NEWS.—The ends of that noble North Carolina woman, Mrs. Joe Person, who is well and favorably known all over the State, will read with pleasure the following from the *Louisburg Times*: "There was quite a pleasant reunion at the residence of Mr. W. H. Harris, near Franklinton, on Saturday last. It was the celebration of the 66th birthday of Mrs. Joe Person, and it was no doubt a great pleasure to her to have her children and grand children to celebrate it with her. And it was certainly pleasing to the children to have their grand mother, who is still hale and hearty, enjoy her 66th birthday with them. "The bountiful dinner prepared by Mrs. Harris was all that the appetites of those present could wish and the entire day was happily spent."

THE GREENSBORO WAY.

Wil. Star. Greensboro is a pretty hefty town. The citizens of that live North Carolina city have confidence in the city and they seem to have money to back up their confidence. The accumulated evidence also is that the Greensboro people have a big stock of enterprise and "it is a cold day in July" when they are not boring with some sort of a big auger.

A Greensboro dispatch states that on Wednesday "the largest meeting of capitalists ever assembled at any one time on a common purpose in the history of the State," organized the Dixie Fire Insurance Company. It was a meeting of the stockholders of the new company, and of the 5,000 shares subscribed 4,000 shares were represented in the meeting by their owners. That shows the deep interest and enthusiasm in the enterprise, and that is what makes anything go anywhere. The Star would like to see the Greensboro spirit become contagious.

So would the *Argus*.

SUMMER CATARRH.

Hot Weather Seems to Have Bad Effect Upon Some People.

It is generally recognized by physicians that many people suffer more with catarrh during the summer than in the winter. The hot, dry weather and the change from the hot days to cool nights seems to have a bad effect upon the disease.

Even after the usual methods of treating catarrh have been unsuccessful, J. H. Hill & Son guarantee that they will refund the money if Hyomei fails to cure the disease. This seems so fair and reasonable that it should induce all catarrh sufferers to take the treatment.

In many instances Hyomei has cured catarrh when the patient has suffered since childhood. Quite a number of people in Goldsboro who for years have been unable to get a good night's sleep on account of the disagreeable tickling and dropping at the back of the throat, have obtained quick relief from a few treatments of Hyomei and the continued use has made a complete and lasting cure.

There is no stomach dosing when one uses Hyomei. Simply breathe its medicated air through the pocket inhaler that comes in every outfit and all germs will be killed and the mucous membrane will be healed.

The complete outfit costs \$1.00, extra bottles, 50c. Remember that if Hyomei does not cure, J. H. Hill & Son will return your money.

Negro Tries to Kill an Entire Family.

Macon, Ga., July 31.—Joe Morris, a negro, aged about 20 years, today made an attempt to take the lives of the entire George E. Bloodworth family, at their home near Macon.

Morris timed his plan for attack when the family was seated at the supper table. As the meal was being consumed he stole up to the house and placing the barrel of a shotgun in an opening, pulled the trigger. Over sixty shot struck the face of George Bloodworth and nearly as many struck his wife, who was seated at his side. Mrs. Bloodworth had her infant daughter in her arms at the time, but none of the shot struck the baby.

After firing Morris dropped his gun, turned and fled. As quickly as he regained consciousness Bloodworth attended to his wife and spread the alarm. Neighbors organized and are in pursuit.

The tobacco breakers continue to be good in this city, and we have heard only the highest satisfaction expressed by the farmers with the prices realized for their leaf. The *Argus* is gratified to know that the Goldsboro warehouses are determined to hold this market right up to the top of the market of the State. It means as much for the trade of our city, as for the business of the warehousemen. Every citizen of Goldsboro should lend his best encouragement to the tobacco interest of his home town.

Goldsboro's two superb military companies—the pride of the city, and the "crack" companies of the Encampment—arrived home this morning in fine shape, bringing with them the highest encomiums of the regimental officers. Goldsboro's military are not only fine soldiers but are also patriotic, prideful citizens, who, realizing that they come from the Best Town in the State, eminently sustain by their gentlemanly conduct this proud distinction for Goldsboro in the eyes of the State wherever they go, and Goldsboro is proud of them, and welcomes them home again with cordial appreciation.

Royall & Borden at Durham, and was a most excellent and lovable Christian woman.

Everybody in Goldsboro—man, woman and child—should take stock in the Building & Loan Association. It is an investment that pays the investor and builds up the community; instills habits of thrift and frugality; gives men local habitation and civic pride, and these are what foster progress and make cities prosperous and great. Mr. Geo. C. Royall, president of our local Building & Loan, has a very readable article elsewhere in this issue that should be read with care and acted upon when September comes round.

In another column in this issue will be found the statement of the Bank of Wayne as rendered to its Board of Directors, at their meeting yesterday, at which a semi-annual dividend of 5 per cent was declared, payable August 6, and the surplus increased to \$75,000; this in addition to the undivided profits fund, which stands at \$35,886.03; so that the surplus and undivided profits of this superb bank, that is the pride of the county for which it is named and the parent of our city's progress and abiding prosperity, very nearly approach the sum of its capital stock. This is indeed a showing that challenges the highest admiration for its business management, and surely could only be possible in the Best Town in the State.
