GOLD BORO, JULY 13, 1869. "For us Principle is Principle - Right is Right-yesterday, to-day, to-morrow, Forever."

Howling Pitcously.

It is really amusing to read the comments of the radical press of the country upon the Gubernato: ial election recently held in Virginia, and to note how the conductors of these journals are boxling over 'infamous frauds," "cowardly and brutal intimidation of voters" &c., that hey report to have been practiced by the conservatives in order to carry the day. But this will strike no one with "amazemen"," when the nature and c'aracter of the radical press is taken into consideration.

But we think it is really bad grace in said journals to speak of "fraud." They and their party have been guilty of the crossest frauds ever known to have been practiced. It is only by "frauds" that they have had a majority at the ballot box, heretofore; but the people of the whole county-and the blacks especially-are beginning to see how they have been duped by their radical friends and are cutting loose from their associa tions. The ball was put in mot on in Virginia and election after election that will ultimately take place in the different Southern Statewill keep it moving. The radical party had as well look at matters as they are and prepare themselves to bear the burst of indignation that will be loudly spoken against them at the ballot-box.

The radical Petersburg Times has quite a long article on the Virginis election, under the captain of "close up the ranks," but we think THAT military command comes too late. Their ranks are thinned too much by conservative votes to "close up," and as for re-inforce. ments-they are out of the question. The negro element of the country-the main-stay of Radicolism-its very life and existence -has seen the rottenness and corruption of the party and in stento rian voices are proclaiming them selves as free from the thraldom of radicalism. Oace let them loose the negro vote, and they then loose their power.

The TIMES says:

"Nothing would more delight our foes than to see the Republican party disorganized and scattered; and their efforts to accomplish that result will in the future be untir-

There we think our cotemporary is in error. There are as good Republicans as there are Conservatives or Damocrats-it is nor the "Republicans" that the country is going to bring to grief, but the rotteu, thieving, corrupt radical party, composed of carpet baggers and scal lawage, whose only aim and desire is to rob the government. And they have not only robbed the goverament, but have cheated the negro-especially the ignorant classof everything they could possibly steal from him.

It is quite true that the efforts of the ; cople to overthrow fraud and corruption "will in the future be untiring.' The same element that elected Walker in Virginia and "disorganized and scatterel" the radical forces there, are steadily at work in other portions of the South. Radi slism has had its day money-bas created too many taxes, to find rest in the future upon Southern soi . SIC SEMPER TYRAN NIS!!

The Latest Radical Dodge-

Army Reunions. To say that the radicals do not desire t'e union of North and South, and that all their energies, power and influence are directed towards keeping alive the flame of discontent and stirring up new dissensions between both sections, says the N. Y. Evening Telegram, would be a twice-told story. Every reflecting and impartial obseyer krows that the very life and soul of the radical party depends up in their keeping up the old cry, "Rebe'. Copperhead, Trooly Loil," and 'Union Leagues." But there some who are liable to be misled by the professions of these welves in sheep's clothing an hoodwinked by some of their many dodges to excite sympathy and make political capital. No feeling of honer, patriction, or even religion is sacred to them in the furtherance of their

them) scheme to secure the sympathy and support of their outraged countremen is to call together the "flicers of the various armies who fought for the maintenance of the Union, Three of those army reunions have already taken place, with what results we shall see. The ostensible object was to bring together old comrades who fought and bled together and to bind them together with friendly ties in memory of those days that tried men's souls. So far, so good. But the real object is to give vent to radical spite and radical hatred against the South and against Conservative element throughout the entire country. This Conservative element is growing stronger every day, and the disunionst in power see in it the handwriting an the w ll and feel the reing slipping from their grasp. These army reunions, or rather political cauensus were, therefore, necessary to blind the eyes of the nation to the real scheme of the radical, by giving them a quasi endorsement in meetings ness. of army officers of every political stripe whose claims as saviors of the Union could not be ignored. But our b'ack friends showed the cloven foot at every meeting. First at the reun on of the army of the Petomec in this city a furious onslaught was made by the trooly hoil to prevent the election of General McCellan as prisi'ent of the organization, and Phil Sheridan was thrust into the office amid the war cries of "Rebels! Coj perheads!' There was a striking similarity between this scence and the pel tical strategy which prevailed formerly in Londo: when defeated poli ical aspirants would raise the sedi tions cry of "No Poperv !" Again at Long Branch vesterday, at the "reunion" of the . flicers of the Army of the Gulf, when Gen. Frank Bla'r vencured to say a word for the brave vet misguided men against whom they fought, and remarked that the great abilities of Stonewall Jackson, Lee and other confederate chiertains had a good deal to do with the fame and laurels won by his comrades around him, as in them they found fremen worthy of their steel, the well known hel!" was heard. Is this the way to specimen. bind up the wounds inflicted on the country by the late civil war? To what end cin this constant, unrelenting hatred of the South lead to but misory, endless dissension and distrust? Instead of bridging the gulf hetween the sections they seek to widen i . They induce, under false protences, real, true Union men and soldiers to attend those reunions, and then insult them because they ver ture an opinion that the time has past to regard their Southern fellow citizene as e em es. Out upon such duplicity and treachery. Bit all their dodges and't i le cannot save our race ical fixes The firt has gone forth. and their total destruction is at hand. With all their power and talents for falsifying, they last Virginia. Even the niggers despise them. When the last of them is laid in the political semetery prepared for the trine there should be a special day of thanksgiving over the entire land.

The Alabama Claims in the

House of Commons. In the House of Commons on the night of July 8, Mr. Gladstone, after acknowledging the courtery with. which Sir Henry Bulwer had so oft en postponed his motion in regard to the Alahama claims, said, in again anpearing to put it off, he fet it his duty to allege some reasons for his action, as it would amount to a definite postponement of the question for this year. He assured the House that it ago, and with whom may they ever rewas the opinion of the Government that it would best promote the interests involved in this great question by abstaining from asking the House to discuss it at the present moment, It had always been the custom of Parlia ment to abstain from discussing questions while under negotiation. Although it could hardly be said that the claims were now under negotiation and it might be considered that the rejection of the convention by the Senate "Stonewall" Jackson would awaken Anc. and Modern Languages, each of the United States brought them to a definite point; still he had reason to helieve that the government of the United States did not re ard the question as defin tely dropped on that account; on the contrary, they considered it was better an interval should occur, on account of the state of pullie opinion in America, before negot ations are resumed.
