Our boys are playing a sort of hide and seek game in the war with the Philippines. A city is occasionally taken and the insurgents scattered, but as we have not enough soldiers to guard every place taken our forces vacate and go after other bands of insurgents, when the natives soon get themselves together and re-occupy the lost ground. Thusly the war proceeds with very little effectiveness.

Great Britain and the Boers of the Transvaal are waging grim war, it is presumed. The accounts are meagre as telegraphic communication is almost destroyed; but there is good ground for believing that both will make a determined fight. Other European States strongly criticize Britain, but America can say nothing for fear that the veil will be lifted and the Philippine picture shown her. It's rather humiliating.

For a while it has seemed that no very formidable or organized opposition would be made to the adoption of the constitutional amendment, but as time passes the matter begins to be more and more agitated, until a meeting of the Republican State Executive committee was called to meet at Statesville yesterday to lay plans to oppose more successfully its adoption. To eliminate the race issue from State politics is the desire of no inconsiderable number of highly respectable Republicans, but there are others. These latter have enjoyed the fruits of office and see in the adoption of the amendment the hope of further political advancement vanishing away in the dim future, a spectacle not pleasant to their contemplation. That such may not come to pass the matter no doubt will be hotly contested by them.

SPINNERS PREFER ROUNDLAP BALES.

The Demand in New England and Abroad Largely in Excess of Last Year's.

The spinners of New England, having learned by experience of the advantages conferred by its use, are heavy buyers of The American Cotton Company's Roundlap baled cotton. One Massachusetts mill alone bought 25,000 Roundlap bales the latter part of September, and purposes hereafter using no cotton packed by any other method if it can get enough Roundlap bales to supply its spindles. Another Massachusetts mill has bought 8,000 Roundlap bales this season, and twenty-five other New England mills have ordered smaller lots. The European demand for The American Cotton Company's bales is largely in excess of last season's. Early in October 8,000 Roundlap bales for Liverpool were shipped from Galveston in one steamer. Shipments go forward regularly to Genoa, Havre, Bremen and Barcelona.

During the smallpox epidemic last spring the house of one Nancy Pritchard, on the southern part of Morganton, was condemned and burned by the board of health. Madam Pritchard has brought suit against Burke county and the town of Morganton, claiming damages in the sum of \$3,000.

RICHMOND, Va., June 10, 1898. Goose Grease Liniment Co., Greensboro, N. C.

Dear Sir:—Some time ago you sent me one dozen bottles of Goose Grease Liniment to be used in our stable amongst our horses, and we beg to state that we have used this exclusively since receiving it, and would state frankly that we have never had anything that gave us as good satisfaction. We have used it on Cuts, Bruises, Sore Necks, Scratches and nearly every disease a horse can have and it has worked charms. We need more at once. Please let me know if you have it put up in any larger bottles or any larger packages than the ones sent us and also prices. Yours truly, STANDARD OIL COMPANY, by I. C. West.

The Atlantic Coast Line depot at Palestine, Pitt county, was robbed and burned Sunday morning a week. The robbers secured a package of money containing \$1,800 from the office of the Southern Express Company, which was in the depot. The money was consigned to the Greenleaf-Johnson Lumber Company. The depot was so badly burned to cover up track of the crime.

WEEKLY WASHINGTON LETTER

From Our Regular Correspondent.

WASHINGTON, D. C., Oct. 14, '99. Senator Jones, Chairman of the Democratic National Committee, returned to Washington this week, entirely restored to health. Since his arrival he has familiarized himself with the political outlook and says that the situation in Kentucky, while somewhat involved, is not serious and that he is confident that Goebel will win. Ex-Senator Blackburn, who was in Washington this week for several days says he was never more certain of anything in his life than that Goebel will be the next governor of Kentucky. Senator Jones says that all the information he has had from Ohio has been decidedly favorable to democratic success in the State, and gave this plain talk for the benefit of the kickers in the party: "I consider it the duty of democrats everywhere to stand by the nominees of the party and not to indulge in factional fights. The principles which the candidates represent are far more important than any squabbles among the local politicians, and the defeat of the standard-bearers in this campaign will have a harmful influence in stopping the furtherance of national issues."

Speaking of the proposed removal of headquarters of the National Committee from Chicago to Washington, Senator Jones said that it was a matter that would be left largely to the judgment of Vice Chairman Johnson, who has had charge of the Committee affairs for some months. Of the general outlook Senator Jones said: "Nationally the democratic party is in the best of shape. We have the best of it on all the issues. We are opposed to trusts, and we shall put ourselves on record as being against them. The anti-expansion sentiment is growing every day, and the people know that the democratic party is consistent in its opposition to imperialism. I can only reaffirm the position which was taken before I went away. I cannot see how a man can believe in the Declaration of Independence, and at the same time clamor for the subjugation of a people who are fighting for freedom. The war in the Philippines is wrong in principle and will prove costly in its prosecution. Silver will not be overshadowed by the other issues before the public. It is as vital as ever, and the arguments in its favor have lost none of their force simply because there are other questions also to be considered." Senator Jones will go to Arkansas in a few days, to remain until Congress meets.

Wall street operators always know that when a republican administration is in power they can count upon assistance whenever their manipulations create a stringency in the money market. Consequently they never hesitate to create a stringency if thereby they can secure a profit. It is the old, old story and nobody was surprised at the official announcement, made this week, that the U. S. Treasury had once more lent its aid to the money sharpers of Wall street by deciding to anticipate the payment of the interest upon the entire public debt for the remainder of the fiscal year ending June 30, 1900.

The plans of the administration in the Philippines have not been entirely successful, because the condition of the roads, which has been fully set forth since the abolishment of the press censorship, has made the intended military movements during the present week comparative failures, although the men have been through hardships they are not likely to forget. Although Otis tried to carry out the orders, which were expected to bring results to justify Boss Hanna's claim that the war will soon be over, insinuations are being thrown out in administration circles about his having been too precipitate in trying to move troops with artillery and supply trains before the roads were in better condition. Otis hasn't any admirers to spare, outside the War Department, but there is a general disposition to object to his being made a scapegoat because of his inability, from natural causes, to carry out orders which never would have been issued except for Hanna's report that something must be done to arouse some administration enthusiasm in Ohio.

The war between Great Britain and the Transvaal Republic seems likely to result in giving the commander of the South Atlantic Squadron a prominence that was not thought of when Admiral Schley was assigned to that position. One of the ships of that squadron—the Montgomery—has already been ordered to South African waters to look out for American interests, and it is said at the Navy Department that the Chicago, which will follow as soon as she can be got ready to make the trip, which will be in about two weeks. When Schley starts on that trip he will carry the good wishes of thousands,

who would like to see him win new honors, and who know that he will do so if the opportunity offers.

Gen. Carr Offers a Prize to Writers of N. C. History.

To promote the study of North Carolina history and to encourage our making a home literature, General Julian S. Carr has offered a prize of \$100 for the best compend or epitome of any decade of our State's history within the period embraced between the years 1782 and 1882.

The contest is open to any resident North Carolinian. No more than fifty will be allowed to enter and these will be the first who apply. The sketches must not exceed twenty-five pages—400 words to the page. They should be written in simple, direct and logical style, for style as well as facts will count in this contest—the purpose being to cultivate both a literary and historical spirit. The prize sketch and some of the best of the others may be published.

In compliment to the efforts of North Carolina Publishing Society, of Raleigh, N. C., in behalf of the history and literature of our State, Gen. Carr has asked that the contest be conducted under their auspices and that all communications on the subject be addressed to them.

The following shall be a sufficient form of application to enter the contest: I, \_\_\_\_\_, of \_\_\_\_\_ county of \_\_\_\_\_, a resident North Carolinian, apply to enter the contest for the history prize offered by General J. S. Carr. The decade I have chosen is that between \_\_\_\_\_ and \_\_\_\_\_; and I agree to diligently study it and submit a typewritten compend thereof, done to the best of my ability and according to the rules and requirements of the contest.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs she was treated for a month by her family physician, but grew worse. He told her that she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use, and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was. Free trial bottles of this Great Discovery at T. A. Albright's drug store. Large bottles 50 cents and \$1.00.

Brick Church Items.

The weather is fine and the farmers are gathering their corn and sowing seed.

Our boys, who work so faithfully for the Greensboro nurseries, will start this week to finish their year's work.

Mr. A. H. Fogleman has bought from Mr. L. B. Holt a big farm, which lies near the Alamance Battle Ground.

A Virginia Co. is thinking of putting a saw mill in this neighborhood, to cut up hickory, persimmon, white oak and dogwood timber.

A protracted meeting will be held here the third Sunday in November. The pastor, Rev. Stauffer, will be helped by his brother from Pennsylvania.

Mr. Wm. S. Clapp, a bright Alamance boy, will teach the public school at the Shoffner school house. We wish to see him meet with success.

The Presbyterian Synod of North Carolina met in Asheville last week and organized by electing Rev. Wm. Black moderator, and Revs. C. Alexander and P. R. Law clerks. On the second day of the session Raleigh was chosen as the place of meeting next year.

If all nursing mothers could only know the true worth of Mrs. Joe Person's Remedy, a world of suffering and trouble would be saved. It is the greatest medicine I ever tried in my life. I have a large family of children, and I do believe I am indebted to Mrs. Person's Remedy for having raised them all. When anything is the matter with my children I give them the Remedy, and there is never any need to give them soothing syrup, paregoric and things of that kind. The Remedy keeps them well and healthy, especially when teething, and they never need anything else. One of my babies had sore eyes, so that the eyes had to be kept stashed all the time, and the Remedy cured her. I cannot say too much for it. If everybody knew what it would do, and try it, a world of suffering would be saved.

Mrs. W. H. Holt, Graham, N. C., July 15, 1897.

The work of recruiting for the United States army in the State is ended. North Carolina, as usual on such occasions, has furnished more than her quota of men and Uncle Sam has about all the soldiers that he wants for the present.

On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. Church, South, Pt. Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I must cheerfully recommend it to the public." For sale by all druggists.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but a local inflammation of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free. J. C. HENNEY & CO., Toledo, O.

Sold by Druggists, etc. Hall's Family Pills are the best.

Avery Kale, the condemned murderer now in jail at Newton, who was recently respited for 30 days, is to be hanged to-day. There seems to be no hope that the Governor will commute his sentence.

Hamilton Clark, of Chauncey, Ga., says he suffered with itching piles twenty years before trying DeWitt's Witch Hazel Salve, two boxes of which completely cured him. Beware of worthless and dangerous counterfeits. Simmons, the druggist.

During the winter of 1897 Mr. James Reed, one of the leading citizens and merchants of Clay, Clay Co., Va., struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whisky in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Pain Balm is unequalled for sprains, bruises and rheumatism. For sale by all druggists.

Ex-Gov. Elias Carr is seriously ill at his home in Edgemont county.

"DeWitt's Little Early Risers did me more good than all blood medicines and other pills," writes Geo. H. Jacobs, of Thompson, Conn. Prompt, pleasant, never gripe, they cure constipation, arouse the torpid liver to action and give you clean blood, steady nerves, a clear brain and a healthy appetite. Simmons, the druggist.

"Strike For Your Altars and Your Fires." Patriotism is always commendable, but in every breast there should be not only the desire to be a good citizen, but to be strong, able bodied and well fitted for the battle of life. To do this, pure blood is absolutely necessary, and Hood's Sarsaparilla is the one specific which cleanses the blood thoroughly. It acts equally well for both sexes and all ages.

Who have scrofula taints in their blood, and who has not? Scrofula in all its forms is cured by Hood's Sarsaparilla which thoroughly purifies the blood. This disease, which frequently appears in children, is greatly to be dreaded. It is most likely to affect the glands of neck, which become enlarged, eruptions appear on the head and face, and the eyes are frequently affected. Upon its first appearance, perhaps in slight eruptions or pimples, scrofula should be entirely eradicated from the system by a thorough course of Hood's Sarsaparilla to prevent all the painful and sickening consequences of running scrofula sores which drain the system, sap the strength and make existence utterly wretched.

We expect our purchases to reach nearly one half million pounds, so if you sell with us you get the benefit of one more straight out buyer as we shall confine our purchases entirely to our own floor. We invite every farmer who visits our market to attend our sales and they will be convinced of the above statements, and we believe after seeing for themselves by attending our sales from day to day when on our market, they will favor us with their trade. To those who have never sold with us, we will say: If you will bring us or ship us some of your crop this season, we will prove to you that it will be to your interest to patronize us in the future as our efforts to obtain for you the very highest prices shall not be surpassed by any one on this or any other market. Again thanking all for past favors, hoping in the future we may be favored with your custom and support, we remain, Truly your friends, J. H. WHITT & CO.
