It can be lasted better, sewed better, bottomed better, and threatening bodily harm to his wife. will fit better when done.

A Wilmington, Del., paper asserts that the late Henry B. Courtney conceived the art of making parlor matches, and was the only man in Sie world who knew how to do it. The only man, perhaps, but untold thousands of women have lived and are still living to whom to cleanse the teeth, and render the breath the art of making parlor matches is the veriest pastime.

A man in Louisville has invented new bottle for beer, champagne, and and the breath to lose its freshness. other effervescent liquors, which, he claims, does away with extra fastening for the cork. The hole for the cork is and true. in the side of the neck of the bottle, and there is no opening at the top. The harder the gas pushes the faster the eork stays, says the inventor.

A French journal calls attention to the tong-yeou. a tree which grows in China. This oil is easily extracted by pressure, has a density of 0.9362, and pressure, has a density of 0.9362, and possesses a variety of curious properties. It dries more rapidly than any other known oil. It has also the power of soldlifying under the action of light and soldlifying under the action of light an out of contact with the air.

The largest circus in Paris accommodates only 7,000 people, while one in ancient Rome could hold over 150,000. Probus got up a free fight between 1,000 wild boars, 1,000 stags, 1,000 rams and 1,000 ostriches, and the occupants of the upper galleries—the gods—had the right to shoot arrows and javelins into

"Till recently," says the London Literary World, "we in England have had Bingham, Burwell, Lewis and others. but a poor opinion of American newspapers, but now that our papers have sunk [raised?] to their level, and fill Price \$1.50. To Schools \$1.00. Postage their columns with sensational news and the results of wholesale interviews, it is to be questioned whether we are in ally low figures and will offer this week a position to pride ourselves on our intellectual superiority. Americans are sep24-tf itively, the same paper cannot be dupli- great readers of newspapers, and there, cated at these prices. These are genuine more than here, do they inform and guide the general public.'

In England the footmen are usually great strapping fellows, selected for their height and the size of their calves. Will be given the first applicant who wants to buy a complete Milling outfit for on his mistress, and she naturally likes Accommodating terms. him to be presentable. The advertisements always mention if a man is more apr1-3m than six feet high, for every inch is worth at least a pound a year in his

Court House bought a piece of cheese

and put it in his overcoat pocket, and afterward laid his coat down for a time. Then he put it on and went to a saloon, where he played cards for the drinks. He noticed, as he thought, that Tom Gracey, who was looking on, nudged him very often as a signal how to play his cards. He lost, and accused Gracey of misleading him. While Gracey was denying that he had touched him a big rat jumped out of King's pocket. H had been feasting on the cheese and nudging the eard-player.

Frank Mullin, a Philadelphia expressman, was taking a box containing two big striped hyenas to the Philadelphia Zoo the other day when he felt a particularly warm and vigorous breath on the back of his neck. He looked around and saw that there was a big hole in the box, large enough to permit either of the beasts to escape, but which was filled by the heads of both hyenas. esses the largest collection of books on whose white teeth gleamed unpleasantly paptism in the world. There are 2,000 near his back. With a vell Frank whipped up his horses and dashed through the streets like a madman, never stopping until he reached the Zoo. There with swamps, which might easily be the hyenas were beaten back and the hole was boarded over, but Mullin didn't entirely recover for a day or two.

Cowboys and Ponies.

The old-time idea that he was the best cowboy who returned from a hunt The massive iron chest in which the with his horses the poorest and their nanuscript of Domesday Book was for- backs the most extensively bruised and merly kept is still preserved in the Brit- skinned, has exploded, says the Stockish Office of Public Records, and it will man, of Miles City, and stockmen now be an object of curiosity at the coming want men who can take care of horses celebration of the 800th Domesday an- as well as ride them hard when necessary. There was a time when a cowboy thought it a disgrace to return from a month's work with his string of horses in a condition fit to be used without rest, whether he had had any particularly hard work to do or not; hence he made it a point to ride hard, regardless of the necessity of doing so. If relieved ings regularly every three months instead of semi-annually as heretofore, beginning March, larly hard work to do or not; hence he from guard to go to dinner he must go 1886. at full speed to camp and jerk his horse up suddenly while on a dead run when he reached the camp. He did the same now for men who can ride hard when Canadians are beginning to worry necessary and at other times favor their over their loss of forests. In the more horses and keep them in condition to do thickly settled parts of Ontario only 10 good work when there is a rush. About per cent of woodland remains, and the easiest way for a cowboy to get diswells must be dug to the depth of forty charged in this country is to display a or fifty feet where formerly water could | well-developed habit of dashing his horses about unnecessarily, run them fif-A column article in the Denver News | teen miles ,to town and back during a describes the finding in Middle Park, at | night when the round-up party is campthe depth of thirty feet, the agatized tim- ed that near, just for the purpose of 1000 bers of a ship of unknown length, "evi- making a night of it, or to leave them dentiv moved by sails." Some observ- where the grass is poor just because it ers, however, consider the supposed would be a little more trouble to put them on good feed. This is as it should be, for, not considering the humane side of the question, the maintaining of good cow horses forms no inconsiderable part of a comman's expenses, and he should expect the same care on the part of his riders in saving horse flesh as he does in his general manager in economizing in other expenses. This does not mean A recent study of the geology of the that horses must not be ridden out of a Saguenay by the Abbe La Fiamme, of walk.
