

THE GLEANER.

ISSUED EVERY THURSDAY. J. D. KERNOLLE, Editor. \$1.00 A YEAR, IN ADVANCE.

A bill has been introduced in the Legislature to put the county officers of Alamance on salaries. We have not seen the bill, but understand that it fixes the salaries as follows: For Sheriff \$2,000 and deputy \$1,000; for Register of Deeds \$1,000 and deputy \$600; for Clerk of Court \$1,500; for Treasurer \$900, and for an auditor.

The State Dispatch has turned its gun from salaries and leveled it at the editor of this paper. Why not keep up the fire for economy? Did not its postmaster editor take a hand in naming the compensation for the county officers and help to put them all the way down from two-thirds to one-third of what he receives for occasionally peeping into his post-office?

The Federal government wants North Carolina to settle off certain bonds, and Senator Overman wants the government to settle in claims in favor of the State. Right. It's as fair one to settle as for the other.

The Legislature is on its last legs—the pay stops this week. Not much of State-wide importance has been accomplished.

By refusing to allow the railroads to advance freight rates, the Interstate Commerce Commission saved \$27,000,000 to shippers. That's quite an item.

This Congress will not provide for the election of U. S. Senators by popular election.

Senator Lorimer of Illinois will retain his seat, so says the Senate by a vote of 46 to 40.

The New Electoral College and the Political Division.

Richmond Times-Dispatch.

The new electoral college will consist of 529 members. The States that are surely Democratic will have 160 representatives in the college, while the States that are almost, if not quite, so surely Republican will have 338 representatives. The doubtful States will have 131 electors. There are twelve of these States—Colorado, Idaho, Indiana, Missouri, Montana, Nebraska, Nevada, New Jersey, New York, Utah, West Virginia and Wyoming. The Democrats, to be successful in the next presidential election, must capture 105 votes from the doubtful column, as 295 votes will be necessary to elect. They must carry New York, New Jersey, Indiana, Missouri and West Virginia, and at least two of what are called the "sagebrush" States. If they lose one of the doubtful larger States, they will lose the election, unless they can capture some of the States which are regarded as certainly Republican.

It is generally admitted that the Democratic victories at the recent elections were the result of Republican disaffection rather than of actual Democratic strength. In New York State, for example, 25,000 Republicans stayed away from the polls altogether. In Ohio not less than 100,000 Republican voters sulked in their tents, and so it was in nearly all the States where the Democrats won. The party is on trial, and it must make good now or be prepared for defeat next year. At the Baltimore meeting Mr. Clark and Senator Bailey and the other speakers made this point very clear.

Mrs. Gus Joseph, postmistress at a small office near Kansas City, Mo., was robbed of \$10,000 Saturday by highwaymen.

Edward M. Shepherd has retired from the race for United States Senator from New York to succeed Chauncey M. Depew.

Gary Gist, colored, aged 23, tried to criminally assault a prominent white woman in Spartanburg, S. C., Saturday. He was arrested by a posse and placed in jail.

Mrs. Malvina Drummond, formerly Mrs. Marshall Field, Jr., of Chicago, was robbed of \$130,000 worth of jewels while on a steamship out from New York Sunday.

Washington Letter

WASHINGTON, D. C., Feb. 28 1911

Less than a week of the session remains and Congress will doubtless crowd as much legislation as possible in the final Saturday, and probably move the hands of the clock backward in order to secure a few minutes more time. The President will be busy on March 4th, affixing his signature to the delayed bills. Congress is working frantically in order to finish things before twelve o'clock March 4th. Men, legislators, statesmen, making laws for the greatest nation of the world, fritter the early days of the session most frivolously and then do hurry-scurry work in final fleeting minutes. So it has been, so it is, so it will be.

Whether there will be an extra session called immediately after March the 4th depends entirely upon the action of Congress on the reciprocity agreement which the President has made with the Canadian government. Much of the time of Congress has already been taken up listening to the selfish plaints of isolated interests interested that have so long been favored that they imagine themselves the people and the nation. They are active and loud and like a scant brigade marching around a hill, by their activity and noise make an impression upon a one-side onlooker of the whole army. They have their representatives in both houses of Congress, too, though some of them will not stay much longer. Bellweather Aldrich is at a southern resort having, as he says, the time of his life, and Bellweather Hale of Maine has just seven days more, but he is playing his role of obstructionist and will play it till the curtain falls. There will be no encores as far as he is concerned. After he is out of the Senate his inability to learn or forget will hinder progress no more.

Much precious time has been wasted this session on the Lorimer case, and that portion of the Senate gallery occupied the past week by impressionable ladies was a scene of fashion and of tears when Senator Lorimer pleaded his case for four hours and rehearsed his career from bootblack to the Senate and explained how his success in politics and his election to the Senate was to be ascribed to popularity won by his kindness to Jew and Gentile alike. Incidentally he disclosed what kind of a statesman he is by saying that Senator Aldrich was his bellweather and that he always voted the way he did. It has long been known by the wise that in the Senate little Rhode Island swung some of the larger states, but a confession direct from Illinois may be edifying to stalwart doubters.

The Japanese war scare will not down. Representative Hobson parades it in the House and says there will be war with that country in ten months or long before the completion of the Panama Canal. It seems that our treaty with that country of 1894 is about to expire and that the President has submitted to the Senate the text of a new treaty with Japan. Protests from California against this treaty are coming in. It appears that the exclusion clause preventing the importation of Japanese coolies or laborers is omitted from this new treaty. The situation is ugly, no matter what view-point one may have. San Francisco, the nerve-center of the Pacific slope, is the most intensely union-labor bestridden city in the hemisphere, if not in the world. Two years ago it came near disrupting our peaceful relations with Japan by the exclusion of Japanese children from the schools. Now, after securing from Congress its approval of San Francisco for the International Exposition, it is foremost in alienating Japan on whom in great part the success of the Exposition will depend.

The chief signal officer of the army, General Allen, is disposed to make prompt use of the twenty-five thousand dollars appropriated in the army bill for the purchase of flying machines. This country has been behind European countries in the adoption of aeroplanes for military purposes. France is the leader in the art, and now has a fleet of more than thirty fliers manned by thoroughly trained aviators. It has appropriated one hundred million francs for improvements in military aviation. As many as seven types of aeroplanes are used in the French equipment. Besides there are hundreds of aeroplanes owned by private individuals and should the time come for military operations, the French army would be strengthened by the skilled owners of these private flying-machines.

In passing the sundry civil bill, carrying approximately \$140,000,000, tonight, the House of Representatives made a new record. Never before in the memory of capital attaches has the sundry civil bill, the biggest of all the supply bills, been put through the House in two days under the general rules and without a "gag" of any sort resorted to. This fact is taken as another evidence that the House is doing all it can to avoid an extra session and is anxious to get the last of the appropriation bills in the hands of the Senate in ample time to permit of their consideration. Only the general deficiency bill remains to be passed by the House, constituting what is believed to be another new record, the House passed \$67,000,000 of the total in the sundry civil bill by "unanimous consent."

Under a blistering fire of condemnation from House international peace theorists, the preliminary appropriation for the fortification of the Panama canal by the United States, strongly advocated by President Taft, tonight passed the House by the decisive vote of 123 to 8.

The money allowed for this purpose is \$3,000,000 of the total of \$11,000,000 which such fortifications are to cost under the revised plans of the general army and navy board of experts, appointed by President Taft. Both the President and Colonel Goethals, engineer of the canal, have announced that the work of fortification shall be pushed to early completion. It will begin as soon as the money becomes available January 1. Colonel Goethals proposes to have the canal fortified by September 1, 1915.

Review says

Will Adams killed Oscar Shiffman almost instantly at the Sadler rock quarry Wednesday afternoon and a coroner's jury, after hearing the evidence and investigating the affair, returned a verdict that the homicide was justifiable. Both negroes and the trouble was about a woman. Adams was sick in bed and Shiffman went to his shanty, knife in hand, to attack him. Adams thereupon pulled a gun and shot Shiffman.
