

LATEST BY MAIL.

Hostile Apache Indians are still on the war-path. The new one-dollar silver certificates are being issued. There have been no earthquake shocks in Charleston since Friday. Eight hundred excursionists arrived in Charleston over the Atlantic Coast Line. Nearly half the tobacco crop of Virginia was ruined by the recent frost. The Georgetown & Lanes Railroad, sold by order of court, was bought for the bondholders. A telegraph line repairer in Detroit was killed by the current from an electric light wire. Three persons died at Pesth, Hungary, from cholera; at Trieste seven new cases were reported. President Cleveland has sent a letter and twenty dollars to the Confederate Home at Charleston, S. C. The boiler of a cotton compress at Charlotte, N. C., exploded, fatally injuring the freeman; two other men were hurt. Jas. B. Page declined the nomination by the Knights of Labor, and S. J. Hopkins, of Virginia, has been nominated instead. All but seven of the Bulgarian officials concerned in the deposition of Prince Alexander, have been released from imprisonment. R. P. Wallace, murderer of the Logan family of five persons, was taken from jail at Steelville, Mo., and hanged by a mob. A mother and her two children were run over by a train at Galesburg, Ill.; the woman was killed and the children fatally injured. The Knights of Labor met in Richmond, Va.; the address of welcome was delivered by Gov. Lee; Grand Master Powdley also delivered an address. Baptist ministers in Boston refused to cooperate with Methodist Episcopal ministers for revival meetings in that city under the furtherance of Revs. Sam Jones and Sam Small. A riot took place in Paris during the unveiling and dedication of the statue of Armand Barbes, the red republican leader of the Commune. The committee having the ceremonies in charge were nearly all moderates. France is not troubled with oleomargarine, but it wants a law to protect consumers from unscrupulous dealers in horse flesh. The Parisians ate up 6,000 horses last year, the flesh of which did not taste as good as it might, even though it was disposed of under many names. The Cree Indians of Montana Territory are making things lively there by their cattle stealing proclivities. They not only steal the cattle, but they ruthlessly butcher them. It is evident that United States soldiers will be called on to enter a decree against these Crees of Montana. The president of the National Cotton Planters' association has addressed a circular letter to the governors of the cotton states asking their co-operation in efforts to secure a return of sixty-odd millions of dollars collected illegally directly after the war and known as the "cotton tax." It is stated that the shrinkage in cattle values, together with reports of serious epidemics throughout the country, is causing great mistrust and uneasiness among the cattle men of Texas. There are rumors that some of the most prominent Texas cattle men have already become embarrassed and that their paper has gone to protest. Extensive failures are looked for. The Japanese Government having decided on a considerable extension of the present railroad system of the country, large orders for engines, rails and other railway material are being given in England. The approaching settlement of the treaty questions and the important part favorable to Japan played by the British envoy in Tokio have, it is said, led up to this method of manifesting their gratitude by the Japanese. The supreme court of Virginia has refused to grant T. J. Cluverius, the murderer of Miss Lillian Madison his cousin, a new trial, and he will be sentenced by the Hustings court of Richmond, Va. Nothing but executive clemency can save him from the gallows. He committed the murder on the night of the 13th of March 1885, and all that money can do has been done to save him. Had he been poor and friendless he would have been hung a year ago. The sixty cash boys in Armour's packing house, Chicago, struck Saturday for \$5 per week. They adjourned to the railroad tracks near by, where they elected a chairman. He straightway appointed a "strike committee" consisting of five boys, varying in ages from eight to twelve years. The "committee" did its work well, for when the superintendent went out on a search for boys to fill the places of the dissatisfied cash boys he met with nothing but blank refusals. W. H. Arrindale, of Baltimore, his wife and son, Louisa H. Hartly, of South Hampton, New Brunswick, Canada; Martha E. Kah, of Hastings, Iowa; Susie T. Harvey, of Des Moines, Iowa; Mary B. Lundsay, of Chicago, and L. Fannie Cummings, of Reading, Mass., formed a party of missionaries who sailed Saturday on the Anrania from New York for Liverpool, thence to Africa to join Bishop Taylor at Leopoldville, Stanley station. The party will be self-supporting. James Arbuckle, freight agent of the Philadelphia and Reading railroad at Allentown, was assaulted and robbed of \$300 and a silver watch and left for dead in a secluded place in Williamsport, Pa., about one o'clock Sunday morning. His assailant came up on the late train from Milton with Arbuckle, and had invited the latter to spend the night with him. Arbuckle was dragged some distance and hidden in a pile of kindling wood. There are hopes of his recovery. Russia, it seems, has already abated some of its arrogance toward the Bulgarian Regency in consequence of Herr Tizza's outspoken declaration of Austro-Hungarian policy. The latter power will allow Bulgaria to efface itself if it chooses, but if it elects to be an independent nation, Austro-Hungary will sustain it against all comers. To this sentiment England and Italy, not to mention the Turk, heartily subscribe. Should the Bulgarians remain firm, the Bear's path to Constantinople is at length effectually closed.

REVIVED BY NITRO-GLYCERINE.

How a Chicago Doctor Restored a Woman to Life. CHICAGO, Sept. 29.—The Evening Journal to-day will publish a case of remarkable resuscitation from supposed death of a young married woman named Mrs. Frazer, the daughter of Mr. T. H. Stevens, who with his family, came here from New York some three years ago. On July 30th last Mrs. Frazer gave birth to a child, and in August, after several days' illness, was pronounced dead by one of her attending physicians. Dr. Mark H. Lackerstein, who was also attending Mrs. Frazer, says: "I did everything I could think of to restore respiration without effect. Ten minutes must have elapsed, though at that time I was not in a position to watch the passage of time. Then it suddenly struck me that I would like to try a hypodermic injection of solution of nitro-glycerine. I took up ten drops and let the corpse have the full benefit of it. The first minute there was not a pulsation, but just a gasp; that was all. I looked at my watch and there were four such gasps distributed over the first sixty seconds; but

THERE WAS NO LIFE. In the second minute there were six respirations and a slight heart pulse could be heard, but no pulse could be felt. In the third minute there were eighteen respirations, and the pulse became distinctly perceptible at the wrist. In the fourth minute it was 180 and upward, so that it could not be counted. Her face flushed. Her eyes began to roll in the sockets. All the muscles relaxed from the extreme stiffness of death. All the contractions of the limbs gradually relaxed. Speculation came back to her eyes, and SHE BECAME CONSCIOUS. In my opinion in all cases of shock or collapse this thing ought to be tried before the patient is given over for lost. There is nothing peculiar or sensational about it. The only thing is I have been the first person to try it. If I ever have saved a life it is this one. The doctor also relates the following: "The lady is a young woman between nineteen and twenty years of age. She was confined July 30th of a male babe under very great difficulty. It was an instrumental case. She was up and about, but in the middle of August

BEGAN TO COMPLAIN OF A LITTLE PAIN. On the 6th day of the month she seemed to have colic pains, which continued off and on until the evening of the 25th, when the pains became very severe and I was sent for. I have here (taking from his vest pocket a little bottle filled with a clear fluid like water) a 1 per cent solution of alcohol of nitro-glycerine. It is a remedy which for some time has been used for epilepsy and things of that sort and for some forms of kidney trouble also. It has an effect on the blood vessels, the lenticular blood vessels—arteries. We give it in doses of one drop, a drop and a half, two drops, or may be three drops in some cases. We give it through the mouth. I was never before given by hypodermically, so far as I am aware, until I made the trial, thank goodness with success. It was a case of gallstones. Many persons die of shock. As they try to pass the stones they gradually sink, and sink away from pain and die from shock or collapse. On the night of the 30th she collapsed. She lost her pulse. Her heart ceased to beat. She ceased to breathe. Her temperature fell to 1 registered low enough. They were only marked to 95 degrees, but I think her temperature must have been down to 92 degrees at the least. Her father, mother, brother and husband stood around her bed, and all had given her up for dead."

FROST KILLS THE TOBACCO.

Gloomy Reports from the Section Around Asheville, N. C. ASHEVILLE, October 4.—Reports from neighboring counties in regard to the injury by frost to the tobacco crop continue to come in. In Haywood and Vance counties there is reported great damage, but by far the greatest losses are sustained in Madison, the chief tobacco raising county. Many crops are totally ruined and will not be cut, being entirely abandoned by the planters. The smallest crop ever raised in this section will be that of this season.

BACKING ACTOR MILN.

A number of wealthy Chicagoans, who owe faith in the dramatic abilities of the Rev. George C. Miln, and who think that were he free from financial care and the constant harassing concern money matters to which he has been subject since he left the stage he could make a better showing of his talent and energy, have decided to raise a fund of \$20,000, which is to be placed to his credit for the purpose of putting upon the road a well-chosen company, with surroundings. About one half the sum is said to have been already subscribed, and it is believed the full amount will be forthcoming before the end of October.
