The Fruit Crop Very Short.

State Horticulturist W. N. Hutt has submitted his estimate of the fruit crop of North Carolina in a report to the State Board of Agriculture. The report is based upon replies to about 1,500 circular letters, which were mailed to fruit growers in all parts of the State.

Taking the State as a whole the apple crop appears to be only about 33 per cent. There were replies from 66 counties which grow apples. In none of the well known apple growing counties is more than a 50 per cent. crop reported. The best crops are reported in Alexander, Wilkes, Surry, Haywood, Buncombe, Henderson and Yancey. The shortage of the crop is due to the very cold weather in the spring, followed immediately afterward by hot dry weather.

The people may find some consolation, however, in the fact that the blackberry and persimmon crops are reported prosperous. There is only about an 8 per cent. crop of pears, with peaches estimated about 15 per cent. The grape crop is reported in fine shape and about an 80 per cent. crop may be expected.

In the strawberry section the cold weather of the spring, followed by a drought and hot weather, cut the crop short. However, very satisfactory prices were realized for the berries gathered. The dewberry crop, now assuming commercial proportions in some of the eastern counties, is reported in good condition. Picking of the berries has just begun. Sampson county's huckleberries also see a number among the more promising crops.

The cereal crops, such as corn, wheat, oats, etc., are reported in a fine condition in this State, the dry weather in some places holding the crop back a little late. The tobacco crop will likely be short, while the cotton acreage is somewhat increased.

A citizen of Monroe township, says the Monroe Enquirer, "gives in \$78 worth of property for taxation and \$50 of that amount is in dog." A citizen who has \$50 worth of dog and only \$28 worth of other property would seemingly fall in the class of "undesirable" citizens, but he should at least be commended for listing his dog or dogs for taxation, even if we can't commend the judgment that invests so much of one's holdings in canines.

Your Neighbor's Experience.

How you may profit by it. Take Foley Kidney Pills. Mrs. E. G. Whiting, 360 Willow St., Akron, O., says: "For some time I had a very serious case of kidney trouble and I suffered with backaches and dizzy headaches. I had specks floating before my eyes and I felt all tired out and miserable. I saw Foley Kidney Pills advertised and got a bottle and took them according to directions and results showed almost at once. The pain and dizzy headaches left me, my eye-sight became clear and today I can say I am a well woman, thanks to Foley Kidney Pills." Sold by all Druggists.

Buck Robertson, aged 21, son of Geo. E. Robertson, a wealthy farmer of Knightdale, Wake county, was killed Sunday night a week by H. W. Montague. Robertson is alleged to have insulted Montague, who was driving with Robertson's sister. Robertson opened fire and Montague sitting by Miss Robertson in the buggy, returned the shots with deadly effect. Montague, who was slightly injured, surrendered.

Increased Value of Farm Products in North Carolina.

That within the past ten years North Carolina has advanced 129 per cent. in the value of farm products, is a significant feature of the annual report of Commissioner of Agriculture W. A. Graham to the State Board of Agriculture. The increase has been from \$53,000,000 farm product value in 1900 to \$122,000,000 in 1910. With this statement he also points out that in 1900 there were held in the State under the auspices of the Agricultural Department only 20 farmers' institutes, whereas there were held during 1910 over 400, the increase having been gradual through the decade. He congratulated the board on discontinuing expensive and unprofitable exhibits at great expositions and expending revenues in direct effort with the farmers to improve their methods.

The commissioner reports receipts of the department from the 20 per cent. tonnage tax on fertilizer tags an 1 other sources for the six months ending June 1st to be \$170,194, with a balance in the treasury of \$58,040. The sale of fertilizer tags represents a total tonnage of 683,247 tons sold in the State for the six months. The receipts from the oil division, which go into the general fund of the State Treasury, are not included in the department receipts. This division brought in \$26,163 for the six months. The expense of the division was \$12,216, leaving a balance net profit to the State of \$14,000.

Was Fight For Life.

It was a long and bloody battle for life that was waged by James B. Mershon, of Newark, N. J., of which he writes: "I had lost much blood from lung hemorrhages, and was very weak and rundown.
