

U. S. TROOPS KILLS 150 PULAJANES

Column of Constabulary and Regulars Repulses Attack by Natives in Leyte.

Manila, July 25.—Advices received here from the Island of Leyte say that a large band of Pulajanes yesterday attacked a column of constabulary and regulars commanded by Captain George H. McMaster, of the Twenty-fourth infantry. The engagement, which took place near Baneum, resulted in the Pulajanes being repulsed with the loss of fifty men killed and sixty wounded.

The troops and constabulary suffered no losses. The Pulajanes fled, with the column in pursuit of them. Later estimates placed the number of the Pulajanes dead and wounded at 150. The fight took place in thick underwood and lasted thirty minutes. The Pulajanes, who are said to have numbered 500 men, armed with guns and bolts, charged the American column three times.

The latter was composed of city constabulary, commanded by Capt. Neville and twenty-six colored soldiers of the Twenty-fourth infantry commanded by Captain McMaster.

FUNERAL POSTPONED.

Owing to failure to make connection in Richmond this morning, the remains of the late Mr. Moses Edstein will not arrive in the city this afternoon, consequently the funeral, announced for 2 o'clock, is necessarily postponed, and the probability is that it will not be held until Sunday morning. Arrangements, however, will be perfected in time to give due notice in tomorrow afternoon's Auctus.

GOODWIN WINS.

Hottest Conventional Contest in Years.

Just as we go to press a telegram announces that Hannibal L. Godwin, a lawyer of Dunn, has been nominated by congressional convention of the Sixth district, that has been sitting in Fayetteville since yesterday morning, to succeed Representative Patterson.

This has been the hottest conventional contest the State has known in years.

STRIKE AT MILLS.

As Soon as the Italians Leave Hope Mills, the Old Operatives Call Off the Strike and Go Back.

Fayetteville, N. C., July 25.—The strike of operators at Hope Mills was settled this afternoon. The company had imported Italians from the North to learn the cotton mill business and operators at Hope Mills No. 2 walked out yesterday afternoon. The employees of the other three mills struck this morning. The Italians go back North tonight, the company abandoning the experiment and all operatives return to work tomorrow.

Because of a scarcity of labor in some departments, the company conceived the idea of relieving the situation by training these foreigners to fill the vacancies, but the other labor would not stand for it. They did not ask for higher wages or shorter hours, only that this imported labor should go.

HOGS FATTENED AT HOME.

A Pioneer For Wayne County Farmers.

The last excuse for depending upon Packingtown for hogs and hog meat, even if it be free from cholera germs, has been taken away. Intelligent feeders in Texas find that cotton seed meal is excellent food for hogs. Instead of poisoning, it fattens them. Hogs have been made ready for market through the use of cotton seed meal two years, and the meal is coming into general use as a recognized part of the hog ration in that state. What is good for hogs in Texas must be good for hogs in Wayne County.

The excuse for neglecting to produce a sufficiency of meat at home has been the alleged want of corn lands. This pretense is brushed aside when every farmer grows an

abundance of excellent hog food in his cotton patch. Let no one say hereafter in this state that he can not afford to make his own meat. He certainly can afford to do so. He will assuredly be accounted shiftless and unenterprising if he does not, when the food needed by the hogs is ever at hand. The Texas experiments are convincing and satisfactory, and all who can command a supply of cotton seed meal can and should fatten hogs both for home use and for sale in the home markets. Possibly the corn-fed hog can be driven out altogether.

BLAMED ON EMPLOYEES.

Corporation Commission Finds That Disaster Was Due to Disregard of Orders.

Raleigh, N. C., July 27.—The North Carolina corporation commission issued a statement today to the effect that their investigation of the causes of the wreck on the Seaboard Air Line near Rockingham, July 22, in which 22 persons were killed, and 35 injured, developed the collision was caused by failure of agents of the railway company to observe and obey the rules and regulations of the company governing the movement of trains.

The report states that the collision would not have occurred had the block system been in operation on the portion of the road where the collision occurred.

Storm in St. Louis.

St. Louis Mo., July 26.—A terrible wind and rain storm struck St. Louis and vicinity this afternoon. Lightning started seven fires in different parts of the city. A negro, name unknown, was blown from his wagon, and under a passing fire engine and was killed.

Electric wires were blown down, sheds and a few frame houses were demolished.

MILL WASHED AWAY.

Washington, N. C., July 26.—About 2 o'clock yesterday afternoon the old water grist mill at Bunyan, about five miles from this city, situated on the Bath road, was totally destroyed by the heavy rains in that section. The entire plant was washed away and is a total loss. This mill has been located at Bunyan for the past 30 years, and was used to grind meal. It belonged to W. S. D. Eborn, of that town, and valued at \$1,000.

Several of the bridges on the road below Bunyan have also been washed away and citizens in that part of the country report their crops as being seriously damaged. This is the heaviest rainfall that has occurred in this county in years and in many places the roads are completely submerged, rendering them impassable.

Bans Cigarettes.

Atlanta, Ga., July 26.—The lower house of the Georgia Legislature today passed a bill appropriating \$30,000 for a State exhibit at the Jamestown Exposition. The House also passed a bill which prohibits the sale, manufacture or giving away of cigarettes or cigarette papers. Both will now go to the Senate for action.

A Surprise Marriage.

News was received in this city this morning of the marriage in Wilmington yesterday afternoon, at Grace M. E. church parsonage, of Miss Lula Carter, daughter of Mr. and Mrs. W. J. Carter, of this city, to Mr. C. L. Mock, of Spencer.

The news was received in this city, where the bride is universally esteemed and very popular, with much surprise. Miss Carter was on a visit to her cousin, Miss Hallie Davis, in that city, and was joined there by Mr. Mock for the wedding, which was without the knowledge, but not without the consent of her parents.

The happy young couple left immediately on a bridal trip to Asheville and other points. Returning they will make their home at Spencer, where the groom holds a position as engineer with the Southern road. They have the best wishes of many friends here for a long life of happiness and prosperity.

TOPSY-TURVY RUSSIA.

The imperial ukase dissolving the douma is not surprising. The step has probably been taken to nip, if possible, the blossom of revolution in the bud. But the step has been taken too late. The conflict between the masses and the classes in Russia, now fairly started, will go on until absolutism is overthrown. On account of the size of the country and the general lack of education many think the contest will cover at least twenty years, but no intelligent observer doubts the nature of the ending. The people will win a share in the government of their own country and their own affairs. If autocracy be stubborn or cruel, it may be driven out altogether.

It is said that the bureaucrats have brought about the dissolution of parliament, partly because they desire to check the growing tendency in the army to independence, and partly because they desire to bring the ignorant peasants in as voters to swamp the educated liberals when the new parliament is elected next fall or winter. It is to meet March 3, next.

This action is arbitrary. It is the reverse of constitutional rule, and the recent fall in the prices of Russian securities foreshadowed it. A continuance of agitation will follow, and poor old topsy-turvy Russia bids fair to become a hot bed of plots and counterplots, and general unrest. This, however, is better than bloodshed. The hope is that the friends of constitutional government are strong enough to bide their time, and that they will not be driven by the socialists and anarchists into acts that invite slaughter and the whips of the Cossacks. But whatever the course adopted may be, it will lead to liberty and to the downfall of absolutism in backward Russia.

PERMANENT MEADOWS should have an annual dressing of 500 pounds per acre of a fertilizer containing eleven per cent. POTASH and ten per cent. available phosphoric acid.
This will gradually force out sour grasses and mosses from the meadows, and bring good grasses and clovers; thus increasing the quality as well as the quantity of the hay.
Our practical book, "Farmer's Guide," gives valuable facts for every sort of crop-raising. It is one of a number of books on successful fertilization which we send on request, free of any cost or obligation, to any farmer who will write us for them.
