

Local, State and General

Mr. Thomas E White is our authorized agent to collect accounts due us, to solicit subscriptions, to make contracts for advertising and job work, and to transact any business of the GLEANER. He will make a thorough canvass of the county, and we ask our friends to give us substantial token of their well wishes. We want a thousand subscribers in this county, and Mr. White is going around to get them for us.

Proceedings of County Commissioners will appear next week.

Harvesting has fairly commenced, and we hear complaints of the wheat crop.

Mrs. William Newlin, wife of our worthy countyman, William Newlin, died last week after a lingering illness.

Our people are in the midst of harvest this week. While the wheat crop cannot be called good, yet it is better than many dared hope for a few weeks ago.

Judge Merrimon has published a card indicating himself from the gross imputations which had for a long time been cast upon him. We will publish it next week.

MARRIED.—On the 30th of last month by Gaston D. Cobb Esq., at the residence of the bride's mother, Mr. Geo. Kermode to Miss Georgia Cline, all of Alamance.

We hear that the hail storm on Sunday did great damage to wheat, and other crops in neighborhoods of the county, particularly in that of Curtis Mills. We fear the damage was much more extensive than we have yet heard.

HAIL.—Last Sunday evening there was quite a hail storm about Swepsonville and below. Some of the hailstones were nearly if not quite as large as a hen egg. We know this for we saw them. There was not enough to do any considerable damage, at least at Swepsonville, and if there was elsewhere we have not heard.

Work is progressing finely on Capt. William's new house. The workmen are very busy putting a covering of slate on the tower, while other are employed in covering the roof with tin.

CHANGE OF SCHEDULE.—The running of the trains on the North Carolina Railroad has been changed. The mail train now passes this place going east at ten o'clock 44 minutes in the morning and going west at 6 o'clock and 4 minutes in the evening.

THE CAROLINA FARMER.—The June number of this valuable agricultural journal has been received. As usual it is filled with valuable information to the farmer. The articles are short and the print large and plain, and the price \$1.50 a year. Address W. H. Bernard, Wilmington N. C.

The first peaches of the season made their appearance last week. Dr. G. K. Foust gave them. He gave us some of them. They were of the variety known as the Amsten June we believe. What the Doctor does not accomplish in the fruit line it is scarcely worth while for others to attempt. The reason his success is so marked is that he pays attention to the business.

TWO OLD PEOPLE GONE.—Mrs. Ann Bradshaw, widow of Thomas Bradshaw, a soldier of the war of 1812, died last week aged ninety two years. She lived in the Hawfields section.

Jacob Friddle also died last week aged one hundred and one years. The ages of these two old people are we understand matters of family record, and are doubtless correct as given.

CONVENTION

The Democratic-Conservative Party of Alamance County are requested to meet in Convention, at the Court House in Graham, on Saturday July 6th 1878 for the purpose of nominating candidates for the Legislature and the various county offices.

It is a convention of the people and every democrat or conservative who attends will be a delegate and entitled to be heard.

Each township will cast 25 votes. All who are opposed to fraud and corruption in office and believe that we should be governed by men selected from and by the people are cordially invited.

By order of the Executive Committee. JAMES A. GRAHAM, Chairman.

On motion of J. L. Scott, Esq., it was ordered that the office of county treasurer for Alamance county be abolished, to take effect at the expiration of the present term.

It was ordered that the polling place in Boon Station township be moved from R. L. Mebanes to Cable's School House; and that the polling place in Albright township be moved from John Roney's to D. S. Thompson's.

The Secretary was authorized to purchase a book in which to record the proceedings of the board of justices, and that the said book be deposited with the Register of Deeds.

The motion concerning a bridge across Haw river, at James Newlin's mill was laid over to some other day.

Col. Jesse Gant asked for an extra allowance on account of building a bridge across Stony creek, at Big Falls, which matter was referred to the county commissioners for its settlement.

A REMARKABLE RESULT.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Boschees German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptive try just one bottle. Regular size 75 cents sold by all Druggists in America, and for sale by P. R. Harden, Graham N. C.

Last Tuesday an excursion train carried the teachers and scholars of the Methodist Sunday School in Greensboro to Raleigh. There were some three hundred and fifty, and they had a pleasant time.

A large and destructive fire occurred at Rock Hill, S. C. June 3rd. Almost the entire business portion of the town is in ruins, and about fifty thousand dollars worth of property consumed.

A PAIN PICTURE.

A few months or even weeks since, her pallid countenance was the very type of ruddy health—the delight of the school and the pride of the household. She was always welcome wherever duty or pleasure led her. Diligent, punctual, and exemplary, in the classroom, obedient and loving at home she won the hearts of all. But alas! those glowing cheeks and lips are blanched by consumption. The voice once so enchanting in laugh and song is feeble, husky and broken by a hollow cough. Let us approach her couch and gently take her bloodless hand in our own. Do not shudder because of its passionless grasp. The hand once so plump shows its bony outlines, while the cords and tortuous veins are plainly mapped upon its surface. The pulse that rebounded with repetition, imparting beauty, vivacity, health and strength, to the system is delicate to the touch. The overworked heart feebly propels the thin, scanty blood. Must we lose her while yet so young and fair? No. There is relief. But something more is required than the observance of hygienic rules, for enfeebled nature calls for aid and she must have it. Administer this pleasant medicine. It is invigorating, allays the irritable cough, improves the appetite and digestion, sends a healthy tingle through the whole being. The blood is enriched, nervous power increased and the heart bounds with a new impetus. Her face brightens—the liddled-eyes, her voice is clearer and her requests are followed in that peevish, tone so degrading to sympathy. Her step is still faltering, but strength is rapidly returning. Let us take her out in the warm, life-giving sunshine. In a few weeks she will go without our aid and be able to join her companions in their pleasant pastimes and feel her whole being "warmed and expanded into perfect life." The change is so great that we think she is sweeter and nobler than before. And the medicine which wrought this transformation, we look upon as a blessing to humanity, for there are other loved ones to be rescued from the grasp of the insidious Jester, Dr. Pierce's Golden Medical Discovery has raised her. It will raise others.

THE SOUTH ATLANTIC.—The June number is out and was received last week. It has achieved unquestioned success in excellence, and we trust in patronage as well. "Though so young, just having completed its second third of its first year of existence, it yet deserves to rank with the old established monthlies—and that rank would readily be accorded if it were only published up North instead of in our midst. It is unaccountably strange but nevertheless we believe it is true, that among our own people it is a circumstance of detraction that a periodical is published by one of our own people and in our midst. It is in some sort a duty and should be the pride of our people to substantially recognize the merit of publications in our midst. It would really seem that for a magazine to reach great favor, among our people, it must be published North, and only mention us and our history to fear, taunt, slander and ridicule us. We venture that nine tenths of the Northern publications which extensively circulate at the South, contain from time to time matter concerning our own people, which if appearing in a State paper would prompt an immediate order from the great majority of subscribers to immediately discontinue. Three dollars a year is the price, Mrs. Cicero W. Harris, Wilmington N. C. editor and proprietor.

The Antecedents of Disease.

An antecedent of disease are inertness in the circulation of the blood, an unnaturally attenuated condition of the physique, indicating that the life current is deficient in nutritive properties, a wan, haggard look, inability to digest the food, loss of appetite, sleep and strength, and a sensation of unnatural languor. All these may be regarded as among the indications of approaching disease, which will eventually attack the system and overwhelm it, if it is not built up and fortified in time. Invigorate, then, without loss of time, making choice of the greatest vitalizing agent extant, Hostetter's Stomach Bitters, an elixir which has given health and vigor to myriads of the sick and debilitated, which is avouched by physicians and analysts to be pure as effective, which has been for years past one of the leading medicinal staples of America.

GODEY'S LADY'S BOOK.—This long time Southern favorite fashion journal for July has been received. It is the magazine for the household. Its literature is wholesome, its fashions the latest and most reliable and its hints to housekeepers valuable. We regret to notice that this number contains the obituary of J. G. L. Brown, one of its editors. The price of this monthly is \$3.00 a year but there are liberal deductions for clubs. There is everything to commend and nothing to condemn in this old established Lady's Book.

The Potter investigating committee has proceeded far enough to show unquestioned forgery in the matter of the Louisiana election, and also in the estimation of public opinion to connect John Sherman, Secretary of the Treasury, and Stanley Matthews United States Senator therewith: either before or after the fact. The position these two gentlemen occupy, according to the evidence so far, is anything but complimentary to their integrity and sense of fairness.

The "wets" beat the prohibitionist at the election in Pittsboro last week, and in Concord they were also successful.

HORRIBLE HOMICIDE.—John Clemmons of Chapel Hill accidentally shot and killed his wife on the night of the second of this month. He had been on a carousal with two companions, all being more or less drunk, a dispute arose about his two comrades coming into his house, where were his wife and children, and staying all night. An altercation ensued and Clemmons got his gun threatening to shoot, and his wife got up out of bed and tried to prevent him. In the scuffle that ensued over the gun, it was accidentally discharged, shooting the unfortunate woman in the thigh, severing an artery, from which she died in a very short time. She leaves a large family of children, the youngest being only about a year old. She is said to have been a worthy woman while her husband is represented to be a very worthless fellow.

COLLEGE COMMENCEMENT.—This is the season of College Commencements. The one at Chapel Hill came off last week, it was largely attended, and in every way gratifying to the friends of the University. It bids fair to again attain the old time prosperity that rendered it celebrated among the Universities of the country.

The Commencement at Trinity comes off this week and we would gladly accept the invitation we have received to be present, if our engagements would permit.

After a long contest, and nearly a hundred ballots, the judicial convention at Goldsboro, on the 6th, nominated Capt. Swift Galloway for Solicitor. The convention was attended by more than a hundred and fifty delegates, and lasted for two days, in fact until late in the night of the second day, before a nomination was made.

Speaking of Judge Grant, now at the University, the Baltimore Gazette says that he is the greatest benefactor of the female sex on this continent. He has adopted seventeen girls, raised them, and married most of them off with generous endowments.—The Observer.

The Convention for the third judicial district was held in Goldsboro last week, for nominating a candidate for Solicitor. Capt. W. T. Granger presided over the body, five nominations for Solicitor were made but the result is not yet known.

CHARLOTTE VOTES AGAINST PROHIBITION.—The election last week in Charlotte to decide the question of liquor, or no liquor, resulted in a majority for license.

Edgecombe county Democratic convention endorsed Vance for the Senate, Smith for Chief Justice, Howard for Associate Justice and whoever the West wishes for the other Associate Justice.

Babies ought to be well taken care of their system does not allow the slightest neglect. If your baby suffers from Colic or Bowel Disorder, procure a bottle of Dr. Bull's Baby Syrup, a sample but always reliable remedy. Only 25 cents.

The question of whether liquor should be sold in Charlotte was submitted to a vote of the citizens last week, and prohibition was defeated. Of the thirteen townships in Mecklenburg county however, six of them have voted prohibition.

The law repealing the bankrupt law has been signed by the President. The doors are open for filing petitions to the first day of September.

For all diseases of the blood we do not know of any better remedy than Dr. Bull's Blood Mixture.

Nothing that can be classed as news from the European situation.

Mr. James F. Pearce, for a long time, a citizen of Greensboro, died recently at his home in Henrico county Virginia, aged sixty six.

Mr. Jonah Boughton a noted temperance lecturer, delivered addresses in Raleigh last week, at Tucker Hall, which said to have been highly interesting.

The Democrats of Guilford county meet in convention on the 22nd day of June to nominate candidates.

The House committee has agreed to report \$50,000 for a Federal courthouse and post office at Greensboro.

The Indians ran cattle from Texas across into Mexico and Genl. Ord sent a company of cavalry after them.

TO THE VOTERS OF BOON STATION AND ALBRIGHT TOWNSHIPS.

At a meeting of the Board of Justices of the Peace of Alamance county, at the Court House in Graham, on the first Monday in June 1878, it was ordered that the polling place in Albright township be altered from John Roney's to D. S. Thompson's; and that the polling place in Boon Station township be altered from Robert L. Mebanes to Cable's School House. The voters of said townships will take due notice thereof.
