Roosevelt has decided to appoint Charles B. Aycock, form r governo of North Carolina, and Van Lee Polk of Penne-see, members of the delegtion from the United States to the Pan-American conference which to it meet in July at Kio Janeira. These appointments are to be made in accordance with the wishes of Southern members of Congress, who, in view of the fact that many of the questions to be considered by the conference are of especial uncrest to the South, bave fest that men identified with inglised tion of the country should be then. bera of the commission.

The official appropriation for the conference was recently increased a as to meet the expenses increent a the apprintment of two auditiona members from the South. Mr. Pola was to the consular ser

vice some years ago. The full commission as now e r sti ated is as iel ows:

With in L. Bienanan, of New Yo. a, chairman; Prot. Leo. S. Rove, of the University of Pennsylvan a Jay es S. Harran, or illinois; Pro-Edward James, or the University of Inmois; Tuno Larribaga, resident commissioner from Porto Rice Charles B. Aycock, of North Car. lina and Van Lee Polk, of Teames-

It is said that Prof. James, because of other engagements, will in an probability, be unable to go to Ri Janeiro. The vacancy to be created by his retirement, it is said, will not be fined. Mr. Pork was consul general at Calcutta, India, during President Cleveland's last administration He is from Columbia and Nasovic.

. The first intimation that Gover Ayeack was being considered for r. pointment came the salternoon, wh Secretary of State Root inform Representative Livingston, of cice gia, that President it oseveit his about decided to select the distriguished North Carotinian for appolutinent. A prominent Tar He at once 'phoned the White Houand Mr. Loeb partially cotfi me the story wata the statement that the President would pr. babiy send Gov ernor Aycock's nomination to th Sena e tomorrow.

The Pau-American Congress which meets July 21 at 1610, is a highly important undertaking that meamuch to the United States and the South American republies. It is t consider commercial, political and diplomatic relations between the various countries. There is an appropriation of \$70,000 for the use of the American commissioners, who wili receive from \$5,000 to \$10,000 in salary and all expenses. It is not expected that the Congres will be in session over two months. Originally only five commissioners were authorized, but Senator Daniels, or Virginia, kicked in the Senate because the West and South had been ignored, and an additional appropriation was made for two more

commissioners. The President has taken occasion to speak of Governor Aycock to both of the North Carolina Senators re-

ton, when Aycock's speech attracted was brought down.

A Solemn Duty. A solemn duty which we owe society, our children and our-

selves is that nothing which can be done to assist nature at that time when our wives are to become mothers should be left undone. Of all the countless details to be observed at such a time, no single one is of more importance than the bodily welfare of the expectant mother; she must not experience undue suffering through any lack of effort on our part.

are seldom free from pains or ailments of some description, because they are not as able to withstand the severity of the climate, with its damp, changing weather, as are their younger, more vigorous companions. Cold weather starts the old aches and pains; they suffer with chilly sensations, cold extremities, poor appetite and digestion, nervousness, sleeplessness and other addictions peculiar to old age. With advancing years the strength and vitality of the system begin to decline. The heart action is weak and irregular, the blood becomes thin and sluggish in its circulation, and often some old blood taint that has lain dormant in the system for years begins to manifest itself. A wart or pimple becomes a troublesome sore or ulcer skin diseases break out, or the slight rheumatic pains felt in younger days now cause sleepless nights and hours of agony. There is no reason why old age should not be healthy and free from disease if the blood is kept pure and the system strong, and this can be done with S. S. S. It is a medicine that is especially adapted to old people, because it is made entirely of roots, herbs and barks, selected for their purifying, healing and building-up properties, and is very

mild and gentle in its action. S. S. S. warms and reinvigorates the sluggish blood so that it moves with more rapidity, and clears it of all impurities and poisons. As this rich, healthy stream circulates through the body every part of the system is built up, the appetite and digestion improve, the heart action increases and he diseases and discomforts of old age pass away.
