Perhaps some of our readers will want to make their wives a present of furniture for the heliday. Now everybody knows that such a present is always acceptible to the average housekeeper. It is something that will not wear out right away; but will remain on hand while Christmas comes and goes, and the years roll around and bring many returns of the festive season. People who contemplate setting up housekeeping for themselves are under the necessity of purchasing. To all who want to buy, the question is: where can I get the best goods for the least money? and the an. swer is: at J. W. Forbis & Bre's large establish ment is Greensboro. They keep goods both plain and fancy, and all sutstantial and lew in price. Remember the place and send your orders if you cannot go in person.

On last Wednesday we visited the the new Cotton Mills being built by our townsman, Capt. Jas. N. Willamson. The factory building is on the most approved modern style of architecture for manufacturing purposes, besides being very substantial and elegant in appearance. It is two stories, with a tower three storie., 210 feet in length and 50 feet wide. It is being filled with machinery, and by the first of March the proprietor expects to start 2,000 spindles, and 100 looms. The machinery will be driven by two immense turbine water wheels, one of sixty and the other of eighty-

five horse-power.

The mills are on Ready Fork river about five alles north of Gibsonville and one mile from the Guilford line, in this county. We distinctly remember when the site of this establishment was nothing more than a rough, rocky hill-side, and almost wild in appearance. But we take pleasure in noting this change from ruggedness to that of improvement, industry and entersprise.
