## DREYFUS WOUNDED.

### Open Attempt Made Today to Assassinate Him in Paris.

#### The City in an Uproar of Factional Excitement: Already Eighty Arrests Have Been Made.

(Special to the ARGUS.)

Paris, June 4.—All Paris is once more divided into two great Dreyfus and anti-Dreyfus factions today and the city is in an uproar as the result of the shooting of Captain Alfred Dreyfus, in the midst of the ceremonies around the Pantheon, in honor of the transferring of the body of Emile Zola from Montmartre cemetery.

Capt. Dreyfus, whom Zola was the first to defend, was one of a distinguished party, headed by President Armand Fallieres, immediately after the casket, which rested on a catafalque in the Pantheon.

As the party moved toward the Colonnade entries to the Pantheon from the interior, a man, who subsequently proved to be Mr. Gregory, military editor of the Galois, a violently anti-Dreyfus newspaper, rushed from the midst of the surrounding crowd in the portico and drawing a revolver fired two shots at Capt. Dreyfus, wounding him in the right arm.

Great excitement and pandemonium immediately followed, and is still prevailing among the Dreyfus and anti-Dreyfus factions.

Eighty arrests have already been made.

## CASE GOES TO JURY.

### Little Doubt But That the Prisoners on Trial in Federal Court at Raleigh Robbed the Dunn Postoffice.

(Special to the ARGUS.)

Raleigh, June 4.—Postoffice Inspector Gregory this afternoon closed the testimony of the government in the case against the five alleged robbers of the postoffice at Dunn. Attorneys are now making argument. The government proved conclusively that these men were at Dunn on the night of the robbery, and there is little doubt but that the jury will find the prisoners guilty.

James C. Wilson, of Pelzer, S. C., father of Ed. Wilson, alias Charlie Williams, testified today that John F. McCarthy, a policeman of Boston, expert witness in this case, detailing to the Court the use of nitroglycerine and dynamite, is a reformed safe cracker. McCarthy escaped from the North Carolina penitentiary four years ago, where he was serving 15 years for robbing a store at Littleton. On learning he had reformed Gov. Glenn refused to have him rearrested yesterday.

## A Hair Dressing

Nearly every one likes a fine hair dressing. Something to make the hair more manageable; to keep it from being too rough, or from splitting at the ends. Something, too, that will feed the hair at the same time, a regular hair-food. Well-fed hair will be strong, and will remain where it belongs—on the head, not on the comb!

## POLITICS AND POLITICIANS.

### Ambitions and Prospects of Men Strutting and Fretting Their Hour on the Stage.

(Special to the ARGUS.)

Washington, June 4.

It is said that John A. Aylward, of Madison, who was the Democratic candidate for governor of Wisconsin two years ago, may try for the nomination again.

Don S. Dickerson, who succeeds the late Governor Sparks as governor of Nevada, is 34 years old and the youngest governor Nevada has ever had.

Sumner W. Haynes, Prohibitionist candidate for governor of Indiana, was a quarter century ago, a candidate for attorney-general on the Prohibition ticket.

Former United States Senator William E. Mason, of Illinois, is working overtime in the interest of his candidacy for nomination for his old seat again.

Denver expects more than 100,000 visitors during the National Democratic convention next month. The reservations from New York State alone number 1,100.

The prohibition forces did not gain much in the recent Denver city election, but scored heavily a week later in the State election in North Carolina.

The Marion Club of Indianapolis, 500 strong and accompanied by a band of 100 pieces, plans to attend the Chicago convention in the interest of the Fairbanks candidacy.

Presidential aspirants should beware. The coming Republican National convention in Chicago will be the thirteenth since the organization of that party.

E. C. Wall of Milwaukee, who aspired to the Presidential nomination four years ago, is now being talked of in connection with the Democratic nomination for governor of Wisconsin.

One of the surprises offered by the recent Republican State convention in Idaho was its failure to include Senators Heyburn and Borah and Governor Gooding among the delegates selected to attend the National convention.

It is reported that Thomas F. Ryan, the millionaire capitalist of New York and Virginia, will lend his aid to the efforts of Senator John W. Daniel to prevent the Virginia delegation to the Denver convention from being instructed for Bryan.

Lieutenant-Governor John C. McKinley, of Missouri, is mentioned as a possible candidate for the Republican nomination for United States senator. He is expected to make his formal announcement within the next few weeks.

John Sharp Williams, leader of the minority in the house, and recently elected United States senator from Mississippi, will be heard this summer on the lecture platform in California, Wisconsin, Texas and several other States.

William P. Myers, one of the five living delegates to the first National convention of the Republican party at Philadelphia in 1856, has arranged to attend the coming National convention in Chicago. He will attend in response to a special invitation sent him by Chairman New of the National committee. Mr. Myers is 87 years old and has lived all his life in Mercer county, Illinois.

## AGAIN IN COURT.

### More Trouble Ahead of the Standard Oil Combine.

Chicago, June 3.—U. S. District attorney Simms, it is announced today, is preparing to bring the Standard Oil Company to trial on thirty-four hundred counts for rebating, and if convicted, the aggregate fines will be \$68,000,000, instead of \$29,000,000, the big fine imposed by Judge Landis on 1462 counts.

It is believed that Attorney General Bonapart will choose Judge Landis to preside, because he is known to deal severely with trusts, and because in the last trial he gained intimate knowledge of the oil situation and the methods employed by the Standard.

## INFANTRY AT THE FORT

### Work of the Soldier Boys Is Now in Full Swing.

#### Sea Coast Defense Manoeuvres Were Inaugurated by National Guard Yesterday Morning.

Wilmington Star.

Reports from Fort Caswell yesterday were to the effect that the fourteen companies of the North Carolina National Guard, composing the provisional regiment under command of Lieutenant-Colonel John Van B. Metts, were comfortably encamped on the reservation and were becoming acquainted with real army life in admirable style.

During these exercises each company was divided into three squads, one in charge of the firing, one in charge of ammunition and the other being what is known as the observation squad. The work with the guns is said to have been very creditable for novices, and the training they are receiving will be invaluable to them. These manueuvres with the artillery will probably be continued through today, and then the small arms practice and out-post and advance and rear guard duty of the infantry will be commenced.

Special trips are being made to the Fort by the steamer Wilmington and other craft, and in this way the men are enabled to keep in touch with the "folks at home," and write that the experience they are having is great, if arduous. The citizen soldiers have received a very cordial welcome from the officers and men of the post, and are looking forward to the remaining days of the manueuvres with much pleasure.

The preliminaries of organizing the infantry for the sea coast defenses was gone through with under very favorable conditions and the regular army officers in charge are quoted as being well pleased with the experiment thus far, and are looking forward to a week of hard but pleasant service with the citizen soldiers. The exercises yesterday morning consisted largely of work in the batteries with the heavy artillery. Each section of the batteries was placed in charge of one company and the men were given instruction in the use of the big guns and of the co-operative work that would be required of them in actual warfare.

## MATTERS OF STATE.

### Gov. Glenn off for Washington Again: Will return Monday.

Raleigh, June 2.—Governor Glenn left this afternoon for Washington, D. C., where he will see President W. W. Finley, of the Southern Railway, in regard to the mileage book tickets, desiring that the old usage of the mileage book be restored and the present annoying and time-killing system be abolished.

The Governor will also visit the United States Navy Department in regard to the presentation of the silver service of the "North Carolina." A controversy has arisen as to where the ceremonies should be held, whether off the North Carolina coast at one of two designated places, or at Norfolk, where the Navy Department thinks the most people would see it. Gov. Glenn is desirous of having the presentation where the largest number of North Carolinians can witness it.

Governor Glenn will remain in Washington till Sunday, when he delivers the annual memorial address before the Confederate Veterans at Arlington Heights. He will return to Raleigh Monday.

Richmond, Va., June 3.—The universal love and esteem in which the memory of Jefferson Davis is held was given expression throughout the South today by exercises commemorating the 100th anniversary of the great chieftain's birth. In Virginia, Georgia and Alabama, in Florida and the Carolinas, in Kentucky, where Mr. Davis was born, and in Mississippi, where he spent the declining years of his life, notable public observances were held. In this city, where, on February 18, 1861, he was inaugurated President of the Confederacy, the principal feature of the centennial celebration was the turning over to the city of Richmond of the handsome memorial erected by the Jefferson Davis Monument Association. This monument, which was unveiled at the Confederate reunion here a year ago, was paid from a fund raised by the United Daughters of the Confederacy.

In New Orleans, where Mr. Davis passed away on Dec. 6, 1889, the centennial anniversary was observed by the breaking of ground for the Davis monument to be erected by the Confederate veterans.

From Maryland to Texas and from Florida to Missouri the centennial is being observed with special exercises in the public schools and under the auspices of historical and patriotic societies and veterans' organizations. In Louisiana, as usual, there was a State-wide observance of "Confederate Memorial Day." In Florida, Georgia, Alabama, Mississippi, Tennessee, Texas and South Carolina the day was observed as a public holiday.

## Over-Work Weakens Your Kidneys.

### Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers—they filter out the waste and impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-worked in pumping thick, kidney poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The milk and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits

by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Mortgagee's Sale. By virtue of a mortgage, executed by W. A. Tudor, to O. J. Fitzgerald, and registered in Book No. 44, Page 519, in office of Register of Deeds for Wayne County, the undersigned will sell for cash at Public Auction, at the Court House door in Goldsboro, on the 20th day of June, 1908, the property conveyed by said mortgage, to-wit: All fixtures, household and kitchen furniture, located in the Commercial Hotel formerly the Bridgers House.

### Today's Passing Events Boiled Down For Busy Readers.

(Special to the ARGUS.)

New York, June 2.—The explosion of a gas stove at the West Disinfecting Works, Long Island City, this morning, probably fatally burned five people.

Atlanta, June 4.—Beautiful weather prevails over the State of Georgia today and the greatest primary vote ever cast will be polled today in the Smith-Brown fight for the governorship nomination. One box in Atlanta held 300 ballots by 7 o'clock this morning.

St. Johns, New Foundland, June 3.—Sir Robert G. Reid, Premier, died this morning after a long illness. He built the international bridge at Niagara Falls and the bridge over the Colorado river at Austin, Texas. He also built the New Foundland railroad. He made much money as a railroad civil engineer.

Atlanta, June 3.—From 100 to 125 brakemen and switchmen of the Atlantic and Western railroad struck today, claiming that certain men had been discharged because they belonged to the Unions. The company says the men were discharged on account of dull times. The road is not crippled by the strike.

Raleigh, June 3.—In its efforts to convict five yegmen, the government today by a chain of evidence from Norfolk, Danville, Selma and Smithfield proved that these men were seen at these points just before and after the postoffice robbery at Dunn, N. C. It looks like the Government has a strong chain of circumstantial evidence.

Baltimore, Md., June 3.—Horace H. Bowling, postmaster, at Mechanicsville, youngest member of the last legislature, was arrested today charged with stealing a thousand dollars from the office, in ten money orders of one hundred each. He confessed and said he got in debt and took the money to keep his creditors quiet. He was recently married.

Washington, D. C., June 3.—John Hayes Hammond, an expert civil engineer drawing a half million salary, is said to have told Taft in conference yesterday that he would accept the nomination for vice-president, although not anxious to crowd out Governor Guild, of Massachusetts, a personal friend of Hammond mentioned for the place.

New York, June 4.—The million-dollar express train, so-called, carrying \$115,000 in currency from the treasury to Washington, ran into a switch engine in the Port Morris yards early this morning and both engines were demolished and eight men badly injured. The car carrying the money was deluged with water and the contents saved. A mistake of signals was the cause of the wreck.

Chicago, June 5.—The fight this afternoon is hot between the contesting Alabama delegates and on the result depends, in large measure, the strength of Taft, as shown on the first ballot; for if the Taft delegation is seated it will mean that the war secretary is to have all the Southern delegates in the convention. Frank H. Hitchcock is here to conduct the Taft side of the case and Major Bryan, law partner of Senator Dick, of Ohio, is looking after the anti-Taft element.

Chicago, June 5.—Charles P. Taft, brother of the secretary, in an interview today, denied emphatically that the Taft men are scared or fear that the convention will stampede Roosevelt. He got here a day ahead of time, but came simply to see how the committee is getting on in the matter of contested delegations. Dooliver's boom for vice-president grows steadily, and administration men believe that the only way to keep Fairbanks, from being renominated.

## Important to Letter-Writers.

(By special wire to the ARGUS.)

Washington, June 5.—Postmaster General Meyer announced today that an agreement had been reached with the British government providing for a letter postage of 2 cents an ounce between the United States and Great Britain and Ireland, to become operative October 1st, 1908.

### The \$10,000 Silver Service Officially Received From the Contractors by the Legislative Committee.

(Special to the ARGUS.)

Raleigh, N. C., June 4.—The superb \$10,000 silver service to be presented by the State of North Carolina to the cruiser North Carolina, was officially received from the contractors, H. Mahler's Sons, jewelers, of this city, yesterday, by Lieut-Gov. Francis H. Winston, chairman of the legislative committee. Mr. Winston will today formally notify the Navy Department of the readiness of the committee to present the service in due form at whatever place and time the department directs. He is of the opinion that the presentation will necessarily have to be at Norfolk, as it would be next to impossible to have a successful presentation ceremony at Lookout or other points off the Carolina coast.

The committee, through Chairman Winston, emphasizes the fact that this is purely a matter for the Navy Department and the committee, and that the committee sees fit to leave it to the best judgment of the Navy Department.

## STRANGE CASE.

### Christian Science Wife in Asheville Seems to be About to Realize the Fruition of Her Faith.

(Special to the ARGUS.)

Asheville, June 4.—N. H. Carpenter, pronounced dead a month ago by physicians, a Christian scientist, to permit doctors to see the body after she had declared her husband still lived, is apparently returning to life.

His wife would never permit the burial of the body, and has sat by it day and night.

The doctors who have seen it within the past two days now admit that the color seems returning to the face and flesh to the attenuated limbs.

## DOCTOR'S ORDER WAS: 'CUTICURA'

### For a Bad Case of Eczema on Child—Suffered for Three Months—Disease Reached a Fearful State—Pain and Itching were Terrible.

#### CURED AFTER OTHER PRESCRIPTIONS FAILED

"When I was small I was troubled with eczema for about three months. It was all over my face and covered nearly all of my head. It reached such a state that it was just a large scab all over, and the pain and itching were terrible. I doctored with an able physician for some time and was then advised by him to use the Cuticura Remedies which I did and I was entirely cured. I have not been bothered with it since. I used Cuticura Soap and Cuticura Ointment but do not know exactly how much was used to complete the cure. I can safely say that Cuticura did a lot for me. Miss Isabel Wilson, North Branch, Mich., Oct. 20, 1907."

## ITCHING CURED With Cuticura Remedies in Three Days After Six Months of Suffering.

"I suffered fully six months. The trouble began on my arms in little red pimples and it was not long before it was all over my body, limbs, face and hands. It was so bad that I could not rest night or day and during the six months, I did not get a good night's sleep. I doctored for three or four months and spent at least twenty dollars trying to find a cure but none could be found. Then I saw the Cuticura Remedies advertised, and the next day I purchased some for seventy-five cents at the druggist's. I used them and I was relieved of the itching in three days, and I have never had a sign of any skin disease since. The Cuticura Remedies are the only remedies to use for skin diseases, they have cured me and they will cure others in the same way. J. W. Bloom, R. R. Telegrapher, Holloway, Mich., Nov. 20 and Dec. 29, 1906."
