They then said: "Up you go to the Lord," and strung him up. They then retired and left him hanging.

AN IMPORTANT RELIGIOUS GATHERING.

General Conference of the M. E. Church South.

RICHMOND, January 24.—The General Conference of the Methodist Episcopal Church South will meet in this city early in May next. The last time the Conference assembled in this State was in Petersburg in 1847. That assemblage was a very small one compared to that which meets in May. The latter will be composed of about two hundred and eighty clerical and lay delegates. Among the latter will be some of the most prominent men in the South, including Secretary of the Interior Lamar, Governor Colquhoun, of Georgia, ex-Judge Foraker, of Louisiana, and many other names well known in the Methodist church. The conference will remain in session three or four weeks. The sessions are expected to be unusually interesting. When asked by the Sun correspondent what prominent men would be present as delegates, a prominent divine laughingly remarked: "Oh, well, you know in the South political never take any very prominent place in our church affairs like they do in the North. Politics and religion are not allowed to be mixed up with us. There will, of course, be gentlemen in the Conference next May who are prominent in the affairs of their States, but such positions do not increase their influence in church affairs. Among the clerical delegates to the conference will be some of the ablest ministers in the South. It has not yet been fully decided, but it is likely that this body will hold its session in the Broad street Methodist church, at the corner of Tenth and Broad streets.

DOWN AN EMBANKMENT.

A Train Hurlled from the Track—One Man Killed and Several Injured.

ST. JOSEPH, January 21.—A disastrous wreck occurred last night on the St. Joseph and Des Moines branch of the Chicago, Burlington and Quincy system, about four miles east of Albany. The passenger train bound for St. Joseph encountered a broken rail, when the whole train except the engine was thrown from the track down an embankment fifteen feet. There were fifteen passengers on the train, and none escaped injury. An old man named Miller, from Palmyra, Iowa, was instantly killed, his neck being broken. The seriously injured are: Oscar Lehman, of Burlington, Iowa, injuries supposed to be fatal; Frank Chambers, of Burlington, Iowa; Clara M. Schaeffer, of Edgar, Neb., and two children; J. L. Ramey, of Albany; Jas. A. Daner, of Ottumwa, Iowa; Charles A. Henry; Jos. Budd, conductor. Several others received painful injuries.

"Fizzled Out."

This is what a once prosperous merchant said of himself, the other day. His business had faded out, credit was gone, and the sheriff had sold his goods. The trouble proceeded from a prolonged attack of dyspepsia, which prostrated and unsettled him so that he could not attend to his affairs. Pity he hadn't thought of Brown's Iron Bitters, which would have saved him. Mr. A. J. Lawler, 172 S. Broadway, Baltimore, says, "Malaria and dyspepsia troubled me for nine years. Brown's Iron Bitters gave me relief."

TO PREVENT PNEUMONIA.

As pneumonia is essentially a congestive disease, the best preventive measures are those which avoid the causes of congestion. Pulmonary congestion is favored by too heavy clothing worn in winter weather. A serious error is the supposition that a double set of flannels worn next the skin affords double protection. The fact is in such a case the inner flannel absorbs all secretion and perspiration, which are there retained by the outer flannel. An almost police-like action is thus brought about, softening the skin and rendering it highly susceptible to the slightest exposure. Over-heated, ill-ventilated rooms, and the sudden transition from these to the sharp outer air are other avoidable predisposing causes of the disease. He who uses a cold sponge bath with brisk rubbing every morning, who wears the lightest clothing consistent with comfortable protection, and keeps his living room well ventilated and at a mean temperature of 68 degrees, is employing the best preventive treatment of pneumonia known to sanitary science.

A Walking Skeleton.

Mr. E. Springer, of Mechanicburg, Pa., writes: "I was afflicted with lung fever and abscess on lungs, and reduced to a walking skeleton. Got a free trial bottle of Dr. King's New Discovery for Consumption, which did me so much good that I bought a dollar bottle. After using three completely restored my health, with a hearty appetite, and a gain in flesh of 48 lbs." Call at Kirby & Robinson's Drug Store and get a free trial bottle of this certain cure for all Lung Diseases. Large bottles \$1.00.
