The chapter of holiday accidents is growing: When the returns are all in the list will be as long as usual, no doubt.

Students of agricultural colleges in the Southern States are that there is no better section of the country for profitable dairying and stock raising.

Some of the finest dairy herds in the country are found in the extreme Southern States and dairying is more profitable there than in the cooler sections where dairying is so commonly carried on.

Perhaps the greatest benefit that can come to the South through the promotion of dairying is the increased fertility of the land.
