Address MUNN & CO., Patent Solicitors, 379 Broadway, New York.

Just Received.

Genuine Farmers Friend Plows, all new and improved. Flow Plows, Land Sides, Mould Boards, Bolts and Clevises.
SCOTT & DONNELL

SIMMONS' LIVER REGULATOR

Unfailing Specific for LIVER COMPLAINT
The symptoms of LIVER COMPLAINT are uneasiness and pain in the side, sometimes pain in the shoulder, and is mistaken for rheumatism; the Stomach is affected with loss of appetite and sickness; bowels, in general, constive, sometimes alternating with lax; the head is troubled with pain and dull, heavy sensation of having left undone something which ought to have been done; often complaining of weakness, debility and low spirits. Sometimes many of the above symptoms attend the disease and in other times very few of them; the Liver is generally the organ most involved.

REGULATE THE LIVER AND PREVENT DYSPEPSIA, CONSTIPATION, JAUNDICE, BILIOUS ATTACKS, CHILLS AND FEVER, HEADACHE, COLIC, DEPRESSION OF SPIRITS, NEURALGIA, MIGRAINE, BRUISES, PILES, etc.

TONIC, ALBERTIVE AND CATHARTIC
Simmons' Liver Regulator, purely vegetable, is the medicine generally used in the South to arouse the torpid Liver to healthy action.

It acts with extraordinary power and efficacy on the LIVER and BILIOUS SYSTEM. The action of the Regulator is free from nausea or griping. It is most effective in starting the secretions of the Liver, causing bile to act as a cathartic. When there is an excess of bile in the Stomach, the Regulator is an active purgative; after the removal of the bile it will regulate the bowels and impart vigor and health to the whole system.

See that you get the Genuine in White Wrapper, with red Z, prepared only by J. H. Zella & Co. Sold by all Druggists.

Rheumatism

Pain in the Back and Side
There is nothing more painful than these diseases; but the pain can be removed, and the disease cured by use of Perry Davis' Pain Killer.

This remedy is not a cheap Remedy or Potentia product that will be kept away from the fire or heat to avoid danger of explosion; nor is it an untried experiment that may do more harm than good.

Pain Killer has been in constant use for forty years, and the universal testimony from all parts of the world is its never failing. It not only cures a permanent cure, but it relieves pain almost instantaneously, being a purely vegetable remedy, it is in the hands of the most inexperienced.

The record of cures by the use of PAIN KILLER would fill volumes. The following extracts from letters received show what those who have tried it think:

Edgar Gay, Orono, Minn., says: "About a year since my wife became unable to attend to her usual household duties. Our report was to the PAIN KILLER, which speedily cured her."

Charles Powell writes from the Salters' Hotel, London: "I suffered three years with rheumatism and violent attacks of the stomach. The doctor at Westminster Hospital gave me one of your bottles of PAIN KILLER, and in half an hour I was able to follow my usual occupation."

W. Walworth, Saco, Me., writes: "I suffered for several months from pain in the side by the use of your PAIN KILLER."

I have used your PAIN KILLER for rheumatism, and have received great benefit.

How used PAIN KILLER for thirty years, and have found it a never-failing remedy for all the above named ailments.

Mr. Burdick writes: "I have used your PAIN KILLER for rheumatism, and have received great benefit."

All druggists keep PAIN KILLER. Its price is so low that it is within the reach of all, and it will save many times its cost in doctors' bills. 25c, 50c, and \$1.00 a bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

Agricultural.

Taurus in Hardness.

The bull is both playful and pugnacious. When confined in a stable and fed as usually fed, to look nice, both of these characteristics are stimulated. A bull plays hard and is rough in his manners. This is well enough when bull meets bull, but when the playful propensity is exercised toward his keeper, as it often is, it is dangerous. A toss of the head by way of a gambol or exercise may kill a man, and then again a bull that has been pampered doesn't feel like sopping, and is very liable to continue his gambols. A large number of the injuries from bulls are due to these bullish propensities, which are increased by the treatment which they receive. Instead of being kept confined in stables, like prisoners in cells, bulls should be made to work. When young they should be thoroughly broken and kept in obedience, and be taught to mind the word. They are capable of performing hard work, which would not in the least injure them, but would make them better sires than when kept in unnatural confinement. A bull and an ox may be worked together, or two bulls, or a bull may be worked single. I have known them to be used in all these forms, and a single bull, with a collar made to fit his neck and a bit in his mouth, with reins attached, to do as much hauling, attached to a boat or cart as a pair of horses. Thousands of dollars are wasted annually in the shape of useless bull fat and muscle. Bulls are usually kept too fat, especially thoroughbred ones, which stimulates them to be restive and ugly, or at least not so easily managed. With a ring in a bull's nose, and broken to lead, it is very easy matter to bring him to work in the yoke. I have known a pair to be hitched up and taken to the field at once, led by the nose, put to work drawing stones without any leading, and thus really become a serviceable team. Bulls thus handled with plenty of work, will rarely do any injury to persons. A bull will live on coarse fare, and on this account make a cheap worker. He can be made to do more than earn his keep, besides being less dangerous. His stock will be better, and he will be a surer getter. For rough and tough places a bull team is just the thing, as there is no danger of their being injured, and they will save the risks to the horses. Less grain will be required for the horses if the bull is used to do a part of the heavy work. Exposure to storms won't hurt him, which often brings sickness to horses. Better slaves than pets.

Feeding Corn to Swine.

The practice of feeding soaked shell-corn during the summer and early autumn months is one generally followed by the large swine raisers of Illinois. If soaked on the cob the grains swell up and tighten to the cob, so that the pigs experience the same trouble in getting them off that they find with the new corn when it is first fully and firmly ripened; but if first shelled and then thoroughly soaked it is easily masticated, but it is not so palatable and is not eaten with such a relish as new corn while in the milk or doughy state. When feeding soaked corn we have usually followed the practice of alternating it with dry shelled corn, one or two days in the week, and we have thought that our pigs always did better under this practice than when confined exclusively to the soaked corn diet.

Do You Hear?

"My son," said a Little Rock mother, "go down to the grocery and get me a can of condensed milk."
"I should squirm to wiggle," answered the boy.
"Go on, I tell you."
"I should limp to jump."
"If you don't go this instant I'll tell your father when he comes home."
"I should howl to tattle."
"Never mind, sir."
"I should whoop to squeal."
When the father came the mother said: "I wish that you'd whip Tom. He positively refused to go down to the grocery, and told me that I was a tattler, and that he would jump on me."
"Tom."
"Yes, sir."
"What was that you said to your mother?"
"Never said nothin'."
"Then I am a story teller and you are a pretty boy," said the mother.
"Look here, young man, if you don't behave yourself I'll thrash you. Do you hear?"
"I should titter to snort."
"Come here to me sir," and the young man squirmed to wiggle, limped to jump, blew to tattle, whooped to squeal and tittered to snort.

The Fall.

Here is a boy's composition on fall: This is fall, because it falls on this season of the year. Leaves fall, too, as well as thermometers and the price of straw hats. Old toppers, who sign the pledge in summer, are liable to fall when fall cider making opens, for straw which is one of the pleasures of fall; but pleasures isn't good for boys, I don't think. Old men want a little fun; let them husk. A lucky old man can go through a good deal of corn, sometimes. Digging taters is another of our fall amusements. The way I like to dig taters is to wait until they are baked nicely, and then dig them out of their skins. Most winter schools open in the fall. The best winter school I ever went to didn't open until spring, and the first day it opened the teacher took sick and the school house was looked up for the season. Once in a while we have a very severe fall, but nothing like the fall of Adam and Eve in the garden of Eden. Summer is misnamed. It should be called Pride, for doesn't pride go before a fall?

Founder.

A disease that is far too common in horses is caused most frequently by driving or working the animal till he is overheated and more or less exhausted, and then allowing him to cool off suddenly without rubbing dry. A horse is driven for several miles and then hitched to a post in open air in the cold winter weather, and perhaps forgotten by the driver, who may be telling stories or smoking a cigar by a warm fire; the next morning, if not sooner, it is noticed that the animal has not eaten well and can scarcely move from the stall. The lameness may be chiefly in one limb or in more than one. Dr. Cressy, in his recent lecture before the Connecticut Board of Agriculture, said that one case of founder may be cured if taken within thirty hours of the attack. The first thing to do is to place the horse's feet in tubs of warm water and then blanket heavily, and get the animal thoroughly warm all over. The lameness is caused by a stagnation of the blood in the feet caused by being cooled too rapidly after exhausting labor. The warm water thins the blood, extends and softens the blood vessels and favors increased circulation. In very bad cases bleeding in the feet may be necessary, though ordinarily it may be dispensed with.

Knowing the cause of founder, it will be seen that it is much easier to prevent than to cure this disease after it becomes established. In the first place avoid very severe driving and over exhaustion, but if abuse of this kind is unavoidable see to it that the horse who has risked his life in the service of his master is not neglected at the end of his journey. Drive into a warm shed or barn free from cold draughts and rub vigorously till the animal is dried off. Give warm water to drink and cover with warm blankets. In short treat your horse just as you would treat yourself under like circumstances.

WORCESTER'S Quarto Dictionary,
WITH SUPPLEMENT.

Embraces 204 Additional Pages,
-AND-
Contains over 12,500 New Words and a Vocabulary of Synonyms of Words in General Use.

Forming a large, handsome volume of 2008 quarto pages, containing considerably more than 115,000 Words in its Vocabulary with their correct Pronunciation, Definition, and Etymology; to which is appended articles, lists, and tables containing much valuable kindred information.

Fully Illustrated and Unabridged. With Four Full-page Illuminated Plates. Library sheep, Marbled Edges, \$10.

The New Edition of Worcester's Dictionary

Contains Thousands of Words not to be found in any other Dictionary.

"Worcester's is, in the estimation of all scholars, the best dictionary extant for general use. There is certainly no real comparison possible between it and its most popular rival. The office of a dictionary is, of course, not to make innovations, but simply to register the best usage in spelling and pronunciation. This Worcester does, and this its rival conspicuously fails to do."—New York World.
"Years ago Worcester's Dictionary was recognized in England as the best in the United States, as the best in existence by the very best writers and students. It has a still higher claim to this distinction in this new edition, which makes other dictionaries superfluous, and serves also as a cyclopaedia; a text-book on the language, a vocabulary of Greek, Latin, Scriptural, and modern proper names; a collection of proverbs, phrases, and quotations of all languages, and complete collection of English synonyms."—Philadelphia Evening Bulletin.
"This volume may well merit the title of being a perfect book; a book that is invaluable to the student, the man of letters, the philosopher, and the man in active and pressing business."—New York School Journal.

The Complete Series of Worcester's Dictionaries

Quarto Dictionary, Profusely Illustrated. Library sheep, \$10.00.
Universal and Critical Dictionary, 8vo. Library sheep, \$4.25.
Academic Dictionary, Illustrated, Crown 8vo. Half roan, \$1.85.
Comprehensive Dictionary, Illustrated, 12mo. Half roan, \$1.75.
School (Elementary) Dictionary, Illustrated, 12mo. Half roan, \$1.00.
Primary Dictionary, Illustrated, 16mo. Half roan, 60 cents.
Pocket Dictionary, Illustrated, 24mo. 10c. 68 cents; roan, flexible, 85 cents; roan, tucks, gilt edges, \$1.00.

Many special aids to students, in addition to a very full pronouncing and defining vocabulary, make Worcester's, in the opinion of our most distinguished educators, the most complete, as well as by far the cheapest, Dictionaries of our language.
It follows from this unerring accuracy that Worcester's Dictionary, being preferred over all others by scholars and men of letters, should be used by the youth of the country and adopted in the common schools."—New York Evening Post.

BURGESS, Man. Agt., Columbia Factory, N. C. If you write say you saw this in the Globe.

A Book of Ward Originality, entitled PRACTICAL LIFE

The great problem solved. The individual actually engaged from the age of responsibility up to maturity is required to take care of himself. Some of the most important questions are: How to get on in the world? How to make a living? How to get ahead? How to get rich? How to get a good education? How to get a good job? How to get a good wife? How to get a good home? How to get a good name? How to get a good reputation? How to get a good character? How to get a good conscience? How to get a good soul? How to get a good heaven? How to get a good hell? How to get a good life? How to get a good death? How to get a good resurrection? How to get a good judgment? How
