ENGLAND SAYS NO ALUM IN FOOD

In England and France the Sale of Alum Baking Powder is prohibited by law because of the injurious effects that follow its use.

The law in the District of Columbia also prohibits Alum in food.

You may live where as yet you have no protection against Alum
The only sure protection against Alum in your Baking Powder is to

Say plainly—

ROYAL BAKING POWDER

ROYAL is made from Absolutely pure Cream of Tartar,—a pure Grape product. Aids digestion—adds to the healthfulness of food.

MILITARY TO JAMESTOWN.

Second and Third Regiments will go to Exposition, First to Morehead Rifle Range and then to Virginia.

At a conference of the officers of the North Carolina National Guard this week it was definitely decided that the Second and Third regiments will be sent to Jamestown, to spend North Carolina Week at the Exposition, August 12th to 19th, inclusive, accompanying the Governor and his staff, and that the First regiment will be sent to the State rifle range at Morehead City for practice five days at the same time, going from there to the Exposition and spending the last three days with the other troops. The details of the movement will be made known for the information of the Guard later.

Governor Swanson, of Virginia, has notified General Oliver, of the War Department, of his intention to put into the camp of instruction at Jamestown the organized military of Virginia, consisting of the First Brigade, commanded by General C. C. Vaughan, a battalion of three companies of the Richmond Light Infantry Blues, and the first battalion of artillery, consisting of three batteries.

DEATH LIST GROWS.

Details of the Mexican Earthquake Received.

Mexico City, April 17.—Details of the destruction wrought by the great earthquake of last Sunday and Monday are reaching this city already. A message from Acapulco today confirmed the story of the total destruction of Ayulita. The jail and hospital collapsed but the prisoners and the patients were taken out safely. Factories throughout the district are in ruins and thousands of workmen will suffer greatly from the loss of their homes and enforced idleness. The postoffice, telegraph office and barracks at Ayulita were destroyed.

Selesians College in Santa Julia, which was supposed to have been earthquake proof, collapsed. The roof above the second floor fell in when seventy students were in the building. Although the structure practically fell to pieces not one of the students was injured. Many of the students were left clinging to the beams. The teachers, with a number of pupils had left the building. After the shock, a search was made of the ruins, and those within the building were taken out. In collapsing, the roof was supported on one side by beams, leaving a space where many of the students found means of escaping death or injury. The death list continues to grow.

Earthquake Anniversary Observed.

San Francisco, Cal., April 18.—One year ago today occurred the terrible earthquake and subsequent fire which cost 452 lives and reduced the fairest portion of San Francisco to an unsightly heap of ruins. There were many reminders today of the anniversary. Flags at half mast were displayed on many buildings and the graves of the victims in the local cemeteries were decorated. In all the churches exercises were held in memory of the victims of the calamity and in thanksgiving for the marvelous recovery of the city within twelve months' time. The day was likewise observed in Oakland, Berkeley, San Jose and numerous other places.

MR. LOTTE W. HUMPHREY.

The Charlotte Observer has the following to say of a native Goldsboro boy, who for several years has been a resident and member of the Bar of that city:

"Mr. Lotte W. Humphrey, of this city, and Miss Elta Russell Smith, of Stockton, Cal., will be married on Thursday of next week, at the home of the parents of the bride-elect. After a long honeymoon in the West, Mr. and Mrs. Humphrey will return here to reside. Miss Smith visited here last summer at the home of her kinsman, Mr. J. A. Bell. She is a young lady of much beauty and charm and made many friends here. Mr. Humphrey is a well-known member of the Charlotte bar, being prominent in legal and in social circles."

LET'S GO FORWARD.

A Greater High School For Goldsboro a Pressing Necessity.

It is well known by those who are acquainted with our school conditions that the High School Department has out-grown its present accommodations. Already it is necessary to use two recitation rooms extra for four grades of students, and one class is dismissed early in the day in order to afford class rooms for other studies. The 7th, 8th, 9th and 10th grades three years ago contained 126 students and were taught by three teachers; today these four grades have 238 students and six teachers. The number in these same grades next year will approximate 260 students. This increase will make it necessary to provide more room and another teacher under our present arrangements.

If, however, we can adopt a plan to erect a high school building whereby an assembly hall can be used for seating the students while they are not in recitation, the 260 students can be taught by our present corps of teachers under better advantages than the 238 students are now taught, and the amount saved annually in this way will be more than the interest on the money necessary to erect a new building.

The enrollment at present is 1024. This is too many students on one lot. In case of an epidemic of any kind all the schools must be closed. This would be avoided if another building were erected in another part of the city.

The grounds are so crowded at recess times that the smaller students are always in danger of being hurt by the crowd. To move the high school would make it more dignified, and a strong incentive to the grammar school students to work up to it. Under our present arrangements we have no assembly hall, one of the greatest needs of the school. The students cannot be brought together for any kind of entertainment, and it is impossible for us to have lectures of any kind at the school, for there is no place in which to assemble as many as two grades.

The last legislature made it possible for us to establish a County High School in Goldsboro, and open the high school free to all students and teachers of the county who desire to attend. Under our present arrangements it is impossible for us to accommodate even the children of Goldsboro. If the County High School be established it is possible for us to secure an appropriation of \$500 from the County and \$500 from the State for its support. Goldsboro should be able to train all the teachers of the county. No student of the county who desires to come to Goldsboro should be denied the advantage, for the greater service a town can be to the surrounding country the greater will be the faith of the country in that town and the stronger that town will become.

Raleigh, Durham, Greensboro, Winston, Asheville, Charlotte and Wilmington—all have their high school buildings. It is possible for Goldsboro to erect a high school building without issuing bonds. It is now being considered.

"TOMORROW'S DATE IN HISTORY."

April 21.

1799 John Young Mason, Virginia statesman and diplomat, born. Died Oct. 3, 1859.

1815 Beriah Magoffin, Governor of Kentucky during the Civil War, born. Died 1885.

1817 George Henry Lewes, philosopher, born. Died Nov. 30, 1878.

1853 William R. King of Alabama, Vice-President of United States, died.

1871 Omar Pasha, Turkish soldier, by birth an Austrian, died.

1874 Mad Lucas, the Hertfordshire hermit, immortalized by Dickens, found dead.

1888 Cornelius Rea Agnew, eminent medical specialist, died. Born Aug. 8, 1830.

1890 Frist Pan-American Conference closed at Washington.

1898 Gen. Joaquin Crespo, ex-president of Venezuela, killed in battle.

1899 Resolutions introduced in Massachusetts legislature revoking the order banishing Roger Williams in 1635.

1906 Large part of San Francisco destroyed by earthquake and fire.

Orino Laxative Fruit syrup is a new remedy, an improvement on the laxatives of former years, as it does not gripe or nauseate and is pleasant to take. It is guaranteed. Palace Drug Store.

BLACK, ITCHING SPOTS ON FACE

Physicians Called It Eczema in Worst Form—Treated Disease for a Year but Could Not Cure It—Patient Became Despondent—Suffering Promptly Allayed and

DREADFUL DISEASE CURED BY CUTICURA

"About four years ago I was afflicted with black blotches all over my face and a few covering my body, which produced a severe itching irritation, and which caused me a great deal of annoyance and suffering, to such an extent that I was forced to call in two of the leading physicians of the city. After a thorough examination of the dreaded complaint they announced it to be skin eczema in its worst form. They treated me for the same for the length of one year, but the treatment did me no good. Finally I became despondent and decided to discontinue their services. Shortly afterwards, my husband in reading a copy of a weekly New York paper saw an advertisement of the Cuticura Remedies. He purchased the entire outfit, and after using the contents of the first bottle of Cuticura Resolvent in connection with the Cuticura Soap and Ointment, the breaking out entirely stopped. I continued the use of the Cuticura Remedies for six months, and after that every spotch was entirely gone and the affected parts were left as clear as ever. I have not felt a symptom of the eczema since, which was three years ago. The Cuticura Remedies not only cured me of that dreadful disease, eczema, but of other complicated troubles as well, and I have been the means of others being cured of the same disease by the Cuticura Remedies, and I don't hesitate in saying that Cuticura Resolvent is the best blood medicine that the world has ever known. Mrs. Lizzie E. Sledge, 540 Jones Ave., Selma, Ala., Oct. 23, 1905."

SKIN HUMORS

Eczemas, Rashes, Itchings, Irritations Cured by Cuticura

INTERNATIONAL LAW.

Prominent Men Meet in Washington for the Purpose of Organizing an International Law Society.

Union Press Association to the Argus.

Washington, D. C., April 19.—That it is of great importance that the public should be educated to a correct understanding of those principles of international law and practice which the United States is called upon to observe in its relations with other nations is the belief of a number of prominent men who gathered in this city today to complete the organization of a society which will work to this end. The promoters of the movement believe that an understanding of international law is more essential to the people of the United States than in other countries because of the influence public sentiment exercises upon the administrative and diplomatic policy of this Government.

The formation of such a society was first proposed two years ago by Prof. James B. Scott of Columbia University, now solicitor of the Department of State. The project was later endorsed by the Lake Mohonk arbitration conference. Preliminary plans for the organization were drawn up last December at a dinner given by Oscar S. Straus, now Secretary of Commerce and Labor. Temporary organization was effected with Elihu Root as president and with Chief Justice Fuller, Andrew Carnegie, Secretary Taft, Joseph H. Choate, ex-Secretary Olney, Judge Morrow of California and a number of other men of national prominence on the list of vice-presidents.

It is now the purpose to effect a permanent organization and to take up the actual work in view.

EARTHQUAKE FELT

IN CHARLESTON.

That City and Summerville Jarred Early Yesterday Morning.

Charleston, S. C., April 19.—A slight earthquake shock was felt in Charleston and Summerville at 3:25 o'clock this morning. In the latter place it was said that dishes rattled and ornaments were knocked from the mantel. In Charleston only a very few people, knew of the shake until after breakfast.

From various points in the city people reported having been awakened by a rumble followed by three slight wave movements, not sufficient to disturb plaster or chimneys.

NEARLY ALL FOUND.

Mail Clerk Confesses Theft of \$10,000.

Edward A. Nelson Arrested and Admitted to Bail—He was recently Married and Wanted to Get out of the Railroad Business.

Wilmington, N. C., April 18.—The mystery concerning the disappearance of a packet containing \$10,000 in currency, in transit by mail from the Atlantic National Bank, of this city, to the Chemical National Bank of New York, was cleared up today by the arrest at the instance of postoffice inspectors of Edward A. Nelson, 27 years of age, employed in the railway mail service. Nelson, whose home is in this city, made a confession. His run was between Wilmington and Rocky Mount. Most of the money was found under Nelson's house, where he had buried it. He was recently married and was preparing to leave the postal service and engage in business here. Altogether, \$9,400 was recovered.

The theft was committed by slitting the canvas in the fold of the pouch near the top while Nelson was transferring the mail at Wilmington, two weeks ago.

Nelson was admitted to bail by United States Commissioner S. P. Collier, before whom the papers were returned, in the sum of \$5,000 for preliminary hearing, May 10. His arrest was accomplished by Chief Inspector S. T. Hooton, and Inspector William J. Maxwell, of Baltimore, with District Inspector S. H. Buck.

ADJUTANT DANIEL G. FOWLE.

Appointed for Second Regiment Succeeding J. Van B. Metts Promoted.

Adjutant General T. R. Robertson has appointed, as recommended by Col. H. C. Bragaw, commander of the Second North Carolina Infantry, Mr. Daniel G. Fowle, of Washington, N. C., Adjutant of the Second North Carolina Infantry, to succeed Lieut. Col. J. Van B. Metts, who was recently elected to his present office. Mr. Fowle formerly lived in Raleigh and is a son of the late Governor Daniel G. Fowle.

DAVIS STATUE.

Thousands of Children Pull It In Richmond Streets.

Richmond, Va., April 18.—The bronze statue of Jefferson Davis for the elaborate monument to Mr. Davis to be unveiled here June 3, was drawn through the streets of the city to the monument site to-day by some 2,500 or 3,000 children, who did the hauling by means of a double rope two or three squares long. The children were led by Lee and Pickett Camps of Confederate Veterans, and these in turn were headed by a handsomely uniformed boy and drum corps.

Many of the girls among the children were dressed in white and a large proportion of the outfit, enthusiastic in the "Lost Cause," carried small Confederate battle flags which they waved industriously throughout the march. The scene was a very pretty and inspiring one, and was witnessed by thousands of people. The rope used in hauling the statue, after the ceremony, was cut into many thousands of pieces for souvenirs of the occasion.

"THIS DAY IN HISTORY."

April 20.

1676 John Clarke, one of the founders of Rhode Island, died. Born Oct. 8, 1609.

1760 John Lewis Petit, renowned French surgeon, died in Paris.
