Fine Theatrical Company Coming to The Messenger Opera House Next Week.

The management of the Messenger Opera House have succeeded in closing an engagement with Mr. Chauncey L. Southern and his fine company for three nights next week, beginning on Thursday night, June 21.

The company are playing this week in Wilmington, and the papers of that city give them creditable notices. The Morning Star of today says of them:

"Considering the inclement weather, an exceptionally good audience greeted Mr. Chauncey L. Southern and his company at the Academy last night. The play was 'Camille,' and it goes without saying that this excellent company gave a good performance of the famous play. Mr. Southern as Armand Duval, and Miss Mabelle VanDessell, as 'Camille,' were both good and the acting of the other members of the company was not to be herebefore this week, clever."

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.

Men and Women Unanimous About It.

Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserable of both sexes, to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

**THE MATTER WITH KANSAS.**

In view of a number of incidents which have transpired in that state of late, the old familiar question is being revived, "What's the matter with Kansas?"

Of course there are a great many answers to this question, not including floods, cyclones, wild-cat politics, Mary Ellen Leases, Carrie Nations, and so on. The fact is there are so many things the matter with Kansas it is hard to find time to enumerate them.

One thing, however, which does not seem to have been widely commented on is the fact that Kansas appears to have a great deal of trouble with its United States senators. One senator from Kansas committed suicide, one retired years ago to escape the humiliation of expulsion, one was defeated for re-election by evidence that he purchased votes; one had his election investigated by the senate committee which reported that bribery in his interest was proved, but that it was not clear he was a party to the same or that a sufficient number of votes were purchased to change the result. And, then Burton, the convicted grafter, who is under a prison sentence, and who resigned from the senate just before his fellow senators were ready to expel him.

Kansas does a lot of boasting. It is proud of its churches and schools, and declares that it has more of them per capita than any other state and a smaller percentage of foreign born than most of the other states. In politics, however, Kansas has not established an enviable record, and in the selection of a number of its United States senators it seems to have shown poor judgment. That is one of the things that are the matter with Kansas.

**DO YOU KNOW HOW TO CHOOSE MATTING.**

It isn't merely a matter of looks—you must, unless you are an expert, buy "on honor"—that is, the store honor. There should be solidity and weight to good mattings. We have grades that hug so close and firm to the floor the matting looks as though it had been built with and into the house.

Then you must avoid the dry, hard, brittle, loosely woven matting—it is a friend to dust and germs and a foe to cleanliness and beauty. Call and see our great offerings.
