The Observer gives forth no uncertain sound, and time and again has taken occasion to express its opinion as to who is the best available candidate for governor but it has not felt called on to attack the character of other aspirants, and we consider such a canvass manifectly improper, Jarvis and Fowle both have their advocates in the Raleigh press, and the triends of each side in praising their own champion, seem equally realous in abusing and defaming the other side. Both have been public men for a long time, and we do not object to a proper discussion of the political record of each, but this does not justify the wolfish war that seems now to be going on.

The following in regard to Senator Voorbees is clipped from a Washington letter to an exchange:

His attitude and bearing are magnificent—he is a "whole team," and is, probably, more dreaded and feared than any Senator on the Democratic side. Tailer and Conkling had both, in numbrakable words, said that the Democrats were afraid to meet the "stalwarts" in debate; that they (the Demogratic Senators) dared not advocate the measures for which they were willing and anxions to vote. This stirred up the "tall Sycamors of the Wabseb," and the way in which he made them get to their holes and hiding places was superb. It's worth a thousand years of common place things just to see and hear that red headed Indianian when thoroughly aroused. Space can't confine him—words can't depict him. I wish the people of Norsh Carolina could see, and hear him just one time. They, staid and considerate and even emotionless as some think them to be, would "go crazy" over him. Delivering a most righteous judgment of the Supreme Court of the United States, Chief Justice Waite easy: That lutteries are deasoralizing in their effects, no matter how carefully regulated, caunot, in the opinion of this Court, be doubted. There is now carefully as State in the Union where they are tolerated, and Congress has cancied a special statute, the object of which is to close the mails against them. This being the case can be no question that lotteries are proper subjects of the State's government or police yower. They are a species of gambling and wrong in their influences. They disturb the cheeks and balance of a well ordered community. Society built on such a foundation would almost of necessity bring forth a population of speculators and gamblers living on the expectation of what chause might award them from the accumulations of others. Certainly, the right to stop them is governmental, and to be exercised at all times by these in power, at their discretion. Col Robt. M. Dengine is charged with createdness in his office. CRLEBRATION OF THE BATTLE Unveiling of the Monument.

Last Saturday was a glotious day for Alamance: a day long to be remembered in the anna's of North Carolina, as commemorating in a becoming manner, the first struggle on American soil between the oppressed subjects of the British tyrant and the armed forces of the oppres

At half past six o'clock on Saturday morning, the crowd began to assemble at the Court House. A half hour dater, T. B. Eldridge, on behalf of Misses Annie and Eugenia Cobb of Company Shops, presented the monumental association with a beautiful flag, bearing on one side this inscription, "THE BIRTH-PLACE OF AMERICAN LIBERTY," and on the other "MAY 16TH, 1772," the production of their own industry. Rev. D. A. Long accepted it for the Association, and placed it in the hands of J. D. Kernodle who had been selected by the chief mar-shal to carry the standard. The proces-sion then formed, headed by the Durham Band, and proceeded to the Alamance flattle ground, where they arrived about ten o clock, Hundreds of people from other directions had already arrived when the procession from Graham ap-peared on the scene. The number pres-ent on the grounds was estimated at between 8,000 and 4,000, some estimates

making it even greater,
About half past ten o'clock, the crowd assembled in front of the speakers stand, where seats had been arranged for a large number. J. L. Scott, E.q., as president of the association called to order with a gavel made from a free cut at the apring of Hermon Husbands. Hev. W. S. Long opened the exercises with prayer. Col. Thomas M. Holt then delivered an addiess of welcome. He reviewed the early history of North Carolina, and the causes which led to the Battle of Alaxmance, and gave a very interesting and full account of the battle.

Judge fewle tollowed next with a speech brim full of pariotism and elemente. Among other things, he salt, that "Alemance and liberty are joined together." He spoke of our national tinion, and expressed the sentiment that, "The union is the constitution and the onstitution is the union."

Rev. D. A. Long. Secretary of the Association, then read the names of persons who had contributed to the expenses of the moutment. The report is published in another column.

Hon. John Manning came next with

an elegaent and beautiful speech, in which he paid a glowing tribute to "the brave and the fair." At the conclusion of Mr. Manuing's speech, the efficers of the association assisted by Tobias May, George Lowman and Dr. G. K. After dinner, the crowd again assem-bled in front of the stand, and listened to speeches from Han. Kemp Battle, and Hos. D. F. Caldwell. After the speeches Hos. D. F. Caldwell. After the specches were inside, John Long Esq., of Randolph presented some relies of the battles field; to Messrs. Manning, Holt and battle, he presented sticks cut from Hermon Husbands apring: to the association, a deed bearing the signatures of Hermon Husbands, of Nash the clerk of the Court, and Famining the Register of Deeds of Orange County; and to Rev. D. A. Long, a bell which has a history that we have not learned. J. L. Scott Esq., then presented Judga, Fowle with the gavel with which he presided at the mosting. Rev. D. A. Long, will take the deed that was presented to the association to Chapel Hill, and present if to the Historical Society.

After the presentation of the relies, the Lenediction was pronounced by Rev. B. W. Mebane. The crowd then dispersed and returned to their homes.

Thus ended a day to which Alamance County can always point with mide. Her people have done honor to the patrices who were first to shed their blood for the principles that are dear to the hearts of all true Americane. The memory of the Regulators is now enshrined in an enduring monament, as well, as in the hearts of a grateful people.

MESSES. EDITORS:

It seems that almost every body wants an office. At least the woods appear to be fulled those who are willing to allow themselves to be sacrificed for the good of their country and to accept any position from Constable down to President. Under these circumstances it behoeves us to choose wisely. The issues before us are momentous and our standard bearers should be honest and capable men: men who are of the people and know the wants of the people. Personal friendship and likes should not be allowed to stand in the way of the connectry's good.
