Send One Dollar to Contributors' Wilson and Marshall League and Get Certificate For Framing.

The Contributors' National Wilson and Marshall league has been organized with W. G. McAdoo, vice chairman of the national Democratic committee, as president, Charles R. Crane, vice chairman of the finance committee of the national Democratic committee, as treasurer and Stuart G. Gibbony as secretary for the purpose of alding in raising funds for the national campaign by popular subscription.

In furtherance of this purpose lithographed certificates have been prepared, suitable for framing, on which are engraved portraits of Governors Wilson and Marshall and their autographs and which certify that the holders have contributed to the national Democratic campaign. The denominations of these certificates are \$1, \$2, \$5, \$10,

\$25, \$50 and \$100.

The league supplies these certificates to clubs in large numbers, so they may be issued when contributions are made. It is believed the solicitation of funds will be greatly aided by this method.

The name and address of each contributor should be forwarded to the Contributors' National Wilson and Marshall league, room 1,368, Fifth Avenue building, New York city, where a complete record of all contributors will be

WHY CRIMMINS IS FOR WILSON

Philanthropist Calls Taft and Roosevelt Protectors of Trusts.

Bays No One Can Safely Challenge th Soundness of the Views or Leader-ship of Wilson and Marshall, Who Have Been Before the People.

By JOHN CRIMMINS.

At the outset of an argument in rela president and vice president we mus view what has caused the great uprising in the country in connection with our economic affairs and the adminis tration of our government in so far as it relates to that subject. There is no defence offered for the

extensive privileges created by the tariff preferences through the Republican party and the favors to the privileged classes and corporations.

While wealth has accumulated under these preferences, a fair field and no favor has been denied to the masses. We cannot expect remedies from men high in office who in their entire. life work have been associates and participants with the favored class. Mr. Roosevelt during his entire career in politics and as the head of his ring tariff iniquities and in ties. Mr. Taft in his acts and utter-ances is a party man, believing in a protective tariff, and would, if elected, defend what to many minds is the su-

In Mr. Wilson and his associate, the candidate for vice president, we have two men who have had no associations with the privileged class, who have never been in a position to grant or accept favors or to participate in any measure that could possibly relate to measure that could possibly relate it their personal welfare or increase their incomes. In the respective professions that these two gentlemen have occupied they have been day laborers, working at their desks as many hours as the workman who is industrious and faithful to his task.

many hours as the workman who is industrious and faithful to his task. The very fact that they have been selected as candidates for the office of president and vice president of these United States is an illustration of one of the great boasts of the American people that the man who is faithful to his trust, honest in his work, fearless and courageous in his opinioss, will in time be noticed and receive a reward. They have watched with concern every side of our political life, that enters into the government of our people, voicing their approval or disapproval of situations as they arose.

Are Typical Americans.

No one can safely challenge the soundness of their views or their leadership where economic questions enter into our governmental affairs. They are typical Americans.

Governor Wilson and Governor Marshall have both been before the people when they received the approval of a majority of the citizens of their respective states for the high office of governor. If it be the good fortune of the country to have these two gentlemen occupy the presidency and vice presidency of these United States we have the assurance that in their deeds and acts they will labor to remove the unrest that has been created in the administration of our governmental affairs and that there will be equal laws for all the people and not special laws and special protection, and that the sighest ideals of a government of the scople, by the people and for the people will be brought into fullest realization.

The Chamber of Commerce has arranged with Mr. F. S. Puckett, of Raleigh, Assistant Director of the State Test Farms, to bring the State Test Farm Exhibit to Bur-

The Exhibit is installed in a passenger car and will arrive on train No. 108 due to arrive at Burlington 8:12 a. m., Oct. 12, and will be on side track near pasenger waiting room open to visitors. The car will leave on train No. 108, Oct. 13.

The Exhibit is complete in every detail, consisting of the leading varieties of corn on the stalk, showing the height, size and shape of the ears, and cross-sections of ears showing shape of grain and size of cob. Also museum jars graphically representing the differences between the different varieties for the number of years they have been tested. Representative types of each variety of corn have been carefully selected to show each variety, not at its best nor poorest, but as it grows under average conditions.

The different leading varieties sults of which are shown graph-

Other interesting features of the exhibit will be representative soil types of the State, shown in its natural state to a depth of 24 inches, with maps showing the location of these different types; also the results of fertilizer tests that have been made on these soils.

The leading varieties of apples peaches, and Irish potatoes will be shown in an attractive way.

A complete tobacco exhibit is lso with the car, showing the different grades of tobacco from the distinct tobacco belts of the State. A portion of the exhibit that will be of special interest to the women is the canned fruit and vegetable exhibit, canned by the Department of Agriculture.

Instructive charts, enlarged photographs and legaminous plants will be on exhibition also. The Exhibit is instructive, eduation and interesting, and something worth coming to see.
