

THE GLEANER
GRAHAM, N. C., June 19 1878

Local, State and General

Mr. Thomas E White is our authorized agent to collect accounts due us, to solicit subscriptions, to make contracts for advertising and job work, and to transact any business of the GLEANER. He will make a thorough canvass of the county, and we ask our friends to give us substantial token of their well wishes. We want a THOUSAND subscribers in this county, and Mr. White is going around to get them for us.

Harvest is nearly over, and not more than two thirds of a wheat crop made in this section.

Durham is the place to sell your tobacco. See accounts of sales made there in this issue, and also the advertisement of H. A. Reams of Reams's warehouse.

Mrs. King of Lake City Florida daughter of our townsman P. R. Harden Esq. arrived at her father's last week, and will spend the summer at her old home.

BLACKWELLS DURHAM WAREHOUSE, DURHAM, is conceded by all to be the best place to sell your Fine Wrappers, Fillers and smokers. Particular attention given to Alamance tobacco. Give Parish a trial with a load of good tobacco and you will be satisfied.

PUBLIC SPEAKING,

Dr. D. A. Montgomery will address the following citizens at Stonewall Springs, on Saturday the 22nd of this month, at two o'clock in the evening upon matters of interest and importance to the people of the county. Time will be divided and arrangements made with any person who may be present and wish to join in the discussion. The Doctor is a fluent speaker, and has given much attention to subjects of a public character pertaining to the material interests of our people.

MARRIED.—On last Tuesday morning, Mr. John C. Hunter of this place married Miss Alice E. Jordan of Randolph. Rev. W. W. Staley spoke the words that put the happy couple in the same boat to paddle down life's stream. The marriage took place at Dr. John M. Jordan's, the bride's father's, in the morning, and the wedding party arrived in Graham in the evening, and were entertained at Sheriff Hunter's where a few invited guests met them. During the evening there was quite a pleasant dance at Bason's hall. We return thanks for being remembered upon the happy occasion. We wish them a long and happy life.

THE HAIL STORM.—In our last issue we noticed the fact that on Sunday previous, quite a hail storm had passed through the county, doing some damage. We are sorry to learn that the damage was much greater than we had heard. It past through the county from Southwest to Northeast, and the stones were the largest perhaps ever seen in this section. Chickens were killed in some places and growing crops beaten into the ground. Wheat on some farms was literally destroyed. On the same day many of the lower counties were also visited with destructive hail storms. We never heard of so much hail in one season before we think.

CONVENTION!

The Democratic-Conservative Party of Alamance County are requested to meet in Convention, at the Court House in Graham, on Saturday July 6th 1878 for the purpose of nominating candidates for the Legislature and the various county offices.

It is a convention of the people and every democrat or conservative who attends will be a delegate and entitled to be heard.

Each township will cast 25 votes. All who are opposed to fraud and corruption in office and believe that we should be governed by men selected from and by the people are cordially invited.

By order of the Executive Committee,
JAMES A. GRAHAM,
Chairman.

CHERRIES.

Dr. B. A. Sellers, of Company Shops, has orders for fifteen hundred pounds of dried cherries, and he wishes to buy to fill these orders. They must be well sorted and well dried. He wants them at once and will pay fifteen cents a pound.

SAD, SAD!—On the 16th day of last month, as our readers will remember Mr. J. M. Elder of this county in passing from a moving train at Company Shops, upon which he had just previously spoken with a friend, lost his footing and fell upon the track and the right hand was run over and crushed. Two of the fingers were amputated and it was thought that his recovery was entirely probable. Some ten days ago symptoms of lockjaw made their appearance and from that time he grew worse until last Thursday about ten o'clock in the day he died. To add to the terrible affliction, diphtheria broke out among the children, (there were three of them) and just six hours after the father had breathed his last, Walter, a bright little fellow of some three years, gave up his young life and followed his father across the dark river. The widowed mother, and two small children are left to mourn. Their sorrow reaches a tender place and excites true sympathy in every heart. Mr. Elder was in the prime of young manhood, and as husband and father he was kind and indulgent. He and his little boy rest together in the same coffin in the old burial ground at Haw River where they were interred last Saturday.

THE ART OF PROLONGING LIFE.

People generally desire long life and good health. Sickness and premature death are almost always due to the violation of the laws that govern our physical beings, and of which the masses are ignorant. If men knew better they would do better; but how can they avoid evil they know not of? While efforts are made through the public schools to give each child a so-called common English education, yet the children are permitted to grow up and enter upon the responsible duties of active life profoundly ignorant of the structures of their own bodies, and the laws of physical being upon which their health and lives depend. They were sent to school and crammed with arithmetic, grammar and geography, by teachers who, in many instances, have never studied physiology and hygiene. They are taught to locate the mountains and trace the rivers of foreign countries, but are never taught to locate the vital organs and glands of their own bodies, or trace the veins, arteries, and nerves, in their various ramifications. They are instructed in the flow of the tides, and the course of the of the oceans currents, and the philosophy of winds and storms; but they have no correct conception of the relative effect upon their health of breathing pure and impure air, nor has their attention ever been called to the importance of keeping their bodies clean and healthy by regular bathing. The criminality of such neglect in teaching becomes apparent when we consider that the masses ignorantly violating the laws of health, bring upon themselves sickness, suffering and death that might otherwise be avoided. In this condition of things we welcome into being any work that is calculated to impart to the masses a knowledge of the structure of their own bodies, the law of health, and the importance of observing those laws. We find Dr. Pierce's Common Sense Medical Adviser to be just such a work. It is physiological and pathological, and the major part of it should be converted into a text-book for the use of common schools. Its careful study will enable the healthy to preserve their health and the sickly to regain their health. Every parent should read it and as their children become of proper age instruct them in the all-important truths it contains. Were this done, much suffering and premature death would be prevented and many a youth saved from a life of shame and licentiousness. The book contains nearly one thousand pages, is profusely illustrated with colored plates and wood-engravings, and can be had by addressing R. V. Pierce, M. D., World's Dispensary and Invalids Hotel Boffalo, N. Y. Price, post-paid, \$1.50.—*United Brethren Aid Journal.*

CAPTURED.—In 1876 a negro man named Henderson Alford, with two others broke jail in Wake county by overcoming the jailor. On the night of the day when the escape had been made Deputy Sheriff Passmore, overtook two of the fugitives at Apex in Wake county, and halting them Henderson Alford fired upon him with a pistol and killed him. Nothing was heard of the murderer until a short while ago, when Mr. P. A. Sorrell received a letter that there was a negro in Franklin county answering his description, passing under the name of Williams. He with his neighbors went and sure enough it was Henderson Alford and he was arrested and is now safe in Wake jail. There was a reward of three hundred dollars offered for his arrest by the Governor, and one hundred dollars by the citizens of Cary township in Wake county, which will pay the captors of this cold blooded murderer.

This is the season of college commencements. Wake Forest and Trinity last week and Davidson begins next Sunday. Gov. Colquitt, of Georgia, delivered the address at Trinity, and it is spoken of as a very excellent one.

Bill Walker, colored, convicted at the Spring term 1877, of our Superior Court of larceny and sent to the penitentiary for five years has been pardoned by Gov. Vance. He stole tobacco at Company Shops.

The *Sentinel* says there was a slight frost in Winston on the morning of the 17th.

Ladies who have pale complexions, blotches and pimples on the face, rough skin, or freckles, should use Dr. Bull's Blood Mixture.

LIVER IS KING.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural results. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent, and for sale by P. R. Harden, Graham N. C. Three Joses will prove that it is just what you want.

The three murderers of the Worley family in Wayne county, will expiate that atrocious crime on the gallows, in Goldsboro, Friday, the 14th inst. Mr. Boultz, editor of the *Goldsboro Messenger*, has in press an interesting and carefully prepared account of the shocking murder, to be issued in book form immediately after the execution, giving a continuity to the events which transpired from the discovery of the bodies to the final sentence and execution of the murderers, including their trial, testimony, and the speeches of counsel. The book will be ready for sale by the 15th. Price 35 cents each; or \$3.25 per dozen copies; free by mail. Orders promptly filled.
Address J. A. BOULTZ,
Goldsboro N. C.

WILLIAM CULLEN BRYANT, the poet-editor died at his home in New York city, last Wednesday. He was eminent as a man of letters, and gave to his country some of its best poetry. He was a native of Massachusetts, adopted the profession of the law in early life which he soon abandoned for the more pleasant field of literature, in which he rapidly rose to distinction. He was eighty four years old.

A little boy seven years old, son of Capt. W. H. Brown, of Bladen county, was attending Sunday School at Carver's Creek church, and during recess he and his companions were playing in the grave-yard, when he in play climbed to the top of a tombstone which fell over with him and catching his head underneath crushed it horribly. The little fellow died almost instantly.

Oregon has gone Democratic and thereby gives the Democrats a gain of one Senator and one Representative in Congress. This was the news a week ago, but we were a little afraid of Oregon, and waited for confirmation.

Noah Cherry, Harris Atkinson and Bob Thompson were hanged in Goldsboro, last Friday for the murder of Worley and his wife. They protested their innocence to the last.

Wesley Dunn and wife of Montgomery, were changing some whiskey from one vessel to another one night last week. His wife was holding the candle, the whiskey took fire and burned both to death. The wife died immediately, the husband lived but a short time.—*Regulator.*

Mrs. JULIUS W. WRIGHT, a native of Wilmington, a graduate of Chapel Hill, a lawyer by profession, at one time editor of the *Charlotte Observer* and afterwards editor of the *Intelligencer* at Statesville died of dropsy at Iscard Station in Burke county.

The Democratic convention of the 7th judicial district, met at Yadkinville on the 8th of this month and nominated J. R. Graves of Surry for Judge, and Joseph Dobson of the same county for Solicitor.

Mr. Robert Davis, of Wilkes county, was bitten by a large black spider while he was in his field at work, and died from the effects.

Bruce General Phillips beat Lorillard's Parole at the Jerome Park races for the Westchester cup. Parole beat Tenbroek last winter. General Phillips is a Texas horse.

The person arrested at Giddings Texas is not George Loyd, but another man named Wilson.

Maj. Marcus Erwin is an independent candidate for Solicitor in the 8th judicial district.

THE LABORATORY OF THE STOMACH.

The stomach is the laboratory of the system, in which certain mysterious processes are constantly going on. These result in the production of that wonderful vivifying agent the blood, which in a state rushes laden with the elements of vitality to the remotest parts of the system. But when the stomach is semiparalyzed by dyspepsia, blood manufacture is carried on imperfectly the circulation grows thin and sluggish and the system suffers in consequence. Moreover, indigestion reacts upon the liver and bowels rendering the first sluggish and the latter constipated. The brain also suffers by sympathy and sick headache, sleeplessness and nervous symptoms are engendered. Hostetter's Stomach Bitters reforms this state of things, gives permanent tone and regularity to the stomach and its associate organs, the bowels and liver, and ensures complete nourishment and increased vigor of the system. It is the most popular as well as the most efficient anti-dyspeptic and tonic in America.

IN TROUBLE.—Geo. P. Hart, Commissioner from Florida to the Paris Exposition owned jointly with two others two hundred and eighty seven sewing machines, which he sold and forgot to divide with his joint owners, and upon receipt of his departure they had him arrested, and he must find bail or miss the big show.

His Republican friends say that Stanley Matthews is a baby in politics and needs a nurse, but they have confidence in John Sherman's experience and resources to help him out of the ugly place the evidence before the Potter committee has placed him in.

Mrs. Christiana G. Morton, near Franklinton, took a kerosene lamp to the fire place and attempted to light it with a torch, when it exploded covering her with a sheet of flame. It is thought she will die.

Congress was to have adjourned yesterday, but finding more to do than could be done in the time adjournment was postponed till four o'clock this evening.

The Congress of Nations to settle the trouble between Russia and England assembled in Berlin on last Thursday. There will doubtless be a peaceful solution of all matters of controversy.

A pretty picture is a healthy looking and well-cared for baby. By the use of Dr. Bull's Baby Syrup you can keep the health of your baby in splendid condition. 25 cents a bottle.

Little Tiddie Worley, whose parents were brutally murdered in Wayne county, is selling her photographs to raise means to support and educate herself.

Danl. Scarborough, father of J. C. Scarborough, Superintendent of Public Instruction, died at his home in Wake county.

Charlotte has declared war upon the dogs—they must wear collars or they die.

Mrs. Williamson, wife of P. B. Williamson of Raleigh is dead.

Mr. J. H. Hicks, one of the overseers of the penitentiary is dead.

R. A. NOELL

Tailor.

C. May 7, 1878, 17

TO THE VOTERS OF BOONVILLE AND ALBRIGHT TOWNSHIP
At a meeting of the Board of Trustees of Boonville and Albright Township, held at the Court House in Graham, on the first Monday in June, 1878, it was ordered that the polling place for the election of the Board of Trustees of said township be altered from the Court House in Graham to the Boonville Station, and that the polling place for the election of the Board of Trustees of said township be altered from the Court House in Graham to the Cable's School House in Albright. The voters of said townships are hereby notified thereof.
G. B. THOMPSON, Chairman of the Board of Trustees.
D. S. THOMPSON, Secretary.
