## WHAT TAFT LEARNED

### ROOSEVELT WANTS CONSULS IN CHINA TO BE LENIENT.

Chinese Wanting to Come to America Must Get Certificate From Our Consular Officers--That Is One of Objectionable Features.

Washington, Oct. 3.—As a result of Secretary Taft's visit to China, where he talked with a number of influential Chinese citizens on the problems confronting both governments in connection with the Chinese exclusion law and with the treaty, which is to be amended, President Roosevelt has ordered that a circular letter be sent to the American consuls in China directing them to be more lenient in the issuance of certificates to Chinese. As the law now stands the Chinese who wish to come to America must obtain certificates from the officers of this government. This to the Chinese is one of the objectionable features and, together with the bad treatment accorded Chinese citizens by the immigration officials and from their point of view the unjustness of the exclusion law, is partially responsible for the boycott.

A considerable portion of the time at the cabinet meeting today was consumed by Mr. Taft in a discussion of the Chinese boycott. In Shanghai, an organization of business men gave him a memorial on exclusion laws with the request that it be presented to President Roosevelt. This Mr. Taft has done.

The certificate system has many disadvantages, one of the great of which is that it is handled carelessly, opening the way for frauds. Many Chinese are citizens of Germany, France, Belgium or some other country, and it is their desire that passports from these countries be recognized by the immigration officials.

Just who it was that started the boycott has not been established, according to all the information Secretary Taft could get on the subject. In Hong Kong there was one story and at other places there were others. The Hong Kong question of the rather mysterious nature is new. It is that the family of a prominent Chinese who had trouble in coming into Massachusetts caused the movement. This man had credentials from Mr. Choate, then the American ambassador to Great Britain. When he tried to gain entrance to this country he had great trouble with the immigration people, owing to the fact that the certificate he held from Mr. Choate was not, in some way, made out according to regulations. Theman went home and his family, which is powerful, started the anti-American movement.

## DISFIGURED WITH ECZEMA

Brushed Scales from Face Like Powder—Under Physicians' Six Months But Grew Worse—Some Said Face Would Be Marked for Life—Now Without a Blemish.

## CUTICURA REMEDIES WORK WONDERS.

"As I was a sufferer with eczema I write to tell you what a great relief I found in Cuticura Remedies. In six months I had tried three doctors, but did not get any better. It was on my body and on my feet so thick that I could hardly put a pin on me without touching eczema. My face was covered, my eyebrows came out, and then it got in my eye. I then went to another doctor. He asked me what I was taking for it and I told him Cuticura. He said that was a very good thing, but that he thought that my face would be marked for life. Cuticura. Add its work and my face is now just as clear as it ever was. My brother-in-law told me about the wonderful Cuticura Remedies. I took his advice and got the Ointment, Soap, and Resolvent. I washed with the Cuticura Soap and then applied the Ointment and took Cuticura Resolvent as directed. In a short time my face began to get better, and when I had taken one bottle of Resolvent I could brush the scales off my face like a powder. When I had taken four bottles my face was as clear as ever. I told all my friends about my remarkable cure. I feel so thankful I want everybody to know how to know what Cuticura can do. It is a sure cure for eczema. (Signed) Mrs. Emma White, 641 Cherry Place, Camden, N. J., April 25, 1905."

Complete External and Internal Treatment for every form of skin disease. Cuticura Soap, 25c. Ointment, 50c. Resolvent, 50c. Sold by all druggists. A single bottle of Resolvent will cure you. Write for free literature. Cuticura Remedies, 150 N. Main Street, Lowell, Mass.

## PLACE THROUGH OUT THE WORLD.

The keynote of the preliminary treaty between Sweden and Norway is plainly irenic. It calls in The Hague at every critical point, and a zone of peace devoid of forts and other features of hostility is to be established along the boundary line between the two countries. To some extent Norway is disappointed, but as she gains independence at home and a foreign police of her own she will accept the situation of the conference and the two happy and intelligent countries will separate to become at least friendly Scandinavians "in a war with a common enemy." The preliminary treaty certainly looks to an alliance between the two countries as against aggression from a foreign source. Both rickdag and storting will enforce it, and thus will be settled an international controversy in accordance with the humanity and civilization of the twentieth century.

The dove of peace is doing well since she left Portsmouth. France and Germany have come to an understanding over Morocco, and in November a conference will be held in Algeria that will, it is hoped, settle all differences, and enable France to bring peace and prosperity and good government to Morocco, which is still in a medieval condition.

Greece and Roumania have severed diplomatic relations, but they do not adjourn each other, and the rifts can not meet, for Roumania is on the Black Sea and Greece on the Mediterranean, and the Bosphorus—the impregnable Bosphorus—lies between. After the two countries have had their quarrel, good sense will assert itself, and friendly relations will be resumed. At any rate there will be no war.

Just at present trouble in brewing between King and people in Hungary, and President Castro of Venezuela is delaying France. War will not grow out of either, and the entire world may therefore be at peace. The fearfully sanguine and expensive war in the Far East seems to have taught all the nations the wisdom of consulting the dove of peace rather than the dogs of war.

## FARMERS MOVING SOUTHWARD.

A statesman in Iowa shows that state has lost in five years 30,181 inhabitants, and yet it is one of the most fertile states in the country. The farms in Iowa are becoming larger and the farmers fewer. Similar movement had taken place in Illinois and the other states in the central west.

A farmer who is in debt in Iowa, for example, sees a chance to sell his land at \$100 an acre. He pays his debts, and the \$100 has money enough left to buy a farm in the south or southwest, where good lands can be purchased at \$10 and acre. It is estimated that 20,000 farmers are in this way and for the reason suggested moving from the high-priced lands of the central west to the low-priced lands in the south.

## THE GREAT VAN AMBURG SHOW.

Our citizens will soon have an opportunity of visiting one of the good shows of the country. The Great Van Amburg Show will pitch its tents in Goldsboro on Thursday Oct. 12th. The show promises to come this year larger and better than ever before. The many up-to-date features presented by this show are novel and startling. The horses and trained ponies are the best. Elephants, camels, lions and a large collection of trained animals are to be seen in the grand free street parade, in the forenoon on the day of exhibition.

English Spavin Liniment removes all Hard, Soft or Calloused Lumps and Blisters from horses, Blood Spavins, Cuts, Splints, Sweeney, King Bone, Stiffes, Sprains, all Swollen Throats, Coughs, etc. Save \$50 by use of one bottle. Warranted the most wonderful Blemish Cure ever known. Sold by M. E. Robinson & Bro., druggists, Goldsboro, N. C.

## GOSSIP OF THE WORLD

### TEMS OF INTEREST FROM DIVERS SOURCES.

The Latest Telegraphic News of the Day Boiled Down to a Focus For Busy Readers.

St. Petersburg, Oct. 3.—Count Witte will open the second Hague conference as the representative of the czar. An imperial decree, dated September 30th, has been issued, directing that arrangements shall be made immediately with regard to the holding of a conference for representatives to the national assembly.

Columb, S. C., Oct. 3.—Robert McDowell, a business man of Camden, was held up and murdered in that town early this evening. McDowell's head was crushed as if with some blunt instrument, and it is believed the motive was robbery. There is no clue to the murder, and the case remains a mystery.

The Salisbury Sun says that the estate of the late Capt. Charles Price, of Salisbury, is worth \$60,000 and his will was "unique and cannot be broken." His estate is given to his wife and his son, who are named as executrix and executor.

Capt. Price requests that monument be erected to him, but that the stone which marks his grave have these simple words: "Charles Price, born in Warren county, July 26th, 1846, died September 28, 1905," and the small stone at the foot of the grave have the initials "C. P." He begs that no mourning be worn for him.

Annapolis Md., October 3.—The extension of leave already extended to the three upper classes of midshipmen on account of the numerous cases of diphtheria among the members of the new fourth has been extended from one week to two and according to present orders the Naval Academy will open on October 14.

Ottawa, Ont., Oct. 2.—The warrant for the extradition of John F. Gaylor and S. D. Greene, has been signed by the Minister of Justice and forwarded to the lieutenant governor of the Province of Quebec.

A Paris Cablegram last night says: A dispatch to the Temps from Rome says the Vatican will seek to secure the seating of a delegate of the Holy See at The Hague peace conference, and hopes to secure the friendly assistance of Germany, thus avoiding Italy's objection to a papal delegate.

Richmond, Va., Oct. 3.—Mayor McCarty, who bore to President Roosevelt the invitation from the council of Richmond to visit this city during his southern tour, appeared tonight before the committee of three hundred who are making arrangements for the entertainment of the president and advocated the purchase of ten thousand American flags to be distributed to the school children of the city, who are to wave a salutation to the president with them. This action on the part of the mayor is considered remarkable from the fact that he fought with the southern army during the war between the States.

## The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney is poisoned and blood will attack the kidneys themselves. Vital organs of the kidneys themselves break down and waste away cell by cell.

Bladder troubles must always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scaling pains in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both Home of Swamp-Root, sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Edna, Texas, Oct. 3.—There are still 200 men in the bottom unsuccessfully searching for miles for the negro, Monk Gibson, charged with the murder of the Couditt family.

## ROTATION IN OFFICE.

When the fathers wrote the Revelation of Democracy—the principles of politics upon which rest the safety and perpetuity of our free institutions, they embodied therein, as the bulwark of honesty in office, the freedom of the people and the preservation of the government from intrigue and graft, "Rotation in office"; and in proportion as this precept has been disregarded have the people suffered and intriguers in office batted on graft and entrenched themselves in power; and all that have saved the country from the throes of revolution (we had a taste of it in the rise and passing of Populism, growing out of rule in politics) is that we have respected and maintained rotation in the office of the presidency of the nation. And the ARGUS hopes that it will ever be so, for in its observance is the safeguard of the republic—a limit beyond which intrigue cannot go.

France has adopted the one-term rule, because a presidential term in that country is seven years. A service of 14 years would be altogether too Napoleonic to suit the friends of the republican system. No President has ever been re-elected in France, and none ever will be while republicanism is as dominant in that country as it is today. President Loubet is popular. He has made a good President. He came from the peasant class, but he will not be re-elected next year. He is an earnest, devoted republican, and he himself would not listen to a proposition that might later on lead directly to Caesarism.

A successor must therefore be found for President Loubet next year, as in 1908 a successor must be found for President Roosevelt. Both are popular, but both will soon have reached the limits of safety, and both will give way to successors.

## A. & N. C. RAIL ROAD.

When the Atlantic & North Carolina Railroad was leased to the Howland Improvement Company, a year ago, it was opined that big schemes of development were behind the movement, and when Senator Aldrich, Mr. Marsden J. Perry and a score of Rhode Island capitalists came down here and made a trip of inspection over the A. & N. C. with Mr. Howland our people became satisfied that there were big schemes on foot looking to the development of this road and the harbor at Beaufort.

Soon after that trip of inspection by the Rhode Island capitalists there was a reorganization of the leasing company, and the road passed into the hands of the Atlantic & North Carolina Company, with Mr. Marsden J. Perry as president, and Mr. Frank S. Gannon as general manager, and the work of improving the physical condition of the A. & N. C. R. R., its roadbed, new cross ties, new steel rails, new steel bridges and culverts, new passenger coaches and freight cars; "coal burners" &c. &c. was inaugurated on broad and expensive lines, so much so that, instead of taking three years in which to expend \$250,000 in permanent improvements on the road, as agreed upon in the lease, the lessee company have already—within one year—expended \$330,000, and have hardly yet begun; for in addition to this great sum already expended, the work of building the steel bridge, that is to cost a quarter of a million dollars, across the sound at Morehead City commenced last week, and about the same time that this latter work was inaugurated there was a meeting of Norfolk & Southern Railroad stockholders in New York, and a reorganization and an election of new directors of that company, and the result is most significant, and should give renewed enthusiasm to those hereabouts who have abided in the faith, that the leasing of the A. & N. C. R. R. was the beginning of a new era for Eastern North Carolina, one that should mark undreamed of development and marvelous growth.

It is significant that at the New York meeting of the Norfolk & Southern the following were elected directors of that road: Messrs. Wm. L. Bull, New York; S. H. Colt, president of the United States Rubber Company, Providence, R. I.; Marsden J. Perry, Providence, R. I.; Frank S. Gannon, New York.

Mr. Marsden J. Perry was elected president of the road, but no change was made in the position of M. K. King, who has been the vice president and general manager of the company since its organization.

So the A. & N. C. and the Norfolk & Southern have the same president and are under the same directorate. Will there be a "connecting link" built and a merger of the two roads and a big coalging station built at Cape Lookout harbor and—well, we are dazed at the possibilities.

## Portrait of General Robert E. Lee.

The fact that too frequently it transpires in American history that no accurate and authentic portrait of her great men is faithfully preserved has caused a number of the devoted admirers of General Robert E. Lee to interest themselves to cause a perfect picture of the great General to be made and to be preserved for all future history.

This work, after a lapse of forty years, is now under way by the John A. Lowell Bank Note Company, of Boston, who are using for this purpose the exact photograph made at General Lee's residence in Richmond a few days after the surrender, which picture has always been considered by the Lee family and friends as the most perfect likeness ever taken of the General at that point.

The work, when finished, will be of the highest art of steel engraving, so that it will thus be preserved for all future time.

## ROBBED THE MAILS.

Postal Clerk Donnan Caught in Act of Robbing Registered Letter.

Norfolk Va., September 30.—Edwin R. Donnan, thirty years of age, son of former United States Consul Donnan at Belfast, Ireland, is in the Norfolk jail, charged with having robbed the Fort Monroe postoffice, where he was employed as money order and registered letter clerk. The robbery had been going on for two years, but there was no proof against Donnan until United States Postoffice Inspectors Frank R. Sheron, of Washington, D. C. and John W. Bull, of Norfolk, went to the office last evening, and watching Donnan, saw him take \$8 out of a registered letter and put it in his pocket. Another registered letter mail was found in the pockets of Donnan, but this was unopened. The accused acknowledged that he had been caught and made a full confession to the inspectors, who brought him to Norfolk and placed him in jail pending a preliminary examination this morning. Donnan had nothing to say and went on to the November Federal grand jury and was recommitted to jail in default of \$500.

The Nail Case.  
Raleigh Post.

The grand jury yesterday morning returned a true bill against J. C. King, L. B. High, Jack Peeler and W. P. Durham, state hospital attendants, for the murder of Thomas H. Nall, the patient from Chatham county who met his death in an attempt to escape from the asylum. Yesterday afternoon the case was continued on motion of the defendants, granted by Judge Justice, until January term of court.

## Capt. Price Dead.

Salisbury N. C., Sept. 28.—Captain Charles Price, one of Salisbury's leading citizens, died at his home here early this morning at the age of 59 years. He was one of the most prominent lawyers in North Carolina and had a wide reputation as an attorney for railroads, and at his death was division counsel for the Southern railway. He was a Confederate veteran and at various times represented his district in the legislature. The State sorrows at his death.

## Rheumatism

Is one of the constitutional diseases. It manifests itself in local aches and pains, inflamed joints and stiff muscles,—but it cannot be cured by local applications. It requires constitutional treatment acting through the blood, and the best is a course of the great medicine Hood's Sarsaparilla which has permanently cured thousands of cases.

For testimonials of remarkable cures send for Book on Rheumatism, No. 2, C. I. Hood Co., Lowell, Mass.

## GOOD BLOOD TELLS ITS OWN STORY

And tells it eloquently in the bright eye, the supple, elastic movement, the smooth, soft skin, glowing with health, a body sound and well, an active brain, good appetite and digestion, refreshing sleep, energy to perform the duties and capacity to enjoy the pleasures of life. The blood is the most vital part of the body; every organ, muscle, tissue, nerve, sinew and bone is dependent on it for nourishment and strength, and as it circulates through the system, pure and strong, it furnishes to these different parts all the healthful qualities nature intended. When, from any cause, the blood becomes impure or diseased, it tells a different story, quite as forcible in its way. Itching, burning skin diseases, muddy, sallow complexions, disfiguring sores, boils, carbuncles, etc., show the presence, in the blood, of some foreign matter or poison. Rheumatism, Catarrh, Contagious Blood Poison and Scrofula, are effects of a deeply poisoned blood circulation. These may either be inherited or acquired, but the seat of trouble is the same—the blood. S. S. S., a purely vegetable blood remedy, cleanses and purifies the circulation and makes it strong and clean. Under its purifying and tonic effects all poisons and impurities are expelled from the blood, the general health is built up, all disfiguring eruptions and blemishes disappear, the skin becomes soft and smooth and robust health blesses life. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison and all diseases of the blood are cured by S. S. S. Book on the Blood and all medical advice, free of charge. ## The Vital Center

No Man Stronger than his Stomach. Let Mi-o-na Strengthen your Digestive System.

The stomach is your vital center. No man is stronger than his stomach. Every organ of the body is sustained and nourished by food which is converted into nutrition in the stomach and conveyed to every part of the system in the form of blood. For this reason, when the stomach is strengthened with Mi-o-na and is able to convert the food into nourishment, all other organs soon become well. This explains many cures of heart, liver, or kidney diseases in the cases where Mi-o-na is used. It is the most wonderful health restorer known, and is sold by J. H. Hill & Son under an absolute guarantee that it costs nothing unless it restores health. Just one little tablet out of a 50 cent box of Mi-o-na for a few days, and you will soon see a great improvement in your health.
