THE BEST FAMILY MEDICINE

She Has Ever Known. Words of Praise from a New York Lady for AYER'S PILLS

"I would like to add my testimony to that of others who have used Ayer's Pills, and to say that I have taken them for many years, and always derived the best results from their use. For stomach and liver troubles, and for the cure of headache caused by these derangements, Ayer's Pills cannot be equalled."

When my friends ask me what is the best remedy for disorders of the stomach, liver or bowels, my invariable answer is, Ayer's Pills. Taken in season, they will break up a cold, prevent a gripe, check fever, and regulate the digestive organs. They are easy to take, and are, indeed, the best all-round family medicine I have ever known."—Mrs. MARY JOHNSON, 368 Eider Avenue, New York City.

REPUBLICAN NATIONAL PLATFORM.

Favors the Gold Standard and Opposes Free Coinage of Silver. Favors a Protective Tariff and Reciprocity. The Latter Free Trade in Disguise. Favors Bounties, and Condemns the Democrats for Their Opposition Thereto.

It Caters to Women Suffragists and Wins for their Co-Operation Against Democrats and Populists.

Here is the Republican platform adopted at St. Louis last week.

"The Republicans of the United States assembled by their representatives in national convention, appealing for the popular and historical justification of their claims to the matchless achievements of the 30 years of Republican rule, earnestly and confidently address themselves to the awakened intelligence and conscience of their countrymen in the following declaration of facts and principles:

"For the first time since the civil war the American people have witnessed the calamitous consequence of full and unrestricted Democratic control of the government. It has been a record of unparalleled impurity, dishonor and disaster. In administrative management it has ruthlessly sacrificed indispensable revenue, entailed an unending deficit, eked out ordinary current expenses with borrowed money, piled up the public debt by \$262,000,000 bonds in time of peace, forced a balance of trade, kept a perpetual menace hanging over the redemption fund, paved American credit to alien syndicates and reversed all the results of successful Republican rule. In the broad effect of its policy it has precipitated panic, blighted industry and trade with prolonged depression, closed factories, reduced work and wages, halted enterprise and crippled American production, while stimulating foreign production for the individual interest demands that the government shall be rescued from the hands of those who have shown themselves incapable to conduct it without disaster at home and dishonor abroad and shall be restored to the party which for thirty years administered it with unequalled success and prosperity, and in this connection we heartily endorse the wisdom, patriotism and the success of the administration of President Harrison.

"We renew and emphasize our allegiance to the policy of protection as the bulwark of American industrial independence and the foundation of American development and prosperity. This true American policy taxes foreign products and encourages home industry; it puts the burden of revenue on foreign goods; it secures the American market for the American producer; it upholds the American standard of wages for the American workingman; it puts the factory by the side of the farm and makes the American farmer less dependent on foreign demand and prices; it diffuses general thrift and founds the strength of all on the strength of each. In its reasonable application it is just, fair and impartial, equally opposed to foreign control and domestic monopoly. We denounce the present Democratic tariff as sectional, injurious to the public credit and destructive to business enterprise. We demand such an equitable tariff on foreign imports, which come into competition with American products, as will not only furnish adequate revenue for the necessary expenses of the government, but will protect American labor from degradation to the wage level of other lands. We are not pledged to any particular schedules. The question of rates is a practical question to be governed by the conditions of the time and of production; the ruling and uncompromising principle is the protection and development of American labor and industry. The country demands a right settlement and then it wants rest.

"We believe the repeal of the reciprocity arrangements negotiated by the last Republican administration was a national calamity and we demand their renewal and extension on such terms as will equalize our trade with other nations; remove the restrictions which now ob-

struct the sale of American products in the ports of other countries and secure enlarged markets for the products of our farms, forests and factories.

"Protection and reciprocity are twin measures of Republican policy and go hand in hand. Democratic rule has recklessly struck down both, and both must be re-established. Protection for what we produce; free admission for the necessities of life which we do not produce; reciprocity agreements of mutual interest which gain open market to others. Protection builds up domestic industry and trade and secures our own market for ourselves; reciprocity builds up foreign trade and finds an outlet for our supplies.

"We condemn the administration for not keeping faith with the sugar producers of this country. The Republican party favors such protection as will lead to the production on American soil of all the sugar which the American people use and for which they pay other countries more than \$100,000,000 annually. To all market products—to those of the mine and the field, as well as those of the shop and the factory, to hemp, to wool, the product of the great industry of sheep husbandry, as well as to the finished woolsens of the mill—we promise the most ample protection.

"We favor restoring the early American policy of discriminating duties for the upbuilding of our merchant marine and the protection of our shipping in the foreign carrying trade, so that American ships, the product of American labor employed in American shipyards, sailing under the stars and stripes, and manned, officered and owned by Americans, may regain the carrying of our foreign commerce.

UNRESERVEDLY FOR SOUND MONEY.

"The republican party is unreservedly for sound money. It caused the enactment of the law providing for the redemption of specie payments in 1879; since then every dollar has been as good as gold.

"We are unalterably opposed to every measure calculated to debase our currency or impair the credit of our country. We are therefore opposed to the free coinage of silver, except by international agreement with the leading commercial nations of the world, which we pledge ourselves to promote, and until such agreement can be obtained the existing gold standard must be maintained. Our paper currency must be maintained at a parity with gold, and we favor all measures designed to maintain inviolably the obligations of the United States and all our money whether coin or paper, at the present standard, the standard of the most enlightened nations of the earth.

PENSIONS.

"The veterans of the Union Army deserve and should receive fair treatment and generous recognition. Whenever practicable they should be given the preference in the matter of employment, and they are entitled to the enactment of such laws as are best calculated to secure the fulfillment of the pledges made to them in the dark days of the country's peril. We denounce the practice in the Pension Bureau, so recklessly and unjustly carried on by the present administration, of reducing pensions and arbitrarily dropping names from the rolls as deserving the severest condemnation of the American people.

THE FOREIGN POLICY.

"Our foreign policy should be at all times firm, vigorous and dignified, and all our interests in the Western hemisphere carefully watched and guarded. The Hawaiian Islands should be controlled by the United States and no foreign power should be permitted to interfere with them; the Nicaragua canal should be built, owned and operated by the United States, and by the purchase of the Danish Islands we should secure a much needed naval station in the West Indies.

"The massacres in Armenia have aroused the deepest sympathies and just indignation of the American people, and we believe that the United States should exercise all the influence it can properly exert to bring the atrocities to an end. In Turkey American residents have been exposed to the greatest dangers and American property destroyed. There and everywhere American citizens and American property must be absolutely protected at all hazards and at any cost.

"We re-assert the Monroe doctrine in its full extent, and we reaffirm the right of the United States to give the doctrine effect by responding to the appeals of any American State for friendly intervention in case of European encroachment. We have not interfered and shall not interfere, with the existing possessions of any European power on this hemisphere,

but those possessions must not on any pretext be extended. We hopefully look forward to the eventual withdrawal of European powers from this hemisphere, and to the ultimate union of all English-speaking parts of the continent by the free consent of its inhabitants.

SYMPATHY FOR CUBA.

"From the hour of achieving their own independence, the people of the United States have regarded with sympathy any struggles of other American people to free themselves from European domination. We watch with deep and abiding interest the heroic battle of the Cuban patriots against cruelty and oppression, and our best hopes go out for the full success of their determined contest for liberty. The government of Spain, having lost control of Cuba, and being unable to protect the property or lives of resident American citizens, or to comply with its treaty obligations, we believe that the government of the United States should actively use its influence and good offices to restore peace and give independence to the island.

"The peace and security of the Republic and the maintenance of its rightful influence among the nations of the earth demand a naval power commensurate with its position and responsibility. We therefore favor the continued enlargement of the navy and a complete system of harbor and sea coast defenses.

"For the protection of the quality of our American citizenship and for the wages of our American citizenship and for the wages of our Americans against the fatal competition of low priced labor, we demand that immigration laws be thoroughly enforced and so extended as to exclude from entrance to the United States, those who can neither read nor write.

"The civil service law was placed on the statute book by the Republican party which has always sustained it and we renew our repeated declarations that it shall be thoroughly and honestly enforced and extended wherever practicable.

THE BARBAROUS PRACTICE OF LYNCHING.

"We proclaim our unqualified condemnation of the uncivilized and barbarous practice, well known as lynching, or killing of human beings suspected or charged with crime, without process of law.

"We favor the creation of a national board of arbitration to settle and adjust differences which may arise between employes engaged in interstate commerce.

"We believe in an immediate return to the free homestead policy of the Republican party and urge the passage by Congress of satisfactory free homestead measures, such as has already passed the House and is now pending in the Senate.

"We favor the admission of the remaining Territories at the earliest practicable date, having due regard to the interests of the people of the Territories and of the United States. The Federal officers for Territories should be elected from bona fide residents thereof and the right of self-government should be accorded as far as practicable.

"We believe the citizens of Alaska should have representation in the Congress of the United States to the end that needed legislation may be intelligently enacted.

"We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and promote morality.

A LOT TO THE WOMEN FOLKS.

"The Republican party is mindful of the rights and interests of women. Friction of American industries includes equal opportunities, equal pay for equal work, and protection to the home. We favor the admission of women to wider spheres of usefulness, and welcome their cooperation in rescuing the country from Democratic and Populist mismanagement and misrule.

"Such are the principles of the Republican party. By these principles we will abide and these policies put into execution. We ask for them the considerate judgment of the American people. Confident alike in the history of our great party and in the justice of our cause, we present our platform and our candidates, in the full assurance that the election will bring victory to the Republican party and prosperity to the people of the United States."

WEEKLY WASHINGTON LETTER.

From Our Regular Correspondent.

WASHINGTON, D. C., June 19, '96.—President Cleveland's letter stating that he, "as an unflinching democrat who has been honored by his party and who desires hereafter no greater political privilege than to occupy the place of private in its ranks," could not have been surprising to readers of this correspondence, in which it was positively stated, by authority, many months ago that President Cleveland was not and would not be a candidate before the Chicago convention, and that he would whenever he deemed such action desirable write a letter to that effect. What was stated then has now come to pass. That letter has been written. It was not surprising, either, in view of Mr. Cleveland's consistent opposition to silver, that he should have used that letter to make a fresh attack upon the free coinage of silver. There is a very decided difference of opinion among democrats as to what, if any, effect the President's letter will have upon the Chicago convention, and only time will tell which are right. Republicans say they will use the letter as a campaign document if the Chicago convention adopts a free silver platform.

Secretary Lamont probably talks as little to the public ear as any man in public life, but he has a way of accomplishing what he starts out to do that many more talkative men lack. When Secretary Lamont wrote a letter opposing the bill to revive the grade of Lt. General of the army in order that Gen. Miles might be promoted thereto, and giving the reasons for his opposition, many supposed that Congress being anti-administration in both branches would pass the bill just because the administration didn't want it passed, but your Uncle Daniel knew better. If anybody will take the trouble to hunt it down that Miles bill will be found in a committee-room pigeon-hole, nicely covered with dust and cobwebs, and there it will probably remain. You couldn't persuade Secretary Lamont to say a word about it now. He got what he wanted and that ends it with him.

Representative Amos Cummings is admittedly an authority on N. Y. politics. While in Washington this week he said: "I am sanguine that New York will go Democratic this year, it matters not what the Chicago convention does on the financial question. The people of N. Y. state are thoroughly disgusted with the former administrations that have produced the Raines bill and other monstrosities of legislation. They are mad all the way through and 90 percent of them are more interested in turning down a party that encroaches on their liberties and brings back an era of blue law and puritanism than in the platform of a National Convention."

Mr. W. G. Conrad, a banker and cattleman, of Montana, and a good democrat, says of the political situation in that state: "The democrats can carry the state for a silver candidate for the Presidency, and if they combine with the populists, they can elect the Governor easily. They might carry the legislature, too, but that would not be of supreme importance seeing that no U. S. Senator is to be chosen by that body. Gov. Boies seems to be the favorite Presidential candidate out our way; at least we hear more about him than of the rest. If he gets the nomination there is no doubt of his getting Montana's electoral vote."

Never was the result of a National Convention received in Washington with more apathy than that of the one which has been held in St. Louis. Oh course, when one stops to think, that is not difficult to account for. People do not enthuse over the announcement of a cut and dried affair, and the only thing that was ever for a moment in doubt about that convention was who would be the candidate for Vice-President. Clear Reed remained in Washington to hear the news, and if he would only tell what he thinks about it—but he won't.

Democrats do not regard the ticket nominated at St. Louis as a strong one. On the contrary, they think it would have been difficult for the convention to have picked out one that would have been weaker. Aside from the enmity of many of the republican leaders because of the methods adopted by Mark Hanna, McKinley will fail to get the votes of many republicans who regard him as a one-idea man. The bolt of silver republicans because of the financial plank of the platform makes it doubtful whether McKinley can carry a single western state. In short, it is the opinion of the best informed democrats that if the democrats can't beat McKinley they could not beat anybody, and that the republicans have added very largely to the chances for democratic success.

The Ideal Panacea.

James L. Francis, Alderman, Chicago, says: "I regard Dr. King's New Discovery as an Ideal Panacea for Coughs, Colds and Lung Complaints, having used it in my family for the last five years, to the exclusion of physician's prescription or other preparations."

Rev. John Burgess, Keokuk, Iowa, writes: "I have been a Minister of the Methodist Episcopal church for fifty years or more, and have never found anything so beneficial, or that gave me such speedy relief as Dr. King's New Discovery." Try this Ideal Cough Remedy now. Trial Bottles Free at T. A. Albright & Co.'s drug store.

Picking out Layers.

How many poultry men can pick out a good laying hen from a strange flock? Not many can do it; yet it can easily be done after a short study of make up and characteristics, says a writer in Northwest Farmer. There goes a hen with a thick neck, large head, ill-shaped, walks listlessly about, seemingly with no intention or purpose in view. She does not care to scratch, but hangs around the hen house, evidently waiting for her next feed. She gets up late in the morning and goes to bed early in the evening. That hen may be put down as a very poor layer. The eggs of some of the other hens go to help pay her keep. Here comes another. She walks briskly, and there is an elasticity in her movements which shows she has something in view. She is neat and natty in appearance, small head, with a thin neck, nicely arched or curved. She forages or scratches all day long, and may be too busy to come for her evening meal. She is at the door in the morning waiting to be let out, snatches a few mouthfuls of feed and is off to the meadow, looking for insects. Before she gets out in the morning she generally deposits her daily egg in the nest, or returns after a short forage. She is neat, clean and tidy, with a brightness and a freshness pleasant to the eye. That is the hen that pays for her feed and gives a good profit all the year round.

The writer has noticed these traits since boyhood, and knows that they are infallible. By studying these traits, any man may in a few days have a fine flock of hens.

It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a Severe Kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called Kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and Liver troubles and often gives almost instant relief. One trial will prove our statement. Price 50c and \$1.00 at T. A.
