passenley well prevents that, and so it comes about that our trade balance deal more safety would be altogether is growing less year after year.
