Painless, Natural Childbirth.

Baby's coming into the world should be preceded by a certain preparation on the part of every woman who expects to become a mother. She owes it as a duty to her unborn babe, and to herself; her duty to her unborn babe is to use every means within her power to aid his entrance into the world. Baby cannot help himself in this ordeal, therefore mother must. He has a hard enough time after his arrival, so let us make his coming easy. His health in after life depends greatly upon the manner of his coming would you have your child a cripple, or would you have him a tower of strength? Strong men are but grown-up children; a famous surgeon in Vienna is devoting his life-work to the cure of little helpless cripples, deformed by birth; do not allow your child to become a cripple.

Mother's Friend Is a liniment which will forestall any possibility of accident at

birth; that is, it relaxes all the abdominal muscles and tissues, and permits of an easy access to the child. It eases the mother's pain, and so assists nature that when baby comes he starts out in life with a constitution well able to light life's battles, and to bloom into strong pure manhood that is the comfort and delight of every true mother's heart.
