PRESIDENT ROOSEVELT AND THE FEVER.

Two months have elapsed since the authorities of New Orleans acknowledged that their city harbored yellow fever.

In the two months a great sanitary battle has been fought. Some may say that the battle has not been won because the fever has not been stamped out.

The fever has, however, been kept under control, and on Monday next a death occurred in the broad city on account of yellow fever.

The number of cases on hand is about 300 and the deaths are about five a day. About ten per cent of the fever patients die.

Contrast to the figures of 1878, when nearly one hundred died daily of yellow fever.

The battle has therefore been strikingly successful in New Orleans, even if it has not been in the outlying towns and plantations.

The mosquito theory has not been fully applied except in New Orleans and it has certainly led to gratifying results in that city.

The fever situation in New Orleans is so satisfactory that President Roosevelt has no intention, it is stated, of canceling his engagement to visit it in the late days of next month.

He does not intend, it is said, to cancel or to postpone his southern tour, and New Orleans is to be a part of that tour.

EARTHQUAKES IN ITALY.

In the very toe of the Italian peninsula a great earthquake has occurred. No one knows the cause of earthquakes, but the belief among scientists is that they are due to the shifting of strata, about ten miles below the surface.

Among the people in general earthquakes are looked upon in the popular mind with reverence, but scientists insist that earthquakes are unaccountable phenomena, and yet the two seem to occur together.

Vesuvius and Stromboli were very active just before the earthquake occurred in Calabria, and many other waves of the earth have had volcanic accompaniments.

This country is very broad and long, and it may be said to be remarkably free from shocks such as destroyed villages in Italy.

The Charleston earthquake of 1886 was one of the most remarkable ever felt in the Atlantic states, and the New Madrid, Missouri, disaster of 1812 was the worst shaking up the Mississippi valley has known in historical times.

Shocks are not rare on the Pacific coast, but they are rarely disastrous.

Such events in nature are pretty well beyond the knowledge of mankind. The rooming can not be demonstrated, and no possible plan of the human brain can provide against them.

They are slow to themselves and man has to take them as they come, by their vigor great or small.

8100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Huge Task.

It was a huge task to undertake the cure of such a bad case of kidney disease as that of C. F. Cherokee.

Electric Bitters did it. He writes: "My kidneys were so far gone I could not sit on a chair without a cushion, and suffered from dreadful backache, and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach. Guaranteed by J. H. Hill & Son, druggists, price 50c.

A Warning to Mothers.

Do not think that you can be used with small children during the hot weather.

The summer months to guard against cholera, typhoid, and other diseases, it is necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any other oil, but give the old-fashioned castor oil, and see that it is fresh, as old castor oil is rancid and has a strong, disagreeable odor.

It is not only necessary to give the child a dose of castor oil to correct any disorder of the bowels, but it is also necessary to give the child a dose of castor oil to correct any disorder of the bowels.

AS WE GO ALONG.

Twenty years ago Gaston county had forty-eight government distilleries. Now she has none. Their places are taken by thirty-four cotton mills.

The people find more money in cotton mills and a much better citizenship. How is this for prohibition?

Two years ago, Goldsboro had eleven barrooms. By an overwhelming vote of our citizens these were put out of business, and the buildings in which they held forth are now occupied by prosperous mercantile firms; the vacant places in their vicinities have been built up with handsome stores and rented to new business firms, while real estate in the neighborhoods is selling at phenomenally high prices, undreamed of in the days when open barrooms slighted the prosperity and happiness of our people.

AT THE CHINESE COURT.

Miss Alice Roosevelt and Others Received by the Dowager

Pekin, Sept. 15.—Miss Alice Roosevelt, Mrs. Rockhill, wife of the American Minister; Mrs. Newlands, wife of United States Senator Newlands, and other ladies of Miss Roosevelt's party, went to the summer palace Wednesday and spent the night. Yesterday they were received in audience by the Dowager Empress. Mrs. Rockhill, who was first presented to the empress, introduced Miss Roosevelt first and afterward the other ladies of the party.

The empress moved among the visitors, chatting informally and presenting them with handsome gifts of bracelets and rings. This was followed by an inspection of the grounds of the summer palace. The whole visit was remarkable on account of the absence of formality.

Returning to Pekin in the evening most of the party attended an "at home" at the German minister's where General Corbin and wife and Senator Newlands and wife are being entertained. The party spent today seeing the sights of Pekin. Tomorrow all will go to Tien Tsin to attend a reception given by Viceroy Yuan Shaikai.

For Profitable Perusal of Argus Readers.

There is nothing ridiculous in seeming to be what you really are, but a good deal in affecting to be what you are not.

Act well at the moment and you have performed a good action for all eternity.

To know what moves an individual is to know what moves humanity. To know what improves an individual is to know what improves the race. To learn the secret impulse, motive and desire, which inspire the individual man to action, is to discover the secret spring of universal human activity.

Good to forgive, best to forget.

There is no more encouraging fact than the unquestionable ability of a man to elevate his life by a conscious endeavor. It is something to be able to paint a particular picture or to carve a statue, and so make a few objects beautiful; but it is far more glorious to carve and paint the very atmosphere and medium through which we look, which morally we can do.

Neither torture of the physical body, the renunciation of material comfort, nor the suppression of the affections is required of the modern student. Holiness in the modern sense does not mean a life of isolation, introspection and subjective ecstasy. Instead it means a practical life in the midst of men. It means a natural, wholesome human life lived out in conformity to the spiritual principles in nature and the requirements of an intelligent soul. It means a practical share in the world's activities, benefits and accomplishments. It means an exenplification of natural physical law up to the physical plane of life as well as natural spiritual laws through physical conditions.
