## IT COSTS MORE TO LIVE.

Prices Higher in 1910 Than in 1909.

Washington, July 10.—The high cost of living is no myth. An investigation by the bureau of labor of the prices of 237 commodities during 1910, shows the wholesale prices in that year were 4 per cent. higher than in 1909, and 1.6 per cent. above the average of 1907, which was the year of highest prices since 1890. In view of the Canadian reciprocity discussion an interesting item in the bureau report shows that the wholesale price of farm products was 7.5 per cent. higher in 1910 than in 1909.

Wholesale prices in 1910 were 19.1 per cent. higher than in 1900; 46.7 per cent. higher than 1897, which was the year of lowest prices between 1890 and 1910; 16.6 per cent. higher than 1890 and 31.6 per cent. higher than the average high prices between 1890 and 1899.

The highest prices in this decade were reached in October, 1907, when a general decline began which continued until August, 1908. A rise then set in and there were monthly increases without a break up to March, 1910, when wholesale prices reached the highest point in 20 years. They were then 21.1 per cent. higher than the average of 1900, 49.2 per cent. higher than the yearly average of 1897, and 33.8 per cent. higher than the average price of ten years between 1890 and 1899.

Then followed a slight decline, and from June to December, 1910, prices remained nearly level and at the close of the calendar year 1910, they were still 30 per cent. higher than the ten year average between 1890 and 1900, and 45.4 per cent. higher than the record set by the low price year of 1897. Of the 237 commodities considered in the investigation 148 showed an average increase; 26

showed no change and 83 showed decreases.

Prices of lumber and building materials increased 10.7 per cent; farm products 7.5 per cent; drugs 4.1 per cent; food stuffs 3.2 per cent; clothing 2.7 per cent, and the miscellaneous group of commodities 5.7 per cent. House furnishings decreased 0.1 per cent, and fuel and light 3 per cent.

Cotton showed the highest average growing condition of any crop on July 1, with lemons and oranges ranging second and third. In its general review of the crop conditions for June the bureau of statistics of the Department of Agriculture says the month of June was decidedly unfavorable for growing crops in most parts of the United States. The aggregate condition of all crops on July 1 was 10.7 per cent. below the average condition, whereas on June 1 conditions were only 2.8 per cent. under the average.

## Real Manhood and True Worth Being Recognized.

Marshallville Home.

One of the most encouraging signs of the day is that real manhood and true worth is coming to the front—that the world is learning to trust and honor a man for what he is, rather than for what denominational creed he happens to belong to or what school of partisan politics he associates himself with. Character and ability are the only true tests of any person. The others are non-essentials. It is a dangerous thing to give a man or woman a position of trust simply because he or she holds certain political views or is identified with a particular religious denomination. Yet there are people so narrow and little and "swunk up" that they are willing to sacrifice those traits of character and marks of ability that would fit a person for a big responsibility for the sake of denominationalism or political references. Such an one is a menace to a town or community and isn't fit to have anything to do with electing or employing a person to fill a public office or position. Don't understand us to be arguing against church work. We believe in that good and strong, but it is the little ideas that we are the whole thing—that that Phariseeal feeling—that we are arguing against, and this writer thinks mighty little of it, too.

### Kill More Than Wild Beasts.

The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust, even food. But grand protection is afforded by Electric Bitters, which destroy and expel these deadly disease germs from the system. That's why chills, fever and ague, all malarial and many blood diseases yield promptly to this wonderful blood purifier. Try them, and enjoy the glorious health and new strength they'll give you. Money back, if not satisfied. Only 50c at Graham Drug Co's.

## Do Something for Your Town.

Maxton Scottish Chief.

One man cannot make a town. The newspaper cannot do it. But one man on a newspaper with the help of the wide-awake men of the place all pulling together, can make a wide difference in the place. Every man who succeeds in a town is a help to it. The more money he makes, if he spends it, the better for the community. The larger business he builds up, the more he advertises, and hence the more attention he brings to the town. A man cannot build up an honorable business in the town without helping the country. The interest of one is the interest of all.

No town will become a business center so long as its business men rely upon a few merchants to make the effort to bring trade to the town. Too often the men in a few lines of trade are about the only ones that reach out for custom. Other merchants will wait until these men have induced the people to come to town and content themselves with trade that naturally drifts to their place.

A public spirited man should ask himself if he is doing his part in attracting people to town to trade.
