WEEKLY WASHINGTON LETTER

FROM OUR Regular Correspondent.

WASHINGTON, D. C., Dec. 9, '98. Republican leaders are so reticent about the Congressional policy of the party of this session as Mr. McKinley's message was about the policy of the administration towards the territory acquired from Spain, but, young as the session is, one thing has been made plain. That is, that the administration and the leading republicans in Congress have combined for the purpose of preventing an early extra session of the next Congress, if it can possibly be done.

The word has been passed around that all of the regular appropriation bills must be passed as soon as possible, and that no bill likely to provoke extended debate will be pushed by the leaders.

Mr. McKinley did a clever and politic act when he invited Gen. Joseph Wheeler and his daughter to accompany the Presidential party to the Atlanta Peace Jubilee, next week. "Fighting Joe" accepted the invitation.

Gen. Miles' recommendations for the reorganization of the regular army, based upon the supposition that the strength of the army will be increased to 100,000 men, in accordance with the recommendations made by Mr. McKinley and the Secretary of War, contains much that is calculated to arouse antagonism in Congress.

For instance, the proposal to create three new officers, a General and two Lieutenant Generals. Such positions have been created by Congress in the past, but it was done to honor particular officers and the grade was only established temporarily.

The proposition of Gen. Miles, if adopted, would establish them permanently and would put men into them who have earned no special distinction, and there would then be no rank to be conferred upon officers who may hereafter greatly distinguish themselves.

If there is any officer in our army who earned promotion to Lieutenant General, or to General, in the war with Spain, his achievements have not become known to the public.

The claim of friends of General Miles that he was thwarted in every direction and prevented from displaying his military ability by Secretary Alger, is doubtless true, but that certainly furnishes no good reason for promoting Miles to General.

The status of Gen. Miles with the administration is fully shown by the fact that the bills for the reorganization of the army which have been introduced in the Senate by Senator Hawley, Chairman of the Senate Military Committee, and in the House by Representative Hull, of the House Military Committee, ignore the recommendations of Gen. Miles, except as to increasing the army to 100,000 men.

Mr. Hull says the recommendations of Miles are good, but that Congress would not pass a bill containing them, on account of the opposition to creating so many high grade officers.

Representative Hay, of Va., tried to get a peep into the administration's hand, by asking unanimous consent for the consideration of a resolution requesting the Secretary of War to inform the House what towns in the islands of Cuba, Porto Rico, and the Philippines will require to be garrisoned by soldiers of the U. S., and how many soldiers will be required, but there was immediate objection on the republican side, and the resolution went to the committee on Military Affairs, to be pigeon-holed.

Although Senator Vest did not submit this resolution, declaring that under the Constitution this government cannot adopt the European colonial system, but that all territory acquired must be governed with the purpose of ultimately organizing such territory into States for admission to the Union, to any number of his democratic colleagues before offering it, and giving notice of his intention to deliver a speech in its favor at an early day, its underlying principle is endorsed by many democratic Senators.

Already the republicans are saying that Senator Vest will not be allowed to speak on his resolution to open session, because a speech in favor of the resolution will necessarily be against the ratification of the treaty of peace and must be made in secret session.

Although Representative Sulzer, of N. Y., offered a resolution providing for a Congressional investigation of the war, and is a member of the committee on Military Affairs, to which it was referred, he doesn't expect favorable action on the resolution from that Committee, the members of which are under too many obligations to Secretary Alger, for personal favors granted in making army appointments.

Senator Perkins, of California, who probably has more personal knowledge of the Philippines than any other man in Congress says that while he knows little or nothing that is good. He was asked if the trade

Two Pointed Questions Answered. What is the use of making a better article than your competitor if you can not get a better price for it? Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be greater in the aggregate.

How can you get the public to know your make is the best? If both articles are brought prominently before the public will very quickly pass judgment on them and use only the better one.

Sam Harper, colored, returned to Lenoir last Friday or Saturday a week and dropped into Sheriff Boyd's office to congratulate him on his re-election. While there the sheriff drew from a pigeon hole in his desk a warrant he had received the day before, from Randolph county, charging Sam with burglary. Sam was in high spirits when he entered the room but left it with the sheriff for jail in a very different frame of mind. The sheriff says he really was sorry to have to execute the paper under such peculiar circumstances. Sam says the charge against him is not true and if not we trust he will be able to establish his innocence.

How to Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. At druggists fifty cents or one dollar. You may have a sample bottle and a book that tells more about it, both sent absolutely free by mail, if you send your address to Dr. Kilmer & Co., Binghamton, N. Y.
