

LOCAL BRIEFS.

Items of Interest in and Around the City.

Fodder pulling is in order, and with it comes scuppernong grapes and chinquepins.

Mrs. Flora Kendall, who has been spending a portion of her vacation at Wrightsville and Wilmington, has returned to the city.

Messrs. Herman Smith, B. F. Middleton and Frank Clark are at home again from an extended pleasure trip to Jamestown, Washington and Atlantic City.

It is now being talked to have another game of ball next week between the married men and single men. The fever is taking. Glad it did not break out sooner.

Mrs. W. E. Stroud and Miss Annie Denmark, of this city, Mrs. J. W. Stroud, of Florence, and Mrs. Will Williams, of Durham, left today for Jamestown.

Misses Estelle and Daisy Edwards, accompanying Mr. and Mrs. Isaac Cohn, of Newbern, left today at noon for Ocean View and Jamestown, where they will spend ten days.

Mr. W. J. Hicks has resigned his position with the Palace Drug Store with a view of spending another year at the State University. He is succeeded by Mr. Marian S. Whitted, of Chadbourn.

Mr. and Mrs. Geo. C. Southerland, accompanied by Dr. Jno. Spicer, left last night for Baltimore, where Mr. Southerland goes for a surgical operation, which his hosts of friends hope may be entirely successful.

The selection of a librarian for Goldsboro's public library, which is now a permanent city institution, will not be made for several weeks, owing to the absence of Mrs. Sol Weil, of the Board of Governors, who is on a trip to the White Mountains.

Mr. A. T. Uzzell got ahead of Mr. J. M. Wood this year and was the first to send in a treat to the young ladies of the telephone exchange. He "set 'em up" to some of the finest water melons seen here this year, raised on his fine farm in New Hope.

Major Larry Bass could not get out to the base ball game yesterday, on account of the rather threatening weather, and it is the first game he has missed in forty years. But he hopes to be on hand next week when the married men and the single men cross bats.

Mr. and Mrs. D. H. Dixon left this morning for Franklin, Va., to attend the marriage of Mrs. Dixon's brother, Dr. J. E. Patrick, to Miss Virginia Moore. Mr. and Mrs. Dixon will accompany the couple on their bridal trip to Northern cities of interest.

The death of John Reeves, white, formerly a cart driver of this city, occurred Saturday evening at his home near Rose's, of paralysis. He leaves a wife and five children. The remains were brought to this city Sunday afternoon and interred under the auspices of the Junior Order, of which he was a member.

Ex-Judge A. C. Avery, of counsel for the Southern Railway, is in the city today, conferring with opposing counsel and making up their case on appeal before Judge Long to the Supreme Court from His Honor's recently imposed fine on the Southern in Wake county court.

The children of the Odd Fellows Home here and the entire contingent of Home officials are on an outing to Wilmington and the beach this week, leaving here on a special coach yesterday, and are the guests while away of the Wilmington Odd Fellows and Daughters of Rebekah.

Dr. W. E. Powell, of this city, who is a good farmer as well as a popular physician, is still keeping up his reputation, that he made when a boy on the farm, for knowing how to make things grow. The ARGUS is always remembered when Dr. Powell's water melons are at their finest—and they are the finest. Thanks.

The Grand Jury have returned a true bill against Everett M. Talton for murder in the first degree, and his trial has been set for Friday morning of this week at 9:30 o'clock, and a special venire of fifty has been ordered. Talton is the white man who some months ago deliberately shot to death Major Jones, another white man, in this city.

Miss Pearl Creech, who has had the widest experience as a milliner, and has studied in the leading fashion centres of the North for a number of years, and who is well known to and popular with the trade of this city and section, has rented the store on West Centre street so long occupied by Mr. R. A. Watts the jeweler, and will open a complete millinery emporium there, for which she is now off to the Northern centres of trade selecting and purchasing a reasonable stock.

Judge B. F. Long, who is presiding at our present term of court, is a judge who knows the frailties of human nature, and who in admirable degree has the faculty of discerning and discriminating between traitly and culpable criminality, and so he refreshingly "tempers justice with mercy"—an attribute that doth indeed befit and become a judge.

Col. W. B. Fort, of Pikeville, was in the city Monday, having with him as his guest, Mr. Benj. Herring, of Tallahassee, Fla., who was the engineer of the Merrimac in its famous engagement with the Monitor, off Hampton Roads. Mr. Herring is on his way to the Jamestown Exposition, and stopped over to see his old companion of Confederate Navy service.

The drawing of plans for Goldsboro's new High School, that is to occupy the eminence on East Walnut street recently purchased for that purpose from Mr. A. U. Kornegay, embracing an entire square, has been awarded to a Raleigh firm of architects, and one of them was down here last week viewing the lay of the ground before beginning the design of the buildings.

The County Board of Education, at its special meeting here today, without an opposing vote, located the County High School for the northern section of the county at Pikeville, which progressive little town not only gives, through its citizens, four acres of ground and \$1,000 free to the school, but pledges to vote out the dispensary and vote in the school under a special tax. Good for Pikeville.

The grand jury today brought in two true bills for capital offences against prisoners now in our county jail. One of these was for murder in the first degree against Tobe Wilson, colored, for the murder of an old colored woman, Sarah Cooper, for complicity in which crime another colored youth is now serving 30 years in the penitentiary. The other was a true bill for burglary against the negro Jonas Fillmore, whose capture we noted in these columns some days ago.

Hon. W. S. O'B. Robinson will address the citizens of the White Hall section, in that town, on Saturday afternoon of this week, at 3:30 o'clock, in behalf of the special school tax that district is to vote on next month. Judge Robinson as a boy lived at White Hall, and cherishes the associations of his childhood years there in pleasing remembrance, and has ever taken a lively interest in the welfare of the people of that section. That he will make them a good speech, therefore, on next Saturday, goes without saying.

The attendance at court thus far this week has been unusually large—especially of colored people, who sit idly all the day long and aimlessly watch the court proceedings. Like the English sparrow, the African, who was a forced immigrant to this country, docks to the towns and cities. Eschewing the country and honest, healthful toil in the fields the sequestered cabin and the "ole banjo" when the day's work was done, the descendants of the ante-bellum negro is becoming very much like the English sparrow—a city scavenger and a pestilence.

The game of ball yesterday between the leans and the fats, under the auspices of the Eclipse Fire Company, was an eminent success, and was sustained with commendable zest from start to finish by the players on both sides—but especially by the fats, who, notwithstanding the warm weather and the unusual exercise, stuck to the game to the close, and crowded the leans so closely that the score stood 10 to 11 in favor of the leans. It was a fine game throughout, and was thoroughly enjoyed by the large crowd in attendance. Features of the game were the excellent pitching and superb catching of Leslie Yelverton and Walter Fox, respectively, the field work of "Bob" Pipkin and Frank Edmundson and the base running of John Dortch.

The speech of Hon. W. W. Kitchin today, at the recess hour, in the court house, was heard by a large and representative audience of Wayne county citizens and listened to throughout its nearly two hours duration with unabated interest and real enjoyment. Mr. Kitchin is not only a pleasing speaker, entertaining, instructive, persuasive and convincing, but he is a charming personality and made many new friends among those who had not known him before, while he had many old friends and staunch advocates in our county before his coming here today. His speech today has strengthened the Democratic party's positions and tenets as to trusts combines and monopolies and made clear the justice of those positions and tenets, which seemed to be his primary desire, while his purpose, of course, in coming to speak to the people just now is to get more intimately acquainted with them and give them time to think about him, ruminatingly as it were, for Governor.

W. H. BROWN & BRO'S POCAHONTAS PERFUME - The Latest Creation. - For Sale by - M. E. Robinson & Rro., Goldsboro, N. C.

GOVERNOR GLENN TALKS.

He Gives Out An Interview To-Day From New York.

Says He Would Have Called Out State Troops To Enforce Law Had The Rail Roads Persisted In Refusal To Conform To New Rate.

Special to THE ARGUS.

New York, Aug. 19.—In a special interview this morning Governor Glenn, who is here in connection with the railroad hearing before special master Montgomery, is reported as saying: "I believe the railway rate controversy in a fair way of settlement in a manner entirely satisfactory to the people of North Carolina."

He stated emphatically that he favored a reduction in rate even lower than 2-1-cents especially if the roads continued to resist the operation of the law.

He stated that he has no patience with the cry that the position North Carolina and some other Southern States are taking in reducing rates will drive capital seeking investment away.

He claims that he is known as the "Industrial Governor," and would do all he could to protect the railroads' corporate interests from unfairness.

"But the railways are against a square deal," said Gov. Glenn "and the proposition is, if a road is making over ten per cent, it can stand the reduction."

Gov. Glenn said, "at one time matters were in a critical state, for I certainly would have backed Judge Long up by calling out the State troops had Judge Pritchard got our prisoner, Green, from us at Raleigh. But of course," added the Governor, "we would have had to throw up our hands in the long run, had the President sent troops to uphold the Federal judge's position."

The rate hearing was resumed this morning before Special Master Montgomery.

GALVESTON'S EXAMPLE

Galveston seems to take delight in new methods. It invented the commission plan of governing cities, and it proceeded to put in successful practice its new theory. So well does the plan fit American municipalities it is spreading. If the supreme court of Tennessee had not legislated otherwise Memphis would today be at peace under a commission of the Galveston sort.

But Galveston does not rest content on one victory. It has become an immigration port, and the government is building there an immigration station. Recently a shipload of Russian Jewish immigrants were landed there, and Mayor Landis went down to the landing and greeted the newcomers with a speech of welcome. This speech was duly translated to the homeseekers, and their leader said in reply:

"We are overwhelmed that the ruler of the city should greet us. We have never been spoken to by the officials of our own country except in terms of harshness, and, although we have heard of the great land of freedom, it is very hard to realize that we are permitted to grasp the hand of the great man. We will do all we can to make good citizens."

A Russian Jew who knows nothing of government except persecution could not well escape astonishment when he is met by an address of welcome delivered by the chief official in the city where he lands. This act of Mayor Landis will have an effect in the depths of Darkest Russia, for letters will carry reports of it there, and in that way more immigrants will be drawn southward. Mayor Landis has set a good example to other southern cities to which immigrants are beginning to come.

If the government keeps on bringing rebate suits against Standard Oil it may be glad enough to compromise on thirty millions.

100 Doses \$1

True only of Hood's Sarsaparilla, the one great blood purifier and general tonic. This remarkable medicine has effected many radical and permanent cures that are the wonder of the world. It eradicates all humors from pimples to scrofula.

In usual liquid form or in chocolate tablets known as Sarsatabs. 100 doses \$1.

DR. H. O. HYATT will be in Goldsboro at the Hotel Hennon Monday, Sept. 2nd, for the purpose of treating diseases of the Eye, Ear, Nose and Throat.

DR. JOEL WHITAKER, Practice limited to diseases of EYE, EAR, NOSE AND THROAT. at Dr. J. N. Johnson's Office Saturday's 12 M. until 4 P. M.

COUNTY BOARD OF EDUCATION.

High School For Northern End of County Located at Pikeville.

Goldsboro, N. C. Aug. 19, 1907.

The Board of Education met today in special session, all the members being present, Col. Jos. E. Robinson and Messrs W. F. English and Barnes Aycock.

The special business before the Board was the location of the high school for the northern end of the County.

There were three districts asking for this high school, Eureka, Fremont and Pikeville. The claims of Eureka and Fremont for the high school had been heard by the Board at former meetings.

Pikeville placed her petition for the high school before the Board today based on the following facts and claims:

- 1. A petition for a special tax election signed by practically all the voters of the district.
2. A pledge to close the dispensary as soon as it can be closed legally.
3. A petition unanimously signed by citizens of adjoining districts.
4. A four acre school site free, the gift of Col. W. B. Fort, valued at \$600.
5. Donation by the town of Pikeville in cash - \$500
6. By the citizens of Pikeville and vicinity - \$500
7. The present school house \$300
Total - \$1,900

The claims of Pikeville for the high school were ably presented by Messrs. N. B. Berger and Edmund Ham.

Mr. W. F. English offered the following resolution which was adopted by vote of the Board.

"Resolved, that whenever the citizens of Pikeville and vicinity shall have paid over to the Board of Education, of Wayne county, the sum of one thousand dollars, and shall have disposed of the present school property for not less than three hundred dollars, and shall have made the Board of Education a deed for not less than four acres of land for a suitable school site for school building to be used for school purposes, then the Board of Education will locate in the town of Pikeville, a high school in accordance with an act passed by the last legislature, authorizing the same: Provided, that the people vote a special tax for the school: Provided further, that the school site offered shall be inspected by the County Superintendent of schools, and approved by him."

A petition asking for a special school tax election for Pikeville school, District No 1, white, Pikeville township was before the Board. Said petition being in due form and in accordance with the law, was approved.

The citizens of Eureka district, preferring to raise \$1,000 themselves for building purposes, withdrew their application to state for a loan, and it was decided that the people of Eureka contribute \$1,000 and the county \$1,000 for building purposes for said district. The Board also donates to the Eureka building the sum of \$400. The chairman and the county superintendent of schools were appointed to confer with the county treasurer and the Board of County Commissioners for the purpose of adjusting accounts.

The high school for the southern end of the county will be located at the regular meeting of the Board the 1st Monday in October.

The following orders have been paid since the meeting, August 5th, including those paid today:

- CHARGED TO GENERAL FUND.
Census orders, \$10.09, Miss Nathalie Outlaw, typewriting, \$1; National Bank, interest, \$30; Miss Nathalie Outlaw, typewriting, \$1.50; Rev. J. F. Hill, per diem, \$4; E. Edwards, Woodland election, \$2; W. F. Moore, Woodland election, \$6.57; G. W. Price, Woodland election, \$1; Jos. E. Robinson, per diem, \$2; W. F. English, per diem and mileage, \$3.50; Barnes Aycock, per diem and mileage, \$3.50; W. H. Smith, per diem, (committee man) \$4; W. G. Britt, registration fee, \$1.

The Board will meet again the first Monday in October.

E. T. ATKINSON, Secretary.

SEALED BIDS.

Wilmington, N. C., Aug. 16.—Sealed proposals will be received at the office of E. B. Pleasants, Chief Engineer Atlantic Coast Line R. R., Wilmington, N. C., until 12 o'clock, (noon) Aug. 28, 1907, for the erection of a Union Station, at Goldsboro, N. C., for the Goldsboro Union Station Co.

Plans and specifications can be seen in the Superintendent's office at Richmond and Norfolk, Va., Assistant Engineer's office at Goldsboro, and at the office of Chief Engineer Atlantic Coast Line, Wilmington, N. C.

All bids must be sent to E. B. Pleasants, Chief Engineer, Atlantic Coast Line, Wilmington, N. C.

The Company reserves the right to reject any or all bids. GOLDSBORO UNION STATION CO.

MALARIA A SYSTEMIC BLOOD POISON UNDERMINES THE HEALTH-LAYS THE FOUNDATION FOR DISEASE

Malaria comes from the absorption into the blood of germs and microbes which destroy the rich, nutritive qualities of the circulation and reduce it to a weak, watery, disease-spreading stream. The healthy color of the skin is given to it by the millions of little red corpuscles which are in the blood. These are the carriers of nourishment and health to all parts of the body; in other words the very life and vitalizing essence of the circulation. The destruction of these corpuscles by the malarial poison takes the color from the cheek, and in the first stages of Malaria we have pale, sallow faces, poor appetite, a bilious condition is set up, and we feel "out of sorts" generally. But Malaria means more than this; it is a systemic blood poison, which undermines the health and gives rise to innumerable and sometimes serious disorders and diseases if the poison is allowed to remain in the blood. As the blood becomes more and more polluted with the malarial poison, the digestion becomes deranged, chills and fever are frequent, skin diseases, boils and carbuncles, and sores and ulcers break out on the flesh, and after awhile the foundation is laid for other diseases which either prove fatal or permanently undermine and wreck the health. Malaria can only be worked out of the system through the blood. Purging the liver and bowels with strong, nauseating cathartics can never remove the trouble because they do not reach the blood where the germs are constantly multiplying. The only hope for a cure is a remedy that can destroy the germs and microbes, and neutralize the bad effects of the poison, and S. S. S. is the medicine to accomplish this, because it is a perfect blood purifier and a general systemic remedy of unequalled value. S. S. S. searches out and removes every trace of the malarial poison and puts the blood in such rich, healthy condition that sallow, anaemic complexions take on the ruddy glow of health, the liver and digestion are righted, the appetite improved, the system vitalized and strengthened, and every symptom of Malaria passes away. Malarial persons will find S. S. S. not only a prompt remedy but a gentle, pleasant acting one, as well as a certain cure for this disease. Besides removing the cause of Malaria S. S. S. builds up every part of the system by its fine tonic effects. Persons living in a malarial section should, at this season, fortify their systems against this insidious disease by purifying their blood with a course of S. S. S. Book on the blood and any medical advice desired sent free of charge.
