Sunday School, at 10 o'clock A. M. Rev. W. W. Staley, Sup't.

Our patrons need not be surprised if THE GLEANER should fail to make its appearance next week, owing to the fact that the Neuse Paper Mills, on account of low water, cannot furnish us with our usual supply of paper.

We are making efforts to get a supply in time for our next issue, from some other source, but if we fail don't think the paper has been or is suspended except for a short time.

Yellow fever still on the decline.

Forest fires have broken out in New York.

Rev. D. A. Long left for Yale College last Monday.

R. A. Neell is building an addition to his house.

Mr. Johnston Tarnet is commencing a dwelling house.

Shoriff Hunter is having a well dug on his premises.

T. A. Albright & Co. are building an addition to their store house.

Mr. Robert Moore is quite ill at his home at Haw River.

Commissioners in session last Monday. Will tell the people what they did next week.

Rev. D. A. Long preached his farewell sermon to his congregation at Providence last Sunday morning.

Rev. B. W. Mebane occupied the pulpit Sunday evening at Providence and preached to a large congregation.

Diphtheria, that terrible malady among children, is prevailing to a fearful extent in Raleigh.

**NOTICE**—Land Sale at the residence of the late William A. Walker on the 3rd day of Nov., which appears in this issue.

Thanks to Chas. R. Jones Sec. for a complimentary ticket to the annual Exhibition of the Carolina Fair Association to be held in Charlotte Nov. 4th to 7th 1879.

The Colored Baptists of this place, and the surrounding country, will commence a series of meetings at their church on Sunday next.

W. S. Albright, son of Col. W. A. Albright of this place left yesterday morning for Roxboro, where he expects to engage in business.

We apologize to Mr. Jenkins for not taking out his ad. as directed, which is still found on the outside of this paper. Mr. Jenkins has rented his farm, and need be troubled no longer with applications.

**GONE NORTH**—J. A. McCauley, of McCauley & Smith, of Company Shops, started North last week, to buy the Fall & Winter stock of goods for the firm. He will be back in a few days, as he left just a week ago to day. When he and his goods get back, the firm will have more to say to the public.

Read the advertisement of Dr. B. A. Sellars, in this issue. The Dr. has new goods, he means to sell them cheap, and he very sensibly goes about doing it by letting the people know he has them.

First get a good line of goods, then mark them down low, and then let the people know it, is the way to sell goods and that is just what the Dr. has done.

Mr. and Mrs. R. W. Hamlet, desire through this medium to express their appreciation of and thanks for the kindness shown them by the people of Graham, upon the occasion of the last sickness and death of their little son Willie, and especially to the ladies.

**CAN'T SEND MONEY TO LOTTERIES**—The Assistant Attorney General for the Post office Department has given it as his opinion, that under the law, letters addressed to lottery companies, or their agents as such, are not to be transmitted through the mails; and circulars have been issued to instructing postmasters.

Our tobacco raisers are having good luck in curing their tobacco as we hear. Some occasionally happened to the bad luck to have a barn burned. Dr. G. D. Cobb informs us of his good luck in not losing a barn. He was in the midst of curing but not at the hottest, when the tobacco took fire, and some twenty sticks were burned. The barn itself took fire in quite a number of places, and the strange part of the story is that the barn was not burned. The Dr. and his help put it out. We believe it is the first instance that we have known of a barn put out, after it took fire.

The military convention was in session last week in St. Louis. Genl. Beauregard is first vice president of the organization. The organization is to be called the National Guard Association of the United States, and the purpose is to secure military efficiency and united representation before Congress. The sense of the convention was that the bill now before Congress and in the hands of the House committee on military affairs should not be materially changed.

A Florida paper wants some medical man to tell it why negroes do not sneeze. It says old planters who owned scores of negroes will tell you they never heard one sneeze. We are not a medical man, but we are prepared to say that negroes do sneeze about here. There is no discrimination against them here, and they enjoy sneezing in common with the whites. We can't give any reason why the Florida negro does not sneeze unless it is because his nose is too flat. It requires nasal accommodation for a good enjoyable sneeze.

The warriors of the Ute tribe of Indians, attacked Thornburg command, on Milk river, on 29th last month, killing Thornburg and some ten enlisted men and wounding quite a number of others. The command retreated to the wagon train and entrenched. Many good men have died at the hands of Indians on our Western frontier. From time to time comes the news of an Indian dash and sudden attack, and the death of our soldiers.

Emanuel Rose and William Rogers were brothers-in-law, in McDowell county. Last July, they and others were engaged in a game of draw poker, when a quarrel ensued between Rogers and Rose which broke up the game, and resulted in a fight between Rose and Rogers in which the latter was stabbed with a pocket knife so that he died. The trial of Rose just taken place in McDowell Superior court, resulting in a verdict of guilty of manslaughter, so the Charlotte Observer learns.

### THE HANCOCK MOVEMENT.

There is a General Hancock boom under glass and already sprouting. Hancock is Alex Stephens's choice, and a concerted effort is making to bring him forward as a candidate of those Southerners who are opposed to another dish of Tilden and reform. Hancock headquarters are to be established at Washington after Congress meets, and his friends already boast of their ability to prevent Tilden's running again. The one thing that gives Tilden such a chance in the next National Democratic convention is the division of his opponents among a number of candidates.

### BOGS CERTIFICATES.

It is no vile drugged stuff, pretending to be made of wonderful foreign roots, barks, &c., and puffed up by long bogus certificates of pretended miraculous cures; but a simple, pure, effective medicine, made of well known, valuable remedies, that furnishes its own certificates by its cure. We refer to Hop Bitters, the purest and best of medicines. See another column.—*Republican.*

From almost every section comes the news of exceedingly dry weather. In many places wells are going dry, the summer streams and even some of the larger ones are failing to furnish water for the mills upon them, and much inconvenience is thereby caused. Stock in many places have to be watered from wells and altogether rain would be very welcome. Seeding oats and wheat have been sadly interfered with. Our tobacco raisers have a fine time for cutting and curing.

### SET BACK 42 YEARS.

"I was troubled for many years with Kidney Complaint, Gravel, &c.; my blood became thin; I was dull and inactive; could hardly crawl about; was an old worn out man all over; could get nothing to help me, until I got Hop Bitters, and now I am a boy again. My blood and kidneys are all right, and I am as active as a man of 30 although I am 72, and I have no doubt it will do as well for others of my age. It is worth a trial."—*Sunday Mercury.*

Mr. Kunder Gupton, of Franklin county was assisting in the raising of a house, when it was suggested that one of the sills was not level, and it was raised and Mr. Gupton stuck his head under it to look when the sill accidentally slipped from the sticks holding it, and fell upon his head crushing the skull and producing instant death.

From different portions of the cotton growing sections of the State the news is that the cotton crop is short—not more than a half to two thirds of an average crop.

The house of Mr. M. P. Leak, of Wadesboro, was burglarized on the morning, just before day, of the third of this month, and a number of valuable articles stolen. Mr. Leak's room was entered, and his clothes were taken from a chair, at his bedside. In his pockets were valuable papers, a gold watch and forty dollars in money. No clue. We learn from *The Observer.*

Reidsville Times: David Humphreys, of Wentworth, died in the county poor house last Saturday night. He was a very old man, nearly eighty, we should think. Yet he hasn't been many years since aware of his wealthy state, had a large debt.

At Wentworth in a splendid turn-out all the neighbors were in a splendid turn-out, and spent his money lavishly among his friends. He was from New Haven, Conn., but had lived in this country fifty years or more.

**HALL'S VEGETABLE SICILIAN HAIR RESTORER** is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling-out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Assessor of Massachusetts. The popularity of Hall's hair restorer has increased with the test of many years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world.

A young man named Williams, in leave land county, got into a dispute with his father about taking a mule from the lot to ride off, when his step-mother said something about the matter which he disliked, and he took a pistol from his pocket and shot her dead. Father and son were both drunk. The son remained about the premises for a short time but fled before he was arrested.

**SCRATCH YOUR HEAD IN ANOTHER PLACE.**—Lucien Crater, the barber, may always, that is nearly always, be found at his shop in room No 19 in the Graham Hotel. The location is quite convenient and Crater is a good barber keeps everything nice and clean, and does his work well.

A very sad accident, and one that may prove fatal, occurred near the Market here to-day. The people of Hannibal, Missouri, where some drunken ruffians were rude and insulting to the President and his party, an account of which we publish in another column, prevailed upon the President to return the same way, and upon his return trip a cordial and flattering reception was extended to him. Thus was wiped out any blame that might have attached to the citizens of that place,
