Now, I propose to call your attention to some of the leaks in this great ship of state which we think if not stopped will cause her to finally sink and prove her a failure. In the first place I will call your attention to the Jury System in this county. There were on the jury list of last year only 386 names out of a voting population of over 5.000. I was thrown in court over a small matter and knowing I had law. evidence and justice on my side, I thought certainly would be the gainer of the suit, but to my great surprise the jury found a judgment against me. This caused me to go and examine the jury list which I found to be as above I then went boldly to the Judge and stated. made the statement to him, at the same time, telling him I thought I was a sufferer on the County Commissioners the first of September at their regular meeting, which I did. He took the list. went down to the Court House shortly afterwards and the Chairman of the Board of Com missioners asked me where the list was that I had for Goldsboro Township. I looked over on a table and found it, and he asked me to go over it with him and the most of the names on the list were put on the jury list, some few were not put on, nor was there any good reason given for them not being put on. I exmined the list for Brogden fownship, and ound but very little over half the names of I then went to Mr. J. H. ### REGISTER! REGISTER!

It is a matter of importance to the voters of the county to see that their names are on the registration books of the county. No new registration is required, except where a voter has changed his residence from one town ship to another since the last election or from one ward of the city to an other. Let every voter who wishes to exercise his right of the ballot on the 2d of November attend to this matter at once, and see that his neighbor does likewise.
