OUR WASHINGTON LETTER.

From our Regular Cor. WASHINGTON, D. C., Jan. 25, '90.

Speaker Reed is every day showing how much he is to occupy his present position, and the republican members of the House are daily whipped into supporting him in his parliamentary decisions.

The House committee on Rules met yesterday and the republican members of the committee, against the protest of ex-Speaker Carlisle, decided upon a schedule of Rules to be reported.

The House has passed the Oklahoma township bill, after nearly a week spent in debating it in committee of the whole.

A Great Injustice.

Much complaint, and justly so, comes up from South Alamance in regard to the manner in which the mail routes have been changed, the removal of post-offices from the old stands and the general mismanagement of the whole thing since the present administration took charge.

The greatest complaint comes from the former patrons of the Curtis Mills and Rock Creek offices. The mail to these offices is carried out from Graham.

As was expected the House committee on Elections has, by a strict party vote, reported in favor of unseating Jackson, the democratic sitting member from West Virginia, and giving the seat to Smith, the contesting republican.

As the new House committee on the former patrons of the Curtis Mills and Rock Creek offices. The mail to these offices is carried out from Graham.

My old dear friend—Me an my wife, Nell, was a tocking on the hard times, an the general late of affairs last night, an Nell, she says, old man, I can't tell kerzactly what makes them times so drotted hard. An, she I, old woman, what is it? An, she she, it's this alford fashin that the nabors has got into of neglectin their farms to be a truckin around, a tradin 'nuthin' for to trade on, an this blasted fashion some fokes have got into a taren up 'n leavin' the country an a movin' to town, whar the think the can live on the wind an the weather, an see she some of 'em come hain a doin' of it, that is, a livin' on the wind an the weather, an cain of the gout, giet as the they know how ter be quality. She-shy, I have known some of the nabors, farmers, in bizzy times, or at least ways when the order be bizzy, to brake off from their work an hitch up their rears an spend from 2 to 4 days to get to town, an they carry about six rabbits, three possums, four duzzen an nine eggs, a pound an a half of butter an three pecks of apples, when the order, by all means, a bin a-plowin, an, she-shy, times an goin to be a wha better ill the nabors larn that if hain't got no time to spend on no sich arrands as what the are so proceed to run after these latter days. Fur, she, an, she, when the order, by all means, a bin a-plowin, an, she-shy, times an goin to be a wha better ill the nabors larn that if hain't got no time to spend on no sich arrands as what the are so proceed to run after these latter days.

Mr. Meade, a native of Brooklyn, N. Y., who has been doing missionary work among the colored people in Randolph county since December, 1885, writes a letter to the N. Y. Tribune recently, from which we take the following:

"Had Mr. Joiner conducted himself in New York as he has in the South, he would have been socially ostracized if he had not received the same treatment he met with in Randolph county. Like Mr. Joiner, I have a child, but I have placed my son in a school among children of his own race, which example Mr. Joiner should have followed.

Mr. Joiner complains of neglect of duty on the part of the officials. Let me say there has been no neglect on their part. The sheriff and several other officers are Republicans, so if there had been neglect, it could not have been laid on the Democratic party of the South as is usually done.

The colored people of Randolph county have their rights and are treated with kindness and respect by the whites. I do not wish to create the impression that mob force is excusable in this county. On the contrary, the outrage on Mr. and Mrs. Joiner cannot be too severely condemned and the citizens do condemn it most heartily, yet it would not have happened had he simply done his duty as a preacher and his wife done hers as a tenc'er.

As a lover of truth and justice and from a feeling of love and gratitude toward my misjudged brothers of the South, I feel compelled to make this statement (which I make of my own free will) trusting you will give it the same publicity you have given the statement of Mr. Joiner.

The people of Randolph are a good loyal people who wish all done for the good and advancement of the colored race that can be done, and at the same time to receive their full share of the North in love and kindness."

Pat. H. Winston, a native of North Carolina, has turned up on top in Washington, having been appointed U. S. district attorney for that State by the president. Pat. was born for luck.

A hospital will be erected in Atlanta, Ga., as a memorial to the late Henry W. Grady. It is to cost \$75,000. A fine brown statue of him will also be placed in the most prominent part of the city. These are the memorial of the great warm-hearted philanthropist Georgeant, his devotion to the restoration of his native Southland and complete reunion of the North and South.

Miss Nellie Bly, a female attachée of the New York World, has accomplished a great feat. She has traveled around the world—circled the globe, and 11 minutes, arriving at New York last Saturday on the home strait, having accomplished the purpose in view—that of making the quickest time on record in encircling the globe.

Yesterday evening an emigrant train, composed of seven coaches full of colored people, and four box cars loaded with their bedding, etc., passed through Durham on their way to Arkansas and Mississippi. While the train was standing at the depot the following conversation was had with one of the white men who had the train in charge:

"Why is it that the negroes are so anxious to emigrate?"

"Because the farmers down East are making no preparations for farming this year, and therefore the negroes can get nothing to do. It's either emigrate or starvation."

"How many have you on this train?"

"Between six and seven hundred, and we left hundreds crying and begging to be let come."

"Do you think they will all be willing to go?"

"Yes. We expect to take every negro out of Craven, Johnston and Edgecombe counties, between now and April."

"They are so anxious to leave, we are informed, that they gave away what they have. This man informed us that in two coaches, which contained near two hundred that there was not four dollars in money, and that they had been furnishing them with rations for the past week till they could get the crowd ready to start.—Durham Sun, Jan'y 27th.

Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, faint, "all gone" feeling, bad taste, constipated bowels, and irregularity of the bowels, are the early symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and gives the system energy, overcoming the local symptoms. Headache, the effects of the disease, banishes the headache, and refreshes the tired mind.

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat was indigestible, and I felt as if I had a stone in my stomach. After eating I would experience a faintness, or tired, all gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room crowded with fresh paint. Last Saturday I took Hood's Sarsaparilla. It took me three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." Simon A. Hays, Watertown, Mass.
