**GOV. HOLT AT DAVIDSON COL-
LEGE.**

**The Royalty of True Manhood, his
Theme.**

A special to the Charlotte Observer,
on 7th inst., says:

About 10:40 this morning the procession of trustees, faculty, alumni and students formed on the campus and headed by the band, marched to the commencement hall, where ex-Governor Thomas M. Holt, of Haver River, was to deliver the annual literary address. A large audience greeted the distinguished speaker, who was introduced by President Shearer, after Rev. H. T. Darval, of Durham, had opened the exercises with prayer.

Gov. Holt, in the beginning, referred to the foundation of Davidson College by the sturdy Presbyterians of the State in the early portion of the second quarter of the century and referred, in terms of high commendation, to the fact that she was still adhering firmly to the principles of the founders, as was evidenced by the fact that fifty-nine out of 150 of the students now present were preparing to spend their lives in the Christian ministry. Gov. Holt announced as his theme: "The Royalty of True Manhood." He said that he was a plain man of the people and he did not come with polished words to speak to the members of the graduating class, but to speak to them, who were now standing on the broad entrance of struggle, as one who had come from the front. The speaker's address was intensely practical, and yet withal it was presented in both forceful and elegant diction, and showed that the speaker, who has such a wide reputation both as an enterprising manufacturer and as having been one of the most successful Governors North Carolina ever had, was also a man of broad and extended culture. He showed that the main thing is the development of the moral man. It is the character that fixes destiny. He impressed the importance of a young man's making no mistake in entering a profession for which he was unfitted. Let him be original and sincere. Imitation is suicide. Let the lofty spirit be in the man, whether or not it might be manifested for the admiration of the world by some great opportunity. Jackson and Lee were great in soul before their greatness became a nation's heritage. The titles "Governor" or "Senator" could have added nothing to the heroic soul of Joseph J. Davis.

Let self-reliance and self denial be cultivated. Avoid debt, which makes slaves. Only fulfill the end of being in elevating the moral nature, which constitutes true royalty, and then would come the peace that passes all understanding.

The speaker called attention to the opportunities offered in North Carolina for scientific tilling of the soil, for the development of manufactures, for filling the openings for skilled specialists. But above all he commended the calling of those who might point others to the way of eternal life.

The world is broad and there are still opportunities. Parjotium did not die at Therapsylla nor friendship cease to exist with Damon and Pythias, nor did fortitude end when Raleigh laid his brave head on the block. Let none fear there is no field for him but let him enter upon his work determined to do his whole duty and then life will be one long benediction upon himself, his State and his country.

Old Times, Old Friends, Old Love.

BY EUGENE FIELD.
There are no days like the good old days,
The days when we were youthful,
When human kind were pure of mind
And speech and deeds were truthful;
Before a love of sordid gains
Became man's ruling passion;
And before such names and sordid became
Sivars to the tyrant's fashion!

There are no girls like the good old girls,
Against the world I'd stake 'em!
As buxom and smart-and-clean of heart
As the Lord knew how to make 'em!
They were rich in spirit and common sense,
A plenty all 'em!
They could bake and brew, had taught school
And they made the liveliest courtin'!

There are no boys like the good old boys—
When we were boys together!
When the grass was sweet to the brown bare
feet
And the dimpled laughing heather;
When the peewee sang to the summer dawn
Of the bee in the billowy clover,
Or down by the mill the whirring-poor-will
Echoed his night song over.

There is no love like the good old love—
The love that mother gave us!
We are old, old men, yet we pine again
For the precious grace—God save us!
So we dream and dream of the good old
times
And our hearts grow tenderer, fonder,
As those dear old dreams being soothing
Of heaven away if youder.

The Mothers of Men.

The bravest battle that ever was fought,
I'll tell you where and when?
On the map of the world you'll find it not—
'Twas fought by the mothers of men.

Nay, not with cannon or battle shot,
With sword or noble pen;
Nay, not with words of eloquence fraught
From the mouths of wonderful men,
But deep in the walled-up mother's heart
A mother that will not yield,
But patiently, quietly bears her part—
To them in this battle-field.

No marshaled troops nor bivouac song,
No banners that gleam or wave,
But, oh, those battles they just so long—
From babyhood to the grave.
—Joanquin Miller.

System with Cows.

A dog is a useful animal in his proper place. We believe in a good useful canine, in fact we own one; but we think the worst possible use such an animal can be put to is driving cows. Our thoughts are directed to this topic by the remark of one of our many dairy friends on a recent occasion. He trained his dog to chase his cow home, and boasted of the labor the dog saved during the summer. After subjecting our friend to a somewhat close examination we advised him as we do every cow owner to abandon driving cows home with a dog. Worried by a dog causes a nervous cow to abort and frequently causes this condition in cows that are not nervously disposed. Chased from field to stable by a dog, cows become excited and in such state do not yield their milk as freely as if they were in an undisturbed condition.

The lessened quantity means serious loss for that which the cow retains under such circumstances, contains a higher percentage of butter fat than that she has given down in the pail. With a dog chasing cows from pasture to stable, the latter will always have strong odors that contaminate milk. The reason for this suggests itself for every dairyman. Always keep the cows in the yard for ten minutes after their arrival from pasture before permitting them to enter the stable, and immediately after they are milked turn them out. Such a system always secures a clean and odorless stable for the summer, provided it be ventilated daily and the mangers are looked after closely for saliva and unconsumed fodder. —American Dairyman.

Cure of Hoards.

It is easy to spoil a good road after it is made by lack of sufficient care on knowledge of what to do to prevent its rapid destruction. Many miles of macadam is being ruined by continued travel over a single part of it until deep ruts are formed. The highway extending north from Brideport, Conn., is an example. Opened to travel only a year ago, after expensive macadamizing, it is already much worn as the result of neglect on the part of the authorities, and only a thorough course of repairs at once will obviate a great expense in the near future.

Travel should have been encouraged over the whole surface by spreading broken stone on worn places after loosening them up with the pick, or in winter by judiciously piling of the material to prevent following in the old ruts. Constant oversight by competent men will also preserve a good road after it is built and in use. Stone roads should also have an occasional cleaning off of the mud brought on by horses and wheels from side roads not macadamized. If this mud is allowed to accumulate it will threaten the existence of the road by bolding water and encouraging the destructive action of frost. —New York Tribune.

What a Minister Says.

A sensible minister has the following to say of the local newspaper, which will bear careful perusal: "Your local paper tells you when to go to church, to county court, and to send your children to school, or anywhere you want to go. It tells you who is dead, who is sick, who is married, who is born, and many other things you would like to know. It calls attention to public enterprises, advocates the best law and order in the town. It records the marriage of your daughter, the death of your son, the illness of your wife, free of charge. It sets forth the advantages of your town and invites immigration, and is the first to welcome new comers. Yet, in spite of all these benefits, some people say the home paper is not half so good as some other paper that has no interest in their business or success. The home paper is too often neglected by those who benefit by it."

THE WORLD'S FAIR

And American Railways.

The Queen & Crescent Route widely known as the train running the "Finest Train in the South", is the finest to carry everybody from the South to the World's Fair at Chicago. No part of the Southern country is left un-served for by this great railway and its connections. The Through Car System is an admirable exposition of the wonderful capabilities of American railroading. From New Orleans Through Sleeping Cars run daily, morning and evening carrying its passengers via Cincinnati or Louisville, as they may select.

From Shreveport, Vicksburg and Jackson, another Through Sleeping Car Line comes to join and becomes part of the magnificent "Vestibuled Through Trains," which passing through Birmingham and the famous White Valley of Alabama is joined at Chattanooga by the train from Jacksonville, Fla., Boston, Wick and Atlanta, Ga., over the E. T. & Ga. Ry., and proceeds North over the beautiful Cincinnati Southern, through the grandest natural scenery and most attractive historical country in the world, to Oakdale, where another magnificent Pullman car is received, coming from the Richmond and Danville system from the beautiful French Broad country, and Asheville, N. C. and Knoxville, Tenn.

The time to Chicago is made as to afford the most convenient hours for departure from the principal cities and arrivals in Chicago.

Passengers can purchase tickets good over one to the north of the River, and returning via another if they desire a variable route without extra charge. Or they can go via Cincinnati, returning via Louisville, or vice versa.

Round trip tickets on many reduced rates. Agents on the Chicago line will on request assist in looking up rooms or accommodation for visitors to the fair.

Everything that an almost perfect system can devise to deserve the praise and patronage of the traveling public has been provided. Any of the agents of the company named below, will cheerfully give all possible information and assistance.

Are You Going to the World's Fair?

If so, see that your ticket reads via Cincinnati and the C. H. & D. and Monon—the acknowledged "World's Fair Route." The only line of Cincinnati connecting with E. T. & G. and Q. & C. train No. 2, arriving Cincinnati 10:20 P. M. A solid train carrying the "Queen City" to Louisville, Savannah, Birmingham, Atlanta, Chattanooga, Macon and New Orleans via E. T. & G. Q. & C. H. & D. and Monon Route to Chicago.

You can stop over in Cincinnati if your ticket reads via the C. H. & D. and Monon Route, by depositing same with the Merchants and Manufacturers Association, Chamber of Commerce Building, corner of Fourth and Vine Streets, one block from Fountain Square, every day, except on days when it is in the same building. This enables you to visit the picturesque "Queen City" at no additional cost, and special efforts will be made to entertain strangers hospitably and reasonably.

The universal verdict of the traveling public is that the Pullman Safety Vestibuled Trains, running every day, and stopping at the C. H. & D. and Monon, between Cincinnati, Indianapolis and Chicago, are without doubt the "finest" in the world. These trains were specially built by the Pullman Company for this service, and embrace every improvement. Their magnificent coaches, luxuriously appointed, day-coaches, sleeping cars and unequalled dining car service, afford "all the comforts of home."

Leaving Cincinnati at 10:20 P. M., the beautiful Miami valley, and for twenty-five miles the double tracks run through the very front door yards of the finest suburban homes in the country. Beyond Hamilton, Ohio, and the beautiful Miami valley, the line is noted for its scenic beauty.

A stop over at Indianapolis, the capital of Indiana may be obtained
