The Democrats of Alamance will meet in mass-convention at the court house in Graham, on Saturday, June 28, 1899, to select delegates to the Judieial, Congressional and State Conventions. The Judicial meets in Greens-boro July 8, the Congressional in Dur-ham July 24, and the State convention in Ruleigh the 20th of August. There should be delegates to these conven tions from every township in the county, and to that end every township must send a delegation as large as possible to the county convention on the 28th of June. Every Democrat is a delegate to the county convention, but to the other conventious delegates must BY ORDER DEM. Ex. COM. ALAMANCE June 16, '90.

la Various Counties of North Carolina COMRADES :- We desire to call your attention to the provisions of our constitution, directing that the annual elections for officers shall take place on the 4th day of July in each year. We carnestly hope that there will be large attendance of veterons at the court house (unless other place of assembly shall be designated), in each county at 12 o'clock on that day, and the regular organization continued and strengthened. If the meeting shall have been arranged for another day, or shall not be held on the fourth of July, it is not material, provided the veter-ans shall be called tog ther at some time.

The executive committee have deter mined to wait no longer for adequate subscriptions, but boldly assume the responsibility of opening a Soldiers' Home for the care of such of our needy and deserving comrades as require to be supported by charity. At present it is probable that the hotel building at Ridgeway, donated by Col. Heck, will be too large for our immediate pur-pose, and we may begin in a smaller way at Raleigh, or some accessible locality.

For the support of this Home we

throw ourselves upon the abounding charity of the people of North Carolina, and we appeal particularly to the members of the Confederate Veterans' Association to see that a proper interest is enkindled in every town and town

We respectfully invoke the aid of the women of North Carolina, foremost in every work of love and kindness, and we ask that the Veterans' Associations of each county constitute a central com-mittee of ladies not less than five in every county town in the state. There is a statute prohibiting cruelty to animals, but unfortunately, it is a dead letter. It is very seldom we hear of any one being punished for such a crime—and crime it is to cruelly treat by beating, over loading or half starving a poor dumb brute. We want to see this law more rigidly enforced. The mad driver jerks on his horse's mouth and leahes and swears at the animal until it gets mad, too, and for the time being neither is responsible. the time being neither is responsible. The weather during the week end

Special reports were received during this week in regard to the condition of the cotton and tobacco crops throughout the State. The cotton crop is everywhere reported to be in remarka-bly fine condition, better than it has een at this season for many years past. There is not a single dissenting voice concerning the splendid prospects for the crop in North Carolina. In the Eastern District there has been a de-crease of a few per cent, in the acreage planted in cotton, in the Central District the acreage planted is fully up to the average, while there has been cousiderable increase in the western por-tions of the State. For the entire State the acreage is probably 107 per cent. The condition of tobacco is fair; n some counties, as L-xington, Rockngham, Surry and Guilford, rather bad, while in others, as Granville, Stokes, Moore, McDowell, etc., it is good. Now Northern Gentlemen Are Received In A Southern City. Notwithstanding so much has been written in regard to the untavorable repeption accorded those from the North who come to live among us, there is not a case on record where a Northrner, who came South for the purpose of making an honest living, has not been hospitably received and kindly treated. Nor has it ever been pro-posed to dictate to the stranger who enter the Southern gates what voca-tion he shall follow. This has always been left to his own judgment, and whenever he has conducted himself where he has conducted anneals as a gentleman should, the question, where he came from, is never asked.
