VOL. XX.

# WORLD STILL AKIN.

SAN FRANCISCO'S CALAMI-TY EMPHASISES THIS TRUTH.

Other Cities Throughout the Country, Large and Small, Are Giving in Accordance With Their Means.

New York, April 2-The voice less appeal of San Francisco has been heard throughout the civilized world. From every city and too n in this country, from European capitals and from far eastern communities comes news that all nemanity in expressing sympathy, is also offering every material assistance.

From the incomplete figures of the contributions which have been made, it is estimated tonight that the San Francisco fund is apidly nearing the total of \$10,000,000 and will have passed that figure by Monday, when the United States congress, it is announced will add \$1,-000,000 to the \$1,00,000 appropriated from the trasary at Washington.

In the burst of generous contributors, New York city ranks next to the government itself and bids fair to far exceed the federal contribution. Tonight the New York fund amounted to approximately \$2,000, 000 with contributions coming in fast.

The state of Massachusetts has un dertaken to raise \$3,000,000 and with Boston's generous help is well on the way to the goal.

Chicago's fund, spontaneously subscribed, is approaching \$1,000,000 and promises to go beyond that sum. Philadelphia will send \$500,000. These are but a few of the larger sums. A score or more cities are contributing \$100,000 and more. while hundreds of municipalities are sending all their means with allow. From London, Paris, Berlin and wherever Americans are corgreg ed, a generous inflow of gold as re-

## A DAY OF HOPE DAWNS.

The Worst of the Calamity Nov Seems to be Over.

San Francisco, Cal., April 20-5 a Francisco's darkest hour has dawn to into a day of hope. Its time of over whelming disaster and perit has ended and its future is now a -aject of general consideration.

The fire is practically under co trol. A clear sky over the Austidistrict shows that the fire there has been extinguished. The spread of the flames toward the western a dition, the best part of the city re maining, has been stayed, and the only portions of the conflagration that demands the attention of the firemen is that extending from the Nob Hill section down to the northwestern part of the water front. In the western addition danger was averted at 2:50 o'clock this morning by the use of gun cotton, dynamite and two streams of water. The explosives were handled by the chief gunner of the Mare Islan I navy yard, and his accomplishment proved him to be a master of hi profession.

The work of relief was started early today. A big bakery in th saved district started its ovens and arrange1 to bake 50,000 loaves ( bread before night. Thousands of people were in line this morning (e fore the California Street bake y The police and military were ir sent in force, and each person wa allowed only one loaf. The homeless people in the parks

and vacant lots were provided for today as speedily as possible. The destitution and suffering

indescribable.

Some Sections to Have the Thirteen-Year and Some the 17 Year Variety.

Washington, April 23 - The country is this year to have a visit from not only the seventeen-year locusts, but the thirteen-year variety as well. This announcement is made by

the bureau of entomology of the department of agriculture. The seventeen-year variety will begin to appear in the eastern and middle states about the last week of May. All of Pennsylvania except the southwest portion, according to the entomologists, will escape.

The thirteen-year locusts are not so numerous nor so widely distributed as the seventeen-year brood. The circular says they will appear ın Alabama, Georgia, North Carolina and Tennessee.

It is stated that the periodical locust, when it appears in great numbers, naturally causes considersalety of shade trees and orchards.

ROOSEVELT'S LIMITS. righ price for money in Wall street.

The volume of stock exchange transactions in New York is becoming smaller every menth, and prices are lower than they were on January 1. It is not just to say that speculation is creating money stringency. The crouble lies elsewhere-in our unelastic currencs system and in the bsence of some central regulating authority such as European money centers have. And the worst of it is Congress does not propose to give us

currency reform legislation of any sort. The general condition of business is sound, and the high money rates will attract money to New York, and the acuteness of the crisis will no doubt soon berelieved.

Some have said that the stringent money market has some relation to the winter wheat crop report, but there is nothing in the present winter wheat prospect to encourage the bears. A crop of 475,000,000 bushels is now expected. This is estimate, but the April conditions rop on record. An improvement pable. The killed area is not unusat harvest time a big crop will be fice in this country. breshed and marketed.

MOSQUITO EXTERMINA-TION.

The convention point has been reached in the crusade directed against the mosquito. The little insect is more harmful and more dangerous to the human race than the Chronicling of a Week's Events in cobra, than the big animals of Africa, than all else, in fact, in animal life combined, and the American mosquito extermination society has 9 big field to work in.

The convention is preparing a mesquito brief, and when .. is printed it should be place, in the hand of every citizen o an attl creat There's a sort o' anxious longin' in country. The Associated ricess sends some of its statements as rollows:

"There are other 100 species o mosquioes in the United States. "Mosquitoes are known to develop from two to three weeks into winger insects. Some species lay as many as 300 ar 400 eggs at a time. Only

few mosquitoes live a m .ath." "Rigid tests prove that certain species are the only natural means ( transmitting malaria and yenow fever. Other diseases are known to

"Of the domestic variety the dangerous material most intoes ar among the most general , dis ribut ed. They never seem to travel to -only a lew hundred y rus." Mosquitoes are known to bit.

more than once." "Mosquitoes are a necies an langerous pest. Their propagation can be prevented."

Every declaration pres at d by th society is true. Every declaration i as fully proven and established as i the problem that two and two make four. The question before us relates, got to basis truths, but to the manner of enforcement. The country is ris Gold is coming in. The total en- ing to the enforcement point, how

The President's proposition to tax inheritance is by no means new or singular. Both income and inheriance taxes are as old as civilization cself, and today Great P date, Germany, Prussia, Italy, France, Japan Netherlands, Sweden and Norway impose such taxes. If a five-by-fou decision of the supreme court had not knocked it out the income tax o the United States would be in opera tion today. England has, too, gra duated death duties, beginning with a tax of one per cens on small estates and culminating in a tax of eight per cent on estates exceeding a million pounds. In this country ening out crooks, filling in, etc., Massachuesetts, Pennsylvania, Virginia, Louisiana, North and South Carolina levy meome taxes, and

Mr. Roosevelt is a little more frank in his opinion than European of the best men we ever knew, gen countries-that is all. He would grous as far as his means allowed tax large properties so as "to put it and even more, with no malice in 26,000,000 bushels below the highest out of the power of the owner of one his heart, and no nokind word on his of these enormous fortunes to hand tongue, he lived a quiet, industrious point to the second or third largest over more than a certain amount to life, his faith in the Eternal strengthany one individedual." This is, per- ened each day, with no fear of death, in conditions is by no means impro- haps, the most radical proposition but assured of that inheritance, unever put forth by a President, or for defiled and that fadeth not away. taily large, and the chances are that that matter, by any man in high of- The funeral will be held today and

It is too early yet to say how it will be received in this country. gone to his reward. Thus far republican senators and ongressmen are accepting it as freey as democratic members, but all that can be said at present about it is, before the people and it will stay before the people until it is pretty fully sifted and understood. Mr. Roosevelt himself says his object was to a complish just that much, and ne will no doubt succeed in accom lishing what he has undertaken.

# NEWS FROM WALTER.

ARGUS BUREAU WALTER, N. C. April 25, 1906.

That Thriving Neighborhood.

Mr. and Mrs. Ed Gurley and Mr and Mrs. Mac formaday from you ...y, were visitors here last Sunday ter on Mr. Phi C where, of Kinston,

pour Toursday night at Oak Glen, on his return home from a busines trip to Eureka. Mrs. Dr. Crawford who has been

mite sick for several days the past week, is better, and we hope s on to see her fully restored. Rev. J. M. Carraway filled hi

regular appointments at Pine Fores

and Ebenezer last Sunday and breached to large congregations. The neighbors around Walter gave lapt. Lucas and his convict force, a dee diener iast Thursday, in token

if their appreciation for the excellent service they are doing to the cad- in this community. Mrs. Mary Howell, the estimable vife of our neighbor, Mr. Toby Howell, was taken very sick, sud

ienly, last Friday evening, but is

some better, we are goad to say, and

trust she may soon be entirely well The "stand" of corn in this section s unusually good, considering the small amount of rain it has had, and in a few more days "siding" corn will be in order. We have seen no cotton up yet, but have particularly noticed the acreage in corn, and the

fine stand and thrifty appearance. An escaped convict, after being ased all night by the blood houn was captured in Capt. Sassers low grounds last Thursday morning. He had both wine and whiskey, and was so drunk when the dogs bayed him, that he could not travel. He as brought back, but a case of jim jams developing caused him to be

taken to jail, until ready for seruice. The convict camp was moved last Saturday above Ebenezer, and the work of good roads goes steadily on, and with favorable weath they will soon have the road from Ebenezer to your city in fine fix. A regular oulevarde in some places, straightwhich also enhances the value of the adjacent property.

"Uncle" Richard Howell died a nearly twenty states have inheritance his home near Oakland church last Sunday night after a protracted illness of several months. He was one he will be buried in the family burying ground. A truly good man has

## Woman's Club.

Through the columns of this paper the members of the Club wish to it has brought the subject directly keep the public acquainted with the work that is done by these publicspirited women. As to the condition of our town, especially the streets, it is almost needless to cali the attention of anyone who has occasion to walk or ride. Never have the streets been in a more wretched condition, and as we have tried and tried earnestly to have a remedy applied, there seems to be no responsible head governing this matter. We would have things in a better condition, if we could find one among our city authorities, who has charge of the cleanliness of our city.

The third annual meeting of the State Federation of Clubs will meet in Charlotte the first week in May. Goldsboro will be represented by the following women: Miss Sallie Kirby as President of Goldsboro Woman's Club, Mrs. Ida Peterson, as delegate of the Club, Miss Gertrude Weil. who will respond to the address of welcome, and Mrs. Sol Weil, as State Chairman of the Library Committee. It is hoped that these representative women may find some solution for Civic Improvement from the other Clubs of our State.

Meanwhile, it is hoped that the public minded citizens, those who have the interest of our loan at heart, may be able to provide a way to have our streets in condition fit to travel and look upon. The streets

# BAD BLOOD WEAKENS THE SYSTEM AND INVITES DISEASE

Every part of the body is dependent on the blood for nourishment and strength, and when from any cause this vital stream of life becomes impoverished or run-down, it invites disease to enter. No one can be well when the blood is impure; they lack the energy that is natural with health, the complexion becomes pale and sallow, the vital energies are at a low ebb, and they suffer from a general broken-down condition of health. The system is weakened and unable to resist the diseases and disorders that are constantly assailing it. The Liver and Kidneys, failing to receive the proper stimulation and nourishment from the blood, grow inactive and dull, and the waste matters and bodily impurities that should pass off through these channels of nature are left in the system to produce Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases or some other blood disorder. When the blood is in this weakened and diseased condition it should be treated with a remedy that is not only thorough, but gentle in its action. S. S. S., a purely vegetable remedy, made of roots, herbs and barks, is ju what is needed. It not only cleanses the blood of all impurities and poisons, and enriches and strengthens it, but

gently builds up the entire system by its fine tonic effect. S. S. S. reinvigorates every member of the body, gives tone and vigor to the blood, and as it goes to the different parts, carries robust health and strength, S. S. S. acts more PURELY VEGETABLE. promptly and gives better results than any other nedicine. It cures Rhenmatism, Catarrh, Sores and Ulcers, Skin Diseases and all other blood disorders, and cures them permanently. Our Medical Department will be glad to give advice without
