More Than a \$1,000,000 Increase.

The Equalization Board met yesterday and gave the final hearing of complaints of valuations for taxation, all of which were disposed of—there were not many. Under the new assessment the increase for taxation aggregates \$1,027,000 in round numbers over the valuation for last year. On account of some corrections to be made the total may vary from two to three thousand dollars. The increase is in keeping with the published reports from other counties so far as heard from.

By far the largest increase of values comes from Burlington township, aggregating more than \$350,000. The Board of Aldermen of Burlington, suspecting the advance in that city and township was out of proportion to the assessments in other townships, and came before the Board and expressed itself as satisfied.

So far as learned the assessments meet with general satisfaction. Of course there are a few dissatisfied ones—there always are, and their complaints may be just. But the small number of complaints speak well for Capt. S. H. Webb, the County Assessor, and his township assistants, who have performed an arduous task, and something of a thankless job when the fact that an advance in values means that the owners will likely be called upon for more money in the way of taxes.

In a number of other counties thousands of acres of unlisted lands have been found, but the work has been so well done in this county heretofore that Capt. Webb does not believe there will be as much as 500 acres of unlisted lands.

Wheat Prizes and Farmers' Institutes.

The Committee who has in charge the line of prizes to be given to the wheat growers of the County under the direction of the Farmers Institute Committee will meet in Graham next Saturday, the 22nd, to announce the prizes, and with these prizes they expect to serve two objects: 1st, to stimulate the production of wheat—of better wheat—of more acreage—and more yield to the acre.

Some of the mills of the county are now shipping flour to their customers in the large towns of the State by the car load, but made principally from northern or western wheat. This is essentially a grain producing county and should supply our mills. This county should produce thousands of bushels of No. 1 wheat where it is producing hundreds of No. 2 of this profitable cash crop—and it is a cash crop.

2nd. These prizes are also expected to stimulate the interest and attendance of the Farmers Institute and every farmer, whether he learns anything or not, by discussing or hearing discussed the very topics he is interested in, gets an enthusiasm for his work that is very essential to his success.

The speakers will be men and women especially fitted to discuss the topics assigned them and they will have ideas to put before you that are worth listening to. There will be specialist along different lines and will be glad to answer any question you may want to ask—have your question ready.

The business men of the county who recognize that the foundation of their success is the success of the farmer should encourage these institutions in every possible way.

And you, Mr. Farmer, if these institutions are doing a good work, and they are, should recognize that your duty to yourself, to your neighbor and to your county demands that you go to these institutes and try to induce your neighbor to do so. Their success depends on you.

Bad Spells
 "I suffered, during girlhood, from womanly weakness," writes Mrs. Mollie Navy, of Walnut, N. C. "At last, I was almost bed-ridden, and had to give up. We had three doctors. All the time, I was getting worse. I had bad spells, that lasted from 7 to 23 days. In one week, after I gave Cardui a trial, I could eat, sleep, and joke, as well as anybody. In 8 weeks, I was well. I had been an invalid for 5 weary years! Cardui relieved me, when everything else failed."
TAKE CARDUI The Woman's Tonic
 If you are weak and ailing, think what it would mean, to you, to recover as quickly as Mrs. Navy did. For more than 50 years, this purely vegetable, tonic remedy, for women, has been used by thousands of weak and ailing sufferers. They found it of real value in relieving their aches and pains. Why suffer longer? A remedy that has relieved and helped so many, is ready, at the nearest drug store, for use, at once, by you. Try it, today.

—Mr. M. C. McBane, of Mandale, accompanied by his 13 or 14-year-old son, came up on Monday last week to attend a meeting of the Board of Equalization. He drove a young horse, which took fright at some cows kicking up a cloud of dust just outside of town and tried to run away. Father and son swung to the lines. Mr. McBane got out finally and took hold of the bridle. He was dragged some distance, but prevented a runaway. At the end of the episode he was picked up in an exhausted condition. Upon examination his left shoulder was found to be dislocated. He was taken to Mr. A. R. Flinnom's and a physician was called in and set the limb in place. Mr. McBane suffered a great deal from the effects of the dislocation. Mrs. McBane came up and spent two or three days with him and he returned home Sunday. We trust he will soon recover from his injuries.

Deafness Cannot be Cured
 by local applications, as they cannot reach the diseased parts of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by a diseased condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound and imperfect hearing, and when it is entirely closed deafness is the result. Catarrh of the Eustachian tube is not a permanent condition, hearing will be restored forever; nine cases out of ten are cured by catarrh, which is nothing but an inflamed condition of the mucous lining of the Eustachian tube.
 We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

The repayment to the Southern States of more than \$68,000,000 collected by the government between 1862 and 1868 as a tax on raw cotton, is provided for in a bill introduced by Congress Saturday by Representative Clayton, of Alabama. Similar efforts to recover this tax have been made many times by other Representatives of Southern States.

Kidney Diseases are Curable
 under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. Pitman, Dale, Tex., says: "I was down in bed for four months with kidney and bladder trouble and gall stones. One bottle of Foley's Kidney Remedy cured me well and sound." Ask for it.
